Use Variety Numbers

Use Variety Numbers Every item in the catalog has been given a variety number. This was done so that you can refer to the items you are ordering (unless you wish to do so). It will help us to fill your order correctly and promptly if you will enter the variety number in the left half below and the flower seeds in the right half below. Use the back of this sheet for ordering goods listed in the Bulb & Shrub portion of the catalog, pages 37 to 56.

The Home of
"Seed Headquarters"

RIGHT IN YOUR OWN HOME

The ideal place for you to select the seeds, bulbs and shrubs for your garden, is right in your own home, where you can have the help of our family and this catalog. That is the reason we employ no agents, yet this catalog brings our goods as near to you as your own mail box.

It is to your advantage to buy from this catalog because

No Middleman's Profit

You like to know that no one else gets a commission, premium or profit on the money you spend, don't you? Our prices are not high enough to permit us to give any middleman one cent on your order. Our customers like this policy of rock-bottom prices.

Prices Include Delivery

You like to know exactly how much things are going to cost you, with no extras for packing, postage, express or freight, don't you? Every price in this catalog includes delivery to your nearest Post or Express Office (excepting only the wholesale quantities of a few kinds of shrubs offered on page 51).

Ordering Made Easy

Just three things to remember. First, use the order blank, which is bound in the front of this catalog, but which can be taken out easily. It is handy and will save you the bother of writing a letter about your order. Second, be sure to write your full name and address on the order. Third, in paying for your goods, use a Money Order if at all possible or your personal check. If you must send cash, be sure to register the envelope. By any of these methods, you have a receipt and by using our printed return envelope, you are insured against the order going astray.

When to Order

Early ordering is mutually helpful to you and to us. It helps you because it assures a complete assortment of all varieties being on hand, ready for your order. It helps us to lengthen out our season and give more uniformly careful service to all customers.

When Do We Deliver?

Seeds will be sent to you a few days after your order arrives. Bulbs, shrubs, roses, roots and vines will be shipped in another package, later. We watch the daily U. S. Weather Reports of temperature in all parts of the country and when these indicate planting season is at hand where you live, we ship your order to you. See page 37 for a full explanation of this.

Your Gardening Success

And our business success are very closely allied. We recognize this fact and are therefore very careful as to the quality of everything we offer you for your garden. We want to count you in as a Customer-Friend. Will you send us your order early this year? Thank you.

The Templin-Bradley Co.

The Front Cover—Petunias and Zinnias

745 Petunia, Fringed Scarlet Beauty

Its beauty is well shown on the cover, though the most skilled artist cannot quite get the velvety finish and delicate color shadings that the real flowers possess. Imagine how these brilliant scarlet, prettily ruffled flowers will brighten the appearance of your porch boxes and garden. Pkt. 20c, 3 pkts. 50c.

Balcony Petunias—Red, White and Blue

The Balcony Petunias may be depended upon to give a great wealth of color throughout the summer and until hard frosts in the fall. The plants are of half trailing habit, literally covering the ground. Use them for beds, dry banks, terraces, or rockeries or porch, or window boxes and urns. The color tones are soft and velvety.

742 RED, 743 WHITE, 741 BLUE

Price of any of above colors, Pkt. 10c, 1-16 oz. 40c.

744 Collection Balcony Trio. 1 pkt. each of the three colors Nos. 742, 743 and 741 for 25c, 3 pkts. each 65c, 1-16 oz. each \$1.00.

746 Complete Petunia Collection . . . 45c

One packet each of Nos. 745, 742, 743 and 741 for 45c.

Giant Dahlia Flowered Zinnias

This new race of Zinnias puts that good old fashioned flower on an entirely new plane. Many new colors have been obtained and the size and form of the flowers wonderfully improved. Even under ordinary conditions you will have flowers $3\frac{1}{2}$ to 5 inches across—almost as big as Dahlias. We offer them this year in separate colors as well as mixed and although the colors will not run 100% true it will certainly pay you to try some of the named varieties. For brilliant outdoor display or for exhibitions you cannot find better flowers.

The Back Cover—Tuberous Rooted Begonias

DESCRIPTIONS AND PRICES OF THE BEAUTIFUL COLOR PLATE ON BACK COVER.

To adequately describe the beauty of these flowers it would be necessary to coin new words and phrases. We know this, that nature has stolen for Tuberous Rooted Begonias the best features of many other flowers: the soft shades of the Gladiolus, the velvety richness of the Pansy, and in the double varieties the texture and form of the most beautiful Rose. In all the most exquisite range of colors imaginable.

The flowers vary greatly in size, the average being $2\frac{1}{2}$ to $3\frac{1}{2}$ inches in diameter. 6 inches, and had many 4 to 5 inches across. Our colored cover design was made from flowers grown in front of Mr. Templin's veranda.

IN THE OUTDOOR GARDEN. Tuberous Rooted Begonias make magnificent beds by themselves—or borders tucked around the edge of shrubbery or hardy flowering plants. We warrant that if you once try them you will always find room for them again.

THEY KEEP FOR YEARS. The tubers or bulbs increase in size each year, and may be kept from year to year. Mrs. O. E. Chamberlain of Lakewood, Ohio, still has some of the tubers she originally purchased from us in 1917.

HOW TO GROW THEM. With each order will be sent printed instructions for growing and taking care of the tubers.

We offer first size bulbs 1 to $1\frac{1}{2}$ inches in diameter in both single and double varieties. They are in separate colors but we do not guarantee the definite shades.

PRICES—SINGLE VARIETIES

1701 White, 1702 Pink or Rose, 1703 Yellows, 1704 Orange or Salmon, 1705 Scarlet, 1706 Dark Crimson. Ea. 35c, 2 for 60c, 4 for \$1.00, 6 for \$1.40.

1707 Mixed. Each 30c, 6 for \$1.20.

PRICES—DOUBLE VARIETIES

1712 White, 1713 Pink or Rose, 1714 Yellow, 1715 Orange or Salmon, 1716 Scarlet, 1717 Dark Crimson. Ea. 40c, 2 for 75c, 4 for \$1.40, 6 for \$2.00.

1718 Mixed. Each 35c, 6 for \$1.75.

Mr. Templin grew some flowers that reached

Tuberous Rooted Begonias as Cut Flowers

1725 Complete Collection of 12 Bulbs \$3.25

Consisting of one tuber of each color single and one each color double—12 tubers in all for \$3.25.

FLOWER SPECIALS

Out of thousands of varieties we have selected a few for these three pages that we feel deserve your special attention. Each is a leader in its class and each will help to make your garden the admiration of all who see it. Sure prize winners at exhibitions and flower shows.

544 Antirrhinum Maximum A new race of **Snagdragons**. The old types are indeed pretty but this new race is really magnificent in size of stalks, flower spikes and color shades. The mixture will contain pure whites, canary, yellow, orange, rose pinks, copper red, crimson, burnt orange, pastels and the rich autumn shades. Every color will please you and every packet of seed you buy will be long remembered. **Pkt. 25c, 2 for 40c.** (This strain is sold in some localities at \$1.00 per packet.)

556 Lavender Daisy (*Arctotis*) One of the loveliest of daisies, the flower white softly overlaid with pale lavender. The central disk is bright steel blue and lasting qualities make it a splendid cut flower. Starting to bloom in midsummer you can pick them a plenty until late fall. Plants 2 ft. high and flowers 2½ to 2½ inches across. **Packet 10c.**

548 Summer Christmas Tree (*Artemisia*) Forms a very ornamental pyramid-shaped tree 3 to 5 ft. high—resembling an Evergreen Fir Tree. Foliage is rich dark green. You will find it attractive planted as single specimens or as a border like Mexican Fire Bush. An annual making full growth from seed in one year. **Pkt. 15c, 2 pkts 25c.**

Lavender Daisy

Antirrhinum
Maximum

Four Magnificent New Asters

508 New Single **Marshall Joffre.** The plants are low and sturdy and fairly covered with large daisy like flowers. The petals are velvety crimson with gold and brown centers. Try a packet and you will be delighted with the many flowers you can pick from even a few plants. **Pkt. 10c, ½ oz. 25c.**

Aster, Betty J.

526 September Beauty

One of the loveliest Asters for cutting yet introduced. The plants are tall, with stems 10 to 15 inches long. The shade is like a delicately tinted peach blossom—soft flesh pink. The flowers come just before the American Branching type and are extra large and well formed. Be sure to have this beauty in your garden. **Pkt. 15c, 2 pkt. 25c, ½ oz. 50c.**

Early September Beauty Aster

525 Betty J. The new long stemmed Aster.

The stems are as long and the flowers large enough to rival Chrysanthemums. The plant in the illustration is 3 ft. tall. The lively rose pink of the flowers is the color so much in demand by cut flower buyers, with excellent lasting qualities either in the plant or cut in water. If you want to grow some real prize Asters Betty J. is the one you should have. **Pkt. 15c, 2 pkt. 25c, ½ oz. 75c.**

501 Heart of France

We have had countless praise of this beautiful Aster. Opening red as the purest ruby, Heart of France retains its remarkable beauty to the very end. The petals appear changeable and showing now a glow and a sheen quite unique, now a soft velvety texture, startlingly beautiful in any light, natural or artificial. It is by far the finest Aster introduction in the red shades for many years. **Pkt. 10c, 3 pkts. 25c, ½ oz. 40c.**

521

Novelty Aster Collection

One packet each of the four new Asters Nos. 526, 525, 501 and 508 for 40c.

Ageratum, Swanley Blue

639 African Daisy Golden Star.

Rare showy annual from South Africa and yet a flower easily grown in any fairly good soil. The little plants make a fine low border, almost hugging the ground, and spreading out to a width of 8 or 10 inches. The large daisy-like salmon orange flowers glisten in the sun like molten gold. Blooms from July to fall frosts. **Pkt. 10c, 3 for 25c.**

539 Summer Poinsettia

New Amaranth.

This brilliant foliage plant is an improvement over Burbanks Molten Fire. On good soil it grows 4 ft. tall and 3 ft. across. Large crinkly leaves and rich bronzy purple with a red blotch along the midrib. Then in August the terminal leaves turn fiery crimson like a poinsettia creating a sensation wherever grown. **Pkt. 25c, 2 for 40c.**

542 Ageratum Swanley Blue.

A very valuable addition to the "Blue" garden. Plants dwarf, compact and thickly studded with downy, bright blue flowers. Swanley Blue is an extra select English strain much larger flowered than the ordinary Ageratum. Excellent for bordering, also for porch or window boxes. **Pkt. 10c, ½ oz. 25c.**

MORE FINE FLOWERS

Plant Plenty of Flowers This Year

572 Calendula, The Ball Special Florist's Strain. For outdoor gardens as well. The Ball Calendula is by far the largest and finest Orange Calendula. Green houses now demand it, and even in your outdoor garden you can grow flowers 3 inches and more across and fully double. To get the finest flowers follow the planting directions printed on each packet. Pkt. 25c, $\frac{1}{4}$ oz. \$1.00.

573 Calendula, Lemon King A beautiful clear lemon yellow, free flowering and fully double. The best yellow Calendula. Combined with blue flowers this makes an extremely pretty bouquet. Pkt. 10c, oz. 40c.

Cosmos, Double Crested

617 Celosia New Chrysanthemum

Fine for garden display, cutting or everlasting winter bouquets. A wonderful new flower developed through years of patient effort from the old favorite Cockscorn. The heads are immense, often 8 or more inches across, and come in yellows, pastel shades, reds and deep maroons. Grand for garden display or fresh cut flowers. Directions for drying on each packet. Pkt. 15c.

903 Cardinal Climber

A distinct and valuable variety. A strong, rapid climber with dark green, fern-like, deeply laciniated foliage, and clusters of fiery cardinal-red flowers $1\frac{1}{2}$ inches in diameter. Likes sunny situation. See illustration on page 34. Pkt. 10c, $\frac{1}{4}$ oz. 40c.

638 Blue Lace Flower

(*Didiscus Coeruleus*) Queen Anne's Blue Lace Flower is a shade of "heavenly" blue that has decided value in the cut flower bouquet or in the open garden. Flower is almost ball-shaped, a compact mass of dainty individual florets, the whole charming and graceful. Plant the seed early in a cool, rather moist, part of the garden. Pkt. 15c, 2 pkts. 25c.

New Giant Morning Glory

575 Calendula One packet each Nos. 572 and 573 for 30c.

631 Cosmos, Double Crested

A new early flowering strain. The flowers are unique and exceedingly pretty, large, with double centers and an outer row or crest of broad ray petals. Blooms from latter part of August until way after the early frosts. At least 50 per cent will be double flowers. Pkt. 15c, 2 for 25c.

Plumed Knight

618 Plumed Knight

You will call this without qualification one of the most wonderful of all the flowers ever grown by mankind. It is the result of over twenty years of patient toil with certain members of the Celosia family. Actually it is difficult to convince people that it is a real flower and not immense richly colored Ostrich Plumes.

Each packet of seed will produce waving plumes in dozens of color shades—rose, silvery pink, salmon, red, purple, orange and yellow. And the texture of each bloom is like the softest, velvet plush. Some of the heads are a foot in diameter and we cannot attempt to adequately describe their beauty.

Plumed Knight is easy to grow and printed cultural directions will be with each packet. The plants are so highly bred to be almost seedless so the seed produced is almost as valuable as gold dust. Special pkt. 25c, 5 pkts. for \$1.00.

Two Fine Annual Larkspurs

675 Exquisite Pink

The most exquisite shade of soft rose pink imaginable. Gives beautiful long cut flower spikes all summer and fall. Pkt. 10c, $\frac{1}{4}$ oz. 35c.

676 Royal Blue A deep rich color so popular now. Tall double flowering like Exquisite. Pkt. 10c, $\frac{1}{4}$ oz. 35c.

680 Larkspur One pkt. each Nos. 675 and 676 above for 15c.

Delphinium, Gold Medal

957 Delphinium, Gold Medal

Our special Temley strain of Hardy Delphiniums. This strain embraces the finest collection of Hybrid Delphiniums the world affords. The shades range from pale lavender to deep indigo blue, a glorious mixture. We grow the finest English strains including the famous Blackmore and Langdons and the outstanding successes of this country. The result is the Special Temley strain—really magnificent. Pkt. 20c, 2 pkts. 35c. To be grown like other perennials.

918 New Giant Morning Glory

When properly grown these beautiful flowers will reach a diameter of 5 to 6 inches, twice the width of the ordinary strain. A grand mixture of striped and solid color varieties. They will not only surprise but please you immensely. Pkt. 15c, $\frac{1}{4}$ oz. 25c.

FOR 1925 GARDENS

A Trio of Beautiful Petunias

730 Giants of California

You will have to see these flowers to fully realize their marvelous size and beauty. Averaging 3 to 4 inches across, the flowers are frilled and lacy embracing dozens of color tones and shades. Frequently visitors to our gardens remark, "I didn't know such petunias existed." Whether you plant them in a big bed, a border or in porch and window boxes, there is surprise and delight in store for you. Pkt. 15c, 2 for 25c.

732 Double Fringed So many of our friends want a double petunia that we decided to offer this strain, the seed of which is worth many, many times its weight in gold. The flowers are large yet delicate, fluffy and airy, the petals prettily fringed. 60 to 75 per cent of the flowers should be fully double. Sold in double sealed packets. 30c each, 2 for 50c.

749 Petunia Trio 1 pkt. each of petunias Nos. 730, 732 and 738 for 50c.

738 New Triumph

A very bright flower, pink as the flesh of a ripe watermelon. The throat is yellow. A beautiful bedder with its upright growth and free blooming habit. The flowers are large though smaller than the Giants and are artistically ruffled. Pretty in porch and window boxes. Pkt. 15c, 2 for 25c.

Petunia, Giants of California

774 Portulaca Paris Beauty. Larger flowered than the old fashioned, and one of the brightest, showiest low border flowers in existence. Colored with the gayest purple dress, the flowers are formed like dainty single roses. Always blooms well even on the poor dry sandy soils. Pkt. 15c, $\frac{1}{2}$ oz. 60c.

765 Pansy, Miracle

Mastodon Mixed. We can almost say that miracles have been wrought in producing these wonder Pansies. The plants are hardy, very early flowering, bear huge blooms on long stems and the colors—well, they are beyond description. You should see a bed of these pansies in bloom. Do not buy this mixture unless you really want and will appreciate something quite out of the ordinary in pansies. Pkt. 35c, 3 pkts. for \$1.00.

823 Blue Salvia

Farinacea. You have admired the grand beds of red Salvia, but are you familiar with the beautiful blue variety of this same flower? It is nice for cutting or for bedding, the flowers being borne on tall graceful spikes. Try it this year. Pkt. 15c, 2 pkts. 25c.

Sweet Pea, Early Spencer

Petunia, Double Fringed

707 Border of Gold

Tagetes. This sunny little flower belongs to the marigold family, growing 12 to 15 inches high and making a compact plant. The foliage is fern-like and dainty. Planted in a row, all during the summer and fall you will have a golden stripe of bloom. The flowers are small but they literally cover the plants with sunshine. Pkt. 10c, 3 pkts. 25c, $\frac{1}{2}$ oz. 40c.

Buttercup or Santa Barbara Poppy

600 Buttercup Poppy

Golden Hunnemannia. Imagine great long stemmed buttercups over attractive lacy foliage and you have a picture of this poppy, the only poppy suitable for cutting. They bloom all summer and make such pretty bouquets that if you once try them you will want them always in your garden. Pkt. 10c, $\frac{1}{4}$ oz. 25c.

Makes a Showy Border

Zinnia Red Riding Hood

Sweet Peas

\$1.00

Collection Spencers

Winter Flowering Spencers. The collection below consists of one packet each of eight of the World's finest Sweet Peas. It includes the best colors of recent introduction, varieties that have won prizes in this country and abroad. The winter flowering Spencers are earlier than other varieties and are now demanded by those who grow flowers to sell. This collection is for you who want to excel in raising beautiful Sweet Peas. Order as follows:

804 1 pkt. each of 8 best varieties of Early Flowering Spencer Sweet Peas \$1.00

864 Zinnia Red Riding Hood. This little gem grows but a foot high; of compact form and covered the entire season with little button-like intense scarlet, very double flowers not over an inch across; as a border it is highly effective. Pkt. 10c, $\frac{1}{4}$ oz. 25c, oz. 75c.

404 Complete Novelty Flower Seed Collection \$4.00

As a special offer allowing you to try all the new flower varieties (collections excepted) on pages 7, 8 and 9, 31 varieties in all, we quote a price of \$4.00, regular value \$4.80.

VEGETABLE NOVELTIES

We Especially Recommend

Sure Crop Wax Beans

Sure Crop is sure to please

17 Sure Crop Wax Bean It seems as if Sure Crop was just made for the gardener in every way, in earliness, yield, appearance and quality. The big pods fill up a basket in no time and they are handsome enough to attract anybody's attention. When served on the table you will find them delicious and tender. In detail, the pods are $5\frac{1}{2}$ to $6\frac{1}{2}$ inches long—nearly straight, some being slightly curved—oval in cross section, and a beautiful clear yellow. You can begin picking in 60 days after seed is planted. Black seeded varieties are favorites with many gardeners, and Sure Crop is easily the best of that class. Pkt. 10c, $\frac{1}{4}$ lb. pkg. 18c, lb. 50c, 3 lbs. \$1.25, including postage.

9 New Bean, Masterpiece Dwarf Green Pod. Certainly the handsomest green pod bean in cultivation. The pods are extremely long, often 7 to 8 inches and straight as an arrow, oval, flat and slender. The pods are ready very early and should be pulled before overgrown. They become stringy if left too long on the plant. The best bean for a quick crop of tender pods. Price, pkt. 10c, $\frac{1}{4}$ lb. 18c, lb. 50c, 3 lbs. \$1.25.

8 Bean, Full Measure cent. b cause it yields a large quantity of fine, large, dark green, round pods. What is more they are fine-grained, tender, and of very good table quality. Full Measure is a great favorite in some localities both for home and market garden, and hundreds of growers recommend it. Price, pkt. 10c, $\frac{1}{4}$ lb. 18c, lb. 50c, 3 lbs. \$1.25.

A splendid dwarf green pod. The variety lives up to its name—100 per

Beet
Early Wonder
Smooth Tender
Early Sweet

46 Bean, Succotash Pole Did you ever hear of a bean having the flavor of Sweet Corn? Succotash combines the flavor of these two vegetables—hence the name, and we assure you it is well worth your trying. The seed is dark-colored and is a true bean, yet bears some resemblance to a kernel of corn. Grow this variety as you would other pole beans and use as snap pods or as a green shell bean. Pkt. 10c, $\frac{1}{4}$ lb. 25c.

122 Sweet Corn, Early Mayflower

The earliest of all white real sweet varieties. How would you like to be the first one to have sweet corn on the table before anyone else in your neighborhood? You can if you plant Early Mayflower—the earliest of all white true sweet corns, excepting none. The ears are surprisingly large for an early variety, averaging ten rows of the tender deliciously sweet kernels—a nice table size. The ears are about 7 inches long. A money maker for the gardener who wants to get the early high prices. Make several plantings of sweet corn to always have tender ears. Pkt. 10c, $\frac{1}{4}$ lb. 20c, lb. 55c.

Cabbage, Golden Acre

77 Cabbage, Golden Acre

A new extra early round head. When we first tried this cabbage at our testing grounds we were immediately struck with its earliness, a good hard solid head a week earlier than Copenhagen Market; and uniformity, each cabbage in the whole row being almost a perfect specimen; and absence of large outer leaves permit close planting. Golden Acre is certainly the finest round early cabbage ever introduced and yet it will stand sometime without bursting and is so solid and hard that it can be shipped or stored better than other early varieties. We recommend our strain without qualification. Pkt. 15c, $\frac{1}{4}$ oz. 50c, 1 oz. \$1.25.

99 Cauliflower, Dry Weather

or Danish Giant. This is a valuable strain that possesses the quality of forming good heads on dry soil and during stretches of dry weather, when other varieties fail. The head is beautiful, large, snow white and is protected by large leaves making it easier to "whiten" than Snowball. Only a trifle later than Snowball, perhaps not quite as good for greenhouse growing, but a wonder for the open ground. A sure header. Pkt. 15c, $\frac{1}{2}$ oz. 50c, oz. \$2.00.

Cauliflower, Dry Weather

55 Beet, Early Wonder

The illustration shows you the nice shape these roots grow, but it cannot describe the earliness, good quality and rich color. It really is a pleasure to go into the garden and pull such nice roots. Early Wonder retains its deep color well when stored or canned, and is a mighty good beet to eat. Pkt. 10c, oz. 20c, $\frac{1}{4}$ lb. 60c.

Seed Collections

If you would prefer to have us make flower and vegetable seed selections for you see pages 26 and 36 for good assortments.

71 Cabbage, Baby Head

Every garden, no matter how small, has room for a few plants of this wonderful new cabbage. The heads are only 5 or 6 inches in diameter, but solid, heavy, round as a ball and white. You can plant them close. Can you imagine a nicer cabbage for summer and fall salads? See illustration below. Pkt. 10c, $\frac{1}{2}$ oz. 25c.

Babyhead Cabbage

TRY THESE KINDS

For a Profitable Garden

155 Cucumber, Temley Hybrid

A remarkable example of what skillful hybridizing can accomplish, a cross between the long smooth English Cucumber and the White Spine. The result is a fruit longer than Long Green, slender, very dark green, quite smooth with deliciously crisp, sparkling, white flesh. A money maker for market and an extremely good cucumber for the home garden. **Pkt. 15c, oz. 40c.**

Cucumber, Temley Hybrid

152 Cucumber, Irish Queen

This variety is distinct from others, in that it is almost perfectly smooth, free from ridges or spines. The color is deep glossy green, so attractive for the home garden or market. Flesh crisp, sparkling and solid, an excellent slicer. The vines produce abundantly of slicers very uniform in size and shape. Also known as New Emerald. **Pkt. 10c, oz. 25c, 1-4 lb. 70c.**

See
the
Smile

Irish Gray Watermelon

202 Watermelon, Irish Gray

bright red flesh so

deliciously sweet and tender surely does hit the spot. The melon is distinct in appearance, long as shown in the illustration, but solid gray green in color. Altogether a most profitable melon to grow because of its quality, earliness (earlier than Tom Watson), and the remarkable number of fruits each vine bears. **Pkt. 10c, oz. 25c, 1-4 lb. 60c, lb. \$1.50.**

204 Watermelon, New Winter

How would you like a nice watermelon—long after the regular melon season is over? Then plant a few hills of New Winter Melon. New Winter is round, pale yellow when ripening, has bright red, sugar-sweet flesh. Take the melons from the garden before frost and store in a cool cellar and they will keep until Thanksgiving day. **Pkt. 10c.**

193 Muskmelon, Lake Champlain

fleshed melon in the market today. Records have been made of its being ready to eat 57 days after the seed was planted. Its vigorous growth, productiveness, hardness and good quality have been proved beyond any doubt. The flesh is golden yellow, deep and so temptingly sweet. In shape nearly round—medium size and heavily netted. For the earliest melons plant Lake Champlain. **Pkt. 15c, 1-2 oz. 50c.**

Without question
the earliest yellow

183 Muskmelon, Golden Hearts

Here is a melon to make your mouth water, the deep golden salmon flesh is so sweet. The melon is medium small, the size in much demand for the fancy hotel trade, averaging 5-6 inches in diameter, yet heavy because of the thick flesh and small seed cavity. It ripens right down to the rind. Often there will be as many as twelve melons to the vine, and they run remarkably uniform in size, shape and quality. **Pkt. 15c, 2 pkts. 25c, oz. 40c.**

Delicious Golden Hearts Muskmelon

192 Melon, Honey Ball

A brand new type of melon. We venture to say this is decidedly different and perhaps better than any melon you have ever grown. It is a cross between the luscious Honey Dew and the Cannonball Cantaloupe. The sugar-sweet flesh of the Honey Dew is retained and in all other ways it is much better. Honeyball is early, hardy, extremely prolific and the melons stand in good condition for a week to ten days after pulled off the vine.

It is round, and medium size. The rind is hard but very thin with a small seed cavity and extra thick flesh. Everyone who has tried Honey Ball is very enthusiastic. **Pkt. 15c, 2 for 25c.**

Melon, Honey Ball

173 Lettuce, Temley Evergood

Forms a head very quickly and has crisp, tender golden yellow inner leaves and heart. So it's certainly delicious to eat. Also it is almost a sure header and does not go up to seed as quickly as other early varieties. **Pkt. 10c, oz. 30c, 1/4 lb. 75c.**

203 Watermelon, Boy's Delight

Grown folks will like this melon, too, but its just made to order for the children. The melon grows 6 to 8 inches in diameter, round as a ball and dark green. The flesh is bright red and—Oh so sweet—you won't know when to stop eating. **Pkt. 10c, 3 pkts. for 25c.**

Lettuce, Temley Evergood

369 Wonder Egg Plant

Your friends will wonder where in the world this great long Egg Plant, often 2 feet in length, came from. A distinct novelty with purple pink skin—but good for cooking. Thin skin, tender flesh and few seeds. **Pkt. 15c.**

225 Oxhorn Onion

The introducer describes it as a distinct novelty in onions, growing 3 to 6 inches long and 2 to 3 inches in diameter. It is straw-colored, early and very mild. Some call it the best flavored onion grown. A small patch will produce lots of onions. **Pkt. 15c, 2 pkts. for 25c.**

Watermelon, Boy's Delight

VARIETIES TO PLEASE

The Most Critical Gardener

240 Pea, New Progress

In England where most of the world's finest peas have been introduced they consider Progress, the dwarf variety, par excellence. The 18 inch vines are loaded with very large dark green pods, bursting with large luscious peas. Try at least one row. The seed is as yet very scarce. Pkt. 15c, 1-4 lb. 30c, lb. 75c.

268 Pepper, Tomato Salad

This new pepper is so mild and so thick meated as to be almost like a tomato to eat raw or to slice for salads. And it resembles a tomato in appearance being flattened, round, smooth and bright scarlet red in color. The yield of fruits is extraordinary—much more than most peppers. You will certainly be pleased with Tomato Peppers. Pkt. 15c, 2 pkts. 25c.

238 Pea, Peter Pan

Largest Podded Dwarf. Peter Pan leads all the dwarf peas in total yield—size of pod and quality. Compared with a good strain of Notts Excelstor, Peter Pan gave fifty-five per cent more and larger pods. Under ordinary conditions, in seven weeks after the seed is planted in your garden you can begin picking the pods, and you will vote them the sweetest peas you ever put in your mouth.

The vines are sturdy and healthy, 15 to 18 inches tall. The pods are very broad, dark green, and average $3\frac{1}{2}$ inches long. Each pod contains 6 to 8 of the large delicious peas. Pkt. 10c, 1-4 lb. 20c, 1 lb. 60c, 3 lbs. \$1.50.

352 Rutabaga Golden Hearts

Here is a new Rutabaga or Swede, tender and sweet as can be. The roots are globe shaped, smooth, medium large with bronze or sometimes reddish tops. Flesh golden yellow. It would be hard to find anything in the whole vegetable list that gives as much good food for the space occupied as Golden Hearts Rutabaga. Make two plantings, one early, another later. Pkt. 10c, oz. 25c, 1-4 lb. 50c, lb. \$1.35.

Pea, Peter Pan

390 Spanish Peanuts

Extra early. By planting the extra early Spanish, they mature a nice crop if planted on light, sandy soil in full sunshine. The nuts are not quite so large as the ones usually sold, but are very solid and sweet. Just what the boys will want to plant. Instructions on each packet. Pkt. 10c, 1-4 lb. 20c, lb. 45c.

Peanuts, Early Spanish

302 Spinach, King of Denmark

Antvorskov. Will give you big cuttings of delicious, tender leaves for two weeks after other varieties of spinach have gone to seed. The long standing qualities are remarkable and yet it is a quick grower, coming medium early. Low compact plant; leaves broad, heavy, crumpled and dark green. Quality fine. Pkt. 10c, oz. 15c, 1-4 lb. 30c, lb. 90c.

Spinach, King of Denmark

Rutabaga Golden Hearts

Complete Index on page 54

330 New Burbank

The earliest tomato grown. To beat your neighbors with ripe tomatoes plant some Burbanks this year, in our experience the Earliest Tomato in existence. Burbank is everything that can be desired in a home garden tomato, attractive bright fruits, medium size, smooth—well formed and ripens evenly all over. It is a good cropper also. Pkt. 10c, 1-4 oz. 25c, oz. 75c.

Tomato, Burbank

"BEATS EARLIANA — 2 WEEKS"

Mrs. Gaskins of Tennessee writes: "Your tomato (The Burbank) is the nicest I ever used, also the earliest. I planted them with the Earliana and find them about two weeks earlier—and they had such a delicious flavor without that sharp acid so many tomatoes have."

333 Tomato Collection

One packet each of the above three Tomatoes Nos. 330, 332 and 331 for 35c.

332 Tomato, Gulf State

The heaviest yielding of all tomatoes—best and earliest of the purple pink varieties. That is the result obtained on our trial grounds where we tested all of the leading varieties. Plant Gulf State not only because it fills up the baskets so quickly, but because each fruit is so firm, almost true globe shaped—ripens uniformly, free from cracks or blemishes around the stem end. The vines are so vigorous the plants seldom blight. Pkt. 15c, 1-4 oz. 60c, oz. \$1.50.

Tomato

331 Golden Colossal

You should see the great big delicious fruits of this variety. As large as Ponderosa and quite like it in every way except color which is golden yellow. Very heavy, flesh solid like the "Beefsteak" with very few seeds. The flavor is different from the red variety, very sweet. Slices of this handsome yellow are attractive with slices of a red in salads. Pkt. 15c, 2 pkt. 25c.

Golden Colossal

405 Complete Novelty Vegetable Collection \$3.00

on pages 10, 11 and 12. 31 packets in all for \$3.00, regular value \$3.60.

One packet each of the varieties of vegetables (collections excepted) offered

A Partial View of Our Trial Grounds

Proof of Quality

The outward appearance of seed is seldom an indication of quality. You as buyer must place confidence in us as seedsmen. To merit this, we are very careful that our seeds are of the highest possible quality.

We know which growers produce the best seeds of the various kinds. Our contracts with these producers are made one and two years in advance so that we may be more certain of our supply.

To be sure of germination, we test each lot of seeds in our laboratory, immediately rejecting any seeds which do not come up to the standard we set. At our trial grounds, shown above, we made more than one thousand type tests in 1924.

In addition to proving that our seeds come up to catalog descriptions, we also try out new varieties, **before** we ask you to buy them. Many of our growers conduct even more extensive trial grounds which we visit for the purpose of study.

So you see, we strive continually to earn for our seeds the name we have given them, "Quality Seeds."

Will you test their quality this year?

Proof of Service

When you realize that we receive an average of 7,000 individual orders per day in the rush season, you can see why we must be prepared to give unusual service, lest we become swamped with the steady stream of orders.

First, and most important, we have an organization of carefully trained men and women. Second, farms, buildings, equipment and shipping facilities for producing and handling the goods we offer to you for your garden.

In our packing department we use eight automatic machines, each of which fills, seals and counts 30,000 packets per day. This equipment makes possible, sales of nearly 15,000,000 packets of seed annually.

The Post Office Department keeps clerks in our mailing department to cancel stamps and route packages direct to mail trains, so that the four to five tons of parcel post packages which leave our building daily will not be delayed. This is service.

An hour in our busy plant would show you how we are trying to give intelligent service to our customers.

Will you try us for service this year?

U. S. Postal clerks, right in our own building, cancel stamps and route packages direct to trains.

Section of order filling department. Daily capacity more than 300,000 packets.

Four to five tons of parcel post packages are started on their journey each day.

VEGETABLE SEEDS

We have always made it a matter of house policy to list only a few of the most worthy varieties which are in the greatest general demand. These are all certain to give uniform satisfaction. The wisdom of this action has been proven beyond a doubt as we are able not only to greatly reduce the cost of catalogs but also to sell larger quantities of each variety listed, at less expense. This saving is passed on to you in greater values for your money.

1 Asparagus New Washington. The new rust proof variety. Full description see No. 1595 on page 50. Pkt. 10c, oz. 20c.

Grow Plenty of Beans

They are easy to grow—not bothered by insects. By growing your own, you can have them always tender without bothersome strings. You always get so much back for your efforts. They give a large yield from a small space—even a 10 foot row giving several nice pickings. Beans provide many delicious and wholesome dishes. A $\frac{1}{4}$ -lb. package will plant a row 40 to 50 feet long.

To Have Beans at Their Best—Make several successive plantings. As most varieties are ready to pick in 45 to 50 days you can keep planting just as long as there is that much time left before frost. Another good idea is to plant an early and late variety at the same time, for instance, **Burpee's Stringless** and **1000 to 1 Green Pods** and **Webber** and **Hodson Wax Pods**. Pick beans while the pods are young and tender. Steady picking induces greater production. Do not jerk the pods off but snip them off with scissors, knife or finger nail.

CULTURE—Detailed directions on each package and in booklet "Better Gardens."

Dwarf Green Pods

*Full Measure. See No. 8 on page 10.
*Masterpiece. See No. 9 on page 10.

4 Burpee's Stringless Green-Pod (Round Pod).

The most popular of the round podded varieties. Early, very productive—pods tender, fleshy and free from strings. Whether for home or market, we know of no variety combining more good qualities. Ready to pick in 50 days. $\frac{1}{4}$ lb. pkg. 16c, lb. 45c.

5 Early Bountiful (Flat Podded). Will yield more than any other green pod bean in our list. Best of the flat podded stringless varieties, pods $6\frac{1}{2}$ to 7 inches long, stout, flat and nearly straight, stringless, and of fine quality; color light green. Very early, vigorous, hardy and productive. $\frac{1}{4}$ lb. pkg. 15c, lb. 40c, 3 lbs. \$1.10.

6 Giant Stringless Green-Pod (Round Pod). An exceedingly productive and very handsome stringless variety. Similar to Burpee's Stringless, but pods a trifle longer, straighter, and a shade lighter green. $\frac{1}{4}$ lb. pkg. 15c, lb. 40c, 3 lbs. \$1.10.

7 Refugee 1000 to 1 (Round Pod). A delicious bean with very tender, fine-grained, juicy, round pods. Planted with the early varieties, will bear a week later. $\frac{1}{4}$ lb. 16c, lb. 45c, 3 lbs. \$1.20.

Dwarf Wax or Butter Beans

Sure Crop Wax (Oval Round Pod). The best of the black seeded varieties. For full description see No. 17 on page 10.

18 New Webber Wax (Flat Pod). We asked our bean grower to name what he considered the best Wax Bean. His reply was,

"Webber Wax." It is very vigorous, healthy, and wonderfully productive. In our experience, Webber is invariably ready to pick before any other wax bean and will yield more than any with the single exception of Sure Crop Wax. Broad, flat, golden yellow, gracefully curved, pods are absolutely free from strings. $\frac{1}{4}$ lb. pkg. 15c, lb. 40c, 3 lbs. \$1.00.

19 Improved Golden Wax

(Flat Pod). Greatly improved over the old style Golden Wax, and it will pay you to plant our strain of this splendid variety. Pods perfectly straight, very broad, flat, but thick through, fleshy and stringless. An early abundant cropper. $\frac{1}{4}$ lb. pkg. 15c, lb. 40c, 3 lbs. \$1.00.

20 Stringless Refugee Wax

(Round Pod). Tender enough to melt in your mouth and absolutely stringless. Better in all ways than the old Refugee Wax. Productive and early. Round pods 5 inches long, very fleshy and curved. $\frac{1}{4}$ lb. pkg. 16c, lb. 45c, 3 lbs. \$1.20.

21 Hodson Wax (Flat Pod). A

wonderful yielder, the plants being loaded with long, straight, handsome creamy-white pods. Vigorous, hardy, always succeeding. Ready to pick 10 days later than Webber Wax. $\frac{1}{4}$ lb. pkg. 15c, lb. 40c, 3 lbs. \$1.10.

New Wonder Bush Lima Beans

New Webber Wax Beans

White Baking Bean

29 New Robust The best white bean for baking. Also called "1000 to 1" Field Bean. The dry beans are the same shape and color as the popular Boston Pea Bean, but it has been proved by experiment stations that New Robust outyields all other white beans. $\frac{1}{4}$ lb. pkg. 10c, lb. 30c, 3 lbs. for 80c.

Bush Lima Beans

32 New Wonder The recognized standard of bush Lima Bean quality. Large, robust, compact, plants; productive. Pods uniformly large, produced in clusters and maturing in midseason. Large flat beans of superior quality. Pkt. 10c., $\frac{1}{4}$ lb. 20c, lb. 55c, 3 lbs. \$1.50.

33 Henderson's Early The earliest of all Lima Beans—by planting it gardeners in even the northernmost States can enjoy Limas from their own gardens. Pods are small but borne so plentifully that the yield is large. Beans of excellent flavor. Pkt. 10c, $\frac{1}{4}$ lb. 18c, lb. 50c, 3 lbs. \$1.30.

Pole or Cornhill Beans

Succata sh Pole Bean. See No. 46 on page 10.

39 Kentucky Wonder or **Old Homestead**. The most useful and satisfactory of all the green podded Pole Beans. Early, wonderfully prolific, bearing continually until frosts; pods very long, in clusters. May be planted with corn. Pkt. 10c, $\frac{1}{4}$ lb. 18c, lb. 45c, 3 lbs. \$1.25.

40 Golden Cluster Wax The best of all the Wax Pod Pole Beans. Pods 6 to 8 inches long, in clusters, golden yellow, thick, fleshy and stringless. Shelled beans pure white. Pkt. 10c, $\frac{1}{4}$ lb. 20c, lb. 50c.

41 Lazy Wife One of the most popular either for snaps, shell beans (white seed), or dry beans for winter use. The pods are borne in large clusters. Long, broad, thick and fleshy, green pod. Pkt. 10c, $\frac{1}{4}$ lb. 18c, lb. 45c.

42 Cut Short or Cornhill Fine for planting in corn. Pods fleshy and of good quality. A good yielder and well liked wherever grown. Green pod. Pkt. 10c, $\frac{1}{4}$ lb. 18c, lb. 45c, 3 lbs. \$1.25.

43 Horticultural or Cranberry (Wren's Egg) Popular as a shelled bean, either green or dry. Dry seed speckled. Pkt. 10c, $\frac{1}{4}$ lb. 18c, lb. 50c, 3 lbs. \$1.25.

44 Pole Lima King of the Garden Extensive trials show this to be the best of all pole lima beans, unsurpassed in yield or quality. The vines produce continually until killed by frost. Pkt. 10c, $\frac{1}{4}$ lb. 20c, lb. 50c, 3 lbs. \$1.35.

45 Yard Long Pole Beans An interesting novelty from the old country. Long, slim, round pods often 2 to 3 feet long. A great curiosity that always attracts attention. Pkt. 10c, 2 pkts. 15c.

Golden Cluster Wax Bean

Tender Table Beets

Crosby's Egyptian Beets

WHY GROW BEETS—Root crops give more food value for the space occupied than any other vegetable. Beets are the most popular of all root crops. Beets may be stored for winter use.

Best of all, the small beets pulled and used soon after, are much sweeter and more tender than any you could buy. Try some buttered tender baby beets from your own garden this year. Make at least two plantings of beets so that you have plenty for early use and for winter storage as well. **Crosby's Egyptian** is best for early planting. **Detroit Dark Red** for canning or storing. **CULTURE**—Directions on packets and in booklet "Better Gardens."

52 Crosby's Egyptian The first to produce edible roots. Plant for earliest crop. An improvement on Old Egyptian. Roots slightly flattened, globe shape; skin blood red, flesh slightly zoned; tops small. A universal favorite. Pkt. 8c, large oz. pkg. 15c, $\frac{1}{4}$ lb. 40c, lb. \$1.25.

53 Detroit Dark Red The best for canning or main crop. Detroit makes a beautiful appearance served on the table or bunched for market, retaining its deep red color no matter how served. A big cropper with small upright tops permitting close planting. The roots are globe shaped. Skin and flesh dark blood red without the white zones. Sweet, tender and delicious. Pkt. 8c, oz. 15c, $\frac{1}{4}$ lb. 40c, lb. \$1.25.

54 Crimson Globe We are offering an unusually smooth strain that shows few rootlets. Medium size; globe shape. Flesh deep purple-red; lightly zoned. Sweet, tender, never stringy when grown under fair conditions. Pkt. 8c, oz. 15c, $\frac{1}{4}$ lb. 40c, lb. \$1.00.

Early Wonder For description see No. 55, page 10.

56 Eclipse Fine for the home garden because of its medium small smooth roots and very sweet tender flesh. Pkt. 5c, oz. pkg. 10c, $\frac{1}{4}$ lb. 30c, lb. 90c.

Swiss Chard

Swiss Chard or Spinach Beet

65 Lucullus No other vegetable will produce more nutritious greens from a small space than Swiss Chard. It grows rapidly, forming broad, flat, beautiful wax-like stems which are delicious when cooked and served like spinach or asparagus. Pkt. 8c, large oz. pkg. 15c.

Perfection Brussels Sprouts

68 Belongs to the cabbage family. Small heads of delicious quality are abundantly produced along the stem, the plants growing about 2 feet high. Cultivate same as late cabbage. Produce its tender little heads from October to December in the North, and throughout the winter in the South. Pkt. 10c, $\frac{1}{2}$ ounce pkg. 20c.

Brussels Sprouts

Pure Strains

Surely you want cabbage. Some food it will give you.

A nice head of cabbage doesn't require very much space in your garden, but what a lot of whole-creamed cabbage, cabbage salad, cold slaw, hot slaw, or kraut, and chances are you have some favorite methods of your own for preparing cabbage. For summer and early fall use plant early varieties like **Wakefield** or **Copenhagen Market**, cut as soon as the heads are hard; **Late Flat Dutch** and **Danish Ballhead** keep well for winter use.

CULTURE—Detailed directions on packets and booklet "Better Gardens."

Copenhagen Market

Cabbage

Early and Late

Early Summer Varieties

***Golden Acre** and ***Baby Head** See Nos. 77 and 71 on page 10.

73 Early Jersey Wakefield The best-known and most popular early variety. Uniform, conical or pointed, solid heads. More largely grown for early market than any other variety. The variety we would advise planting for the very earliest, either for home use or market. Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. 90c, lb. \$2.50.

Early Jersey Wakefield

74 Copenhagen Market The earliest of the large, solid, round head varieties, being only a few days later than Wakefield, but much larger and heavier. Heads average 8 to 10 lbs. each. Very compact in habit, with few outer leaves, which permit closer planting. Earliness, compact growth, large heads and superior quality have made this new cabbage very profitable. Pkt. 10c, $\frac{1}{2}$ oz. 20c, oz. 35c, $\frac{1}{4}$ lb. \$1.00, lb. \$3.50.

75 Glory of Enkhuizen A splendid new medium early variety from Holland, closely resembling Copenhagen Market, and by many considered the best early round head variety. Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. 90c, lb. \$2.50.

Good Cabbage Crops depend very largely on the quality of the seed you plant. If you plant our seed, rely on it, you take one important step toward that good crop.

Late Varieties

84 Premium Late Flat Dutch

Probably more largely grown than any other late variety, because everybody knows it is always reliable. Uniform, large, flattened heads of excellent quality and a good keeper. Largely grown to supply kraut factories. Will produce more tons per acre than any other variety. Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. 90c, lb. \$2.50.

85 Danish Ballhead The illustration from a photo taken in Denmark is a good representation of the kind of seed we offer. For quality no other winter Cabbage equals Danish Ballhead. It is a sure header, very heavy, solid and fine grained. Always brings the highest market prices. One of the best keepers, coming out of the pit in March or April fresh and solid. The heads are not as large as the American Drumhead varieties, but very much more solid. Pkt. 10c, $\frac{1}{2}$ oz. 20c, oz. 35c, $\frac{1}{4}$ lb. \$1.00, lb. \$3.00.

86 Burpee's Surehead Uniformly large, round, flattened heads of drumhead type. A universal favorite for winter use. A good keeper and of finest quality. Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. 90c, lb. \$2.50.

Pe-Tsai

87 Drumhead Savoy

Many consider Savoy the finest quality of all Cabbages. The leaves are finely curled and heads solid. If you have never grown Savoy Cabbage, try it this year. Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. \$1.00.

92 Red Delicious Many people prefer red cabbages to all other because of their distinctive flavor and cooking quality. After free packets of this variety were sent out to our customers under the name of No. 37, the letters we received regarding it were unanimous in naming Red Delicious—"the best of all red cabbages." Very early to head—yet heavy and solid like the old Red Rock. For salads and slaws it is delicious. Pkt. 10c, $\frac{1}{2}$ oz. 25c, oz. 40c, $\frac{1}{4}$ lb. \$1.25.

93 Red Dutch Pickling The most popular of the red pickling varieties. Large round, very solid heads, weighing 7 or 8 pounds. A splendid keeper. Popular for slaw and pickling. Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. 90c, lb. \$2.50.

94 Pe-Tsai (Chinese or Celery Cabbage). A new vegetable from China. By tying up the large outer leaves it blanches like celery. As a salad it rivals the finest lettuce, or cooked like cabbage or spinach, it makes splendid greens. For main crop sow the seed last of August, and transplant a foot apart. For early Summer use, sow the seed in early Spring. Pkt. 10c, oz. 30c.

Snowball Cauliflower

Premium Late Flat Dutch

Danish Ballhead

Cauliflower

CULTURE—For early crop, Cauliflower should be started in boxes or hotbed and transplanted when large enough. For main crop plant and cultivate same as late cabbage. When the heads begin to form gather the outer leaves and tie together to protect from the hot sun. Cauliflower is one of the most delicious vegetables grown, and by planting our "Quality" Seed in rich, deep, moist soil, the crop is almost as sure as cabbage.

***Dry Weather** The best for drier soils. Full description No. 99, page 10.

98 Early Snowball You will welcome this strain as one on which you can depend absolutely. It is the best in existence. Snowball is the earliest and best for the home gardener who has rich, moist soil, for market and for the greenhouse grower. The plants are compact, few outer leaves, heads solid, medium large and snowy white. In selecting this certain Danish strain we made sure that it would answer the requirements of the most critical gardener. Pkt. 15c, $\frac{1}{2}$ oz. 45c, $\frac{1}{2}$ oz. \$1.40, oz. \$2.50, $\frac{1}{4}$ lb. \$7.00, lb. \$20.00.

The best
for
first early

Earliest Scarlet Horn or French Forcing

used before fully grown while young and tender. Also called French Forcing. Pkt. 10c, ounce 20c, $\frac{1}{4}$ lb. 45c, lb. \$1.40.

103 Oxheart or Guerande. Especially good for shallow or hard soils. Short thick roots 2 to 3 inches or more in diameter. Abrupt blunt point, easily gathered. Finest quality for table use; also desirable for winter poultry food. Oxheart is often grown for stock feeding, yielding 15 to 20 tons per acre. Pkt. 8c, ounce pkg. 15c, $\frac{1}{4}$ lb. 40c, lb. \$1.25.

104 Danvers Half-Long The most popular Carrot in cultivation. Originated at Danvers, Mass. The roots will average $1\frac{1}{2}$ to 2 inches in diameter and 5 to 6 inches long, holding their thickness well to the point. More largely grown than any other variety. A favorite with market gardeners for bunching, making a fine appearance. Size, shape, color and sweetness are ideal. A first-class carrot for all soils. Not only desirable for table use, but a heavy yielder and good keeper for feeding stock. Pkt. 8c, ounce 15c, $\frac{1}{4}$ lb. 40c, lb. \$1.25.

For Stock Feeding

112 Mastodon Giant White. Best and largest stock Carrot grown. Nearly half its length grows above ground, making it easy to harvest. A wonderfully heavy yielder. Unsurpassed for feeding poultry and stock. Ounce pkt. 12c, $\frac{1}{4}$ lb. pkg. 30c, lb. 80c.

"Watch-em-Grow" Will help you to bring back your house plants this winter. See page 53.

Celery, Easy-Blanching

Carrots

Carrots deserve a space in your garden. In fact make several plantings so that you can have some early, mid-season and late. Carrots pulled just as soon as sizeable are at their best, tender without any hard core. **Earliest Scarlet Horn** give dandy little roots in 7 to 8 weeks from planting, while **Danvers** will be ready in about 10 weeks. Doctors recommend carrots as one of the healthiest vegetables to eat and the family who eats plenty of carrots will like those from their own garden best.

CULTURE—Detailed directions printed on each packet.

102 Earliest Scarlet Horn The earliest variety in cultivation. The best for early forcing and equally desirable for early garden culture. The tops are very small. The roots are reddish orange and are nearly round when forced quickly in very rich, well prepared soil, but are somewhat longer when grown out-doors. When fully matured the roots are about two to two and one-half inches long, but they should be

page 53

105 New Red Giant

Those who have tried Red Giant tell of the enormous size it grows on mellow soil, often weighing 3 or 4 pounds each; also of the tender flesh which cooks up without a hard, stringy core. In a nutshell, the facts are; Red Giant is actually a giant in size—is of excellent quality to eat, and of good appearance. **Red Giant will give you more edible carrots per foot or per acre occupied than any other existing variety.** Pkt. 10c, oz. 25c, $\frac{1}{4}$ lb. 60c, lb. \$2.00.

Mrs. H. N. Miller, of Ebenezer, N. Y., writes as follows: "I boiled some of the new Red Giant French Carrots for dinner and I must tell you they are delicious. I certainly shall recommend them to all my friends and neighbors. Five of them weigh 9 pounds. I have always found your seeds and service satisfactory."

Celery

CULTURE—Sow seeds in hotbed or cold frame. As soon as the plants are about 3 inches high, transplant to a nicely prepared bed in the border, setting them 4 or 5 inches apart. When about 8 inches high, and fine, stocky plants, set them out in rows 3 ft. apart and cultivate well during summer. Earth up for blanching in autumn, but never hoe or earth up when the foliage is moist or wet. A packet will produce 300 to 400 plants; an ounce 5000 to 6000 plants.

113 New Easy Blanching A new variety of great merit. The yellowish-green foliage. It is very easily blanched, and might be termed a second-early variety. Due to the solidity of the stalks it is a first-rate keeper. The flavor is first class, while the stalks are pure white, heavy and crisp. Pkt. 10c, $\frac{1}{4}$ oz. pkg. 15c, ounce 50c.

114 Golden Self-Blanching The best of all early self-blanching varieties. It is of dwarf compact growth, with thick, solid, heavily ribbed stalks, which blanch easily to a clear waxen-yellow. More extensively grown for both home and market than any other variety. Best French-grown stock. Pkt. 15c, $\frac{1}{4}$ oz. pkg. 25c, oz. 75c.

115 White Plume The earliest and most easily blanched celery in cultivation, hence its popularity. Foliage light green shading to nearly white at tips. Blanches silvery white. An excellent autumn variety. Pkt. 10c, $\frac{1}{4}$ ounce 15c, ounce 30c.

116 Giant Pascal A standard fall and winter variety of vigorous, compact growth. Stalks short, thick and broad. One of the best for winter use, excellent quality for home use, but too tender to stand shipping. Golden yellow heart, and fine nutty flavor. Pkt. 10c, $\frac{1}{4}$ ounce pkg. 15c, ounce 30c.

120 Celeriac Turnip-rooted Celery. The large, solid, turnip-like roots are highly esteemed for serving like parsnips or turnips or flavoring soups, etc. For winter and spring use, store same as turnips or beets. Pkt. 10c, $\frac{1}{4}$ ounce pkg. 15c, ounce 30c.

Golden Self-Blanching

Celeriac

Grow Sweet Corn

DO YOU KNOW WHY HOME GROWN SWEET CORN ALWAYS TASTES BEST? Within a few hours after the tender ears are pulled off the stalk they begin to lose their sugar, and they deteriorate rapidly in flavor. You can seldom buy absolutely fresh green corn—so unless you have grown your own you probably do not know how deliciously sweet it can be. Make several plantings of sweet corn—starting as soon as the soil is warm and frost danger is past, then a few more hills every week or ten days. The early varieties, like Golden Bantam, are ready to eat in about 70 days from planting. It is not difficult to can what you do not immediately use on the table. See the recipes in "Better Gardens."

CULTURE—Instructions on each packet and in booklet, "Better Gardens."

**Remember our Sweet Corn Prices include postage.
Write for prices on larger quantities.**

Golden Bantam

Early Mayflower Fine for home gardens. Read about this splendid variety, No. 122, page 10.

123 Golden Giant This valuable Golden Sweet Corn was introduced to combine size and earliness. It has attracted much attention and was in great demand last spring. It is a cross between Golden Bantam and Howling Mob, producing heavy stalks, usually carrying two large 12 to 14 rowed ears. The heaviest yielding early yellow variety. Pkt. 10c, $\frac{1}{4}$ lb. pkg. 18c, lb. 45c, 3 lbs. \$1.25.

124 Extra Early White Cory The old favorite extra early Sweet Corn. Ears 10 to 12 rowed, 7 to 8 inches long, fairly sweet, tender and white. Stalks about 4 feet high, usually producing two large handsome ears on each stalk. Pkt. 10c, $\frac{1}{4}$ lb. pkg. 15c, lb. 40c, 3 lbs. \$1.00.

125 Golden Bantam A very early Sweet Corn with golden-yellow grains. Generally considered the sweetest and tenderest variety in existence. Probably more extensively grown than any other early variety. A few days later than Cory. Height 4 to 5 feet. Ears 6 inches long. Eight rows of kernels. Our stock is the best Northern Ohio grown. Sure to please. Pkt. 10c, $\frac{1}{4}$ lb. 16c, lb. 40c, 3 lbs. \$1.10.

126 Black Mexican By many considered the tenderest and sweetest of all. Cooks pure white while young and tender, turning to bluish-black when ripe. Ripens medium early. Pkt. 10c, $\frac{1}{4}$ lb. pkg. 18c, lb. 40c, 3 lbs. \$1.10.

and tender, turning to bluish-black when ripe. Ripens medium early. Pkt. 10c, $\frac{1}{4}$ lb. pkg. 18c, lb. 40c, 3 lbs. \$1.10.

127 Country Gentleman or Shoe-Peg. A well-known variety which is par excellence where quality is desired. The kernels are so deep that there is little room left for cob. Very productive. Market gardeners who supply hotels and high-class restaurants depend on this for main crop. The ears are 6 to 7 inches long, small white cob, with narrow deep grains in irregular rows. Pkt. 10c, $\frac{1}{4}$ lb. 20c, lb. 55c, 3 lbs. \$1.50.

128 Stowell's Evergreen The standard main crop variety, much used for the home garden, market and canning. It is hardy and productive, very tender and sugary, remaining a long time in condition suitable for boiling. Our stock has been carefully grown and selected to avoid the tendency to a shorter grain and deterioration in the evergreen character. Pkt. 10c, $\frac{1}{4}$ lb. 20c, lb. 55c, 3 lbs. \$1.50.

Country Gentleman

Golden Giant

"Always Tender" Sweet Corn Collection

These three varieties follow each other in reaching the edible stage. By planting some of each at the same time you will have sweet corn for your table, always tender and delicious.

Golden Bantam, Golden Giant, Stowell's Evergreen

135 Pkt. each of the above three varieties for 25c.

136 $\frac{1}{4}$ lb. each of the above three varieties for 50c.

SWEET CORN SEED IS SCARCE THIS YEAR—ORDER YOURS EARLY.

The sweet corn crops, because of adverse weather condition, were way below normal and in fact many crops are unfit for seed purposes. This means that good seed, especially of the late varieties, is scarce and higher in price.

Pop Corn

138 Japanese or Australian Hulless. A dwarf-growing corn, a heavy yielder of attractive ears, peculiar in form, being nearly as thick as long. The kernels are similar to the best strains of White Rice, only longer and slimmer and pearly white in color, but its crowning merit lies in its popping quality, fine flavor and absence of hull or shell. Pkt. 8c, $\frac{1}{4}$ lb. pkg. 15c, lb. 35c, 3 lbs. 90c. Popping stock, 5 lbs. 85c. Postpaid.

139 Improved White Rice For years this was considered the "only" Pop Corn, and commercially it is still sold more than all other varieties. Our strain is selected to produce more ears per stalk, and will often produce 3 to 4 fine ears. Pkt. 6c, $\frac{1}{4}$ lb. 12c, lb. 30c, 3 lbs. 75c. Popping stock, 5 lbs. 70c, postpaid.

140 Queen's Golden Imagine great flaky kernels of Popped Corn nearly an inch across. Creamy white in color and tender enough to melt in your mouth. Queen's Golden will give you that pleasure. The ears are rich golden yellow and are the largest of all pop corns. Pkt. 8c, $\frac{1}{4}$ lb. 15c, lb. 35c, 3 lbs. 90c. Popping stock, 5 lbs. 90c, postpaid.

366 Collards These belong to the cabbage family, and are largely grown in the South to use as boiling greens during the winter months. Also valuable for furnishing green forage for poultry, as it continues to grow all winter in the South. Freezing does not injure but improves the quality. Pkt. 10c, ounce 20c.

367 Witloof Chicory—French Endive A delicious new salad plant that you should try this year. In great demand in our fashionable hotels at high prices. You can easily grow it. Cultural instructions on each packet. Pkt. 10c, oz. 30c.

Japanese Hulless

Cucumbers

DO YOU LIKE COOL SLICED CUCUMBERS IN HOT WEATHER?

When you can go out in your garden and pick a few nice slicers just before meal time, they taste ever so much better than those found in the market in more or less wilted condition. Plant a hill of Cucumbers wherever there is room. The more you gather the more the vines will bear. Pick your cucumbers as soon as they reach edible size.

CULTURE—Detailed directions on every packet and in booklet "Better Gardens."

*Temley Hybrid and *Early Fortune

See Nos. 155 and 156 on page 11.

145 Early Klondyke An extra-early strain of White Spine, remarkable for its shapely fruit and uniformly dark green skin. Popular with southern planters who grow for the early northern markets, and equally desirable for home garden. Pkt. 10c, ounce 20c, $\frac{1}{4}$ lb. 45c, lb. \$1.25.

146 Davis Perfect Long, slim, smooth, and especially handsome for its healthy dark green color, which it retains so long that it always brings the highest price on the market. Fruit often grows 10 to 12 inches long, and the tender, sparkling, white flesh makes it most desirable for slicing on your table. Pkt. 10c, ounce 30c, $\frac{1}{4}$ lb. 65c, lb. \$1.75.

147 Improved White Spine

The best-known and universally satisfactory variety more extensively grown than any other. No other variety excels it in productiveness, and in color, form, and quality it is all that can be desired. Normal size 6 to 7 inches long and 2 $\frac{1}{2}$ inches in diameter. Pkt. 8c, ounce pkg. 20c, $\frac{1}{4}$ lb. 45c, lb. \$1.30.

151 Lemon Ripens to about the size and color of a lemon. Flesh white, with a peculiar sweet flavor. Fine for pickling and preserves. Pkt. 10c.

153 China An oriental variety. 15 to 18 inches long and slender. Crisp, white flesh for slicing. Pkt. 10c.

Extra Long Green Cucumber

154 Japanese Climbing This variety is actually a climber. It climbs quickly on fences or trellises and is entirely distinct. The quality is splendid for pickling or slicing. Long, attractive, deep green, smooth fruit, 10 to 12 inches in length. A valuable variety for small gardens. Pkt. 10c, ounce 25c, $\frac{1}{4}$ lb. 60c, lb. \$1.75.

Egg Plant

368 Egg Plant

New York Spineless. Fruit large, smooth, glossy, rich purple, and of excellent quality. Cultural instructions on each packet. Pkt. 10c, $\frac{1}{4}$ ounce 20c, ounce 50c.

Wonder Egg Plant. See No. 369 on page 11. Try this novelty this year.

372 Endive

Green Curled. This is the best known and most desirable variety. Highly prized as a salad during autumn and early winter. Also may be served like Spinach. Seeds should be sown in July and transplanted in rows last of August. For early summer use sow seed in early spring. Blanching may be done by tying up the outer leaves or by covering with straw. Pkt. 10c, ounce pkg. 20c.

Okra or Gumbo

374 White Velvet Largely used in the South, both as a separate dish and for soups. The tender seed pods are cooked like asparagus. Should be more largely grown in the North. Pkt. 8c, oz. 15c, $\frac{1}{4}$ lb. 30c.

375 Kohlrabi (Early White Vienna) Also called "Turnip Rooted Cabbage." Forms large turnip-like bulbs on the stem above ground. Should be used while young and tender, when they are sweet and nutritious. Culture same as early cabbage. Very much sweeter than Turnips. Pkt. 8c, $\frac{1}{2}$ oz. 15c, oz. 30c.

378 Kale or Borecole. Popular boiling-greens for fall, winter, and spring. Very popular in the South. Quite hardy and deserves more general cultivation in the North. Freezing does not injure but improves the quality. If you keep poultry be sure to grow some kale for them. Pkt. 8c, $\frac{1}{2}$ oz. pkg. 15c, oz. 25c.

Improved White Spine The Most Popular Slicer

148 Jersey Pickle Very prolific and exceedingly popular. Largely planted for pickles. The fruits are short, smooth, bright green and of excellent quality. We recommend Jersey Pickle for the home garden, as it is a good slicer as well as pickler. Pkt. 10c, ounce 25c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

149 Chicago Pickle

Meets the most exacting requirements of critical pickle makers. It is the right size, shape and color, and is a heavy yielder. Pkt. 8c, oz. 20c, $\frac{1}{4}$ lb. 45c, lb. \$1.30.

150 Extra Long Green

A model in size, form, and color. Uniformly long and smooth, deep green in color. A money maker for the market gardener and a universal favorite for home use. Fruit 12 to 15 inches long, flesh solid and crisp with few seeds. Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. 65c, lb. \$2.00.

***Irish Queen** See No. 152 on page 11.

Chicago Pickle

Kohlrabi

381 Mixed Herbs

Your garden is not complete without a row of the good old-fashioned herbs such as Dill, Anise, Sweet Basil, etc. In the old days herbs were indispensable and certainly they should not be forgotten now. Pkt. 10c.

Grand Rapids Lettuce

166 Early Prize Head ("The Red Lettuce")

One of the best of the thin-leaved varieties for the home garden. Leaves very large, curled or crimped, bright green, tinged with brownish-red at the edges, tender, crisp and sweet, forming large loose heads. Pkt. 8c, oz. 25c, $\frac{1}{4}$ lb. 55c.

Cabbage or Head Lettuce

167 Big Boston A fine big, crisp tender, cabbage-heading Lettuce. Sure to please the most critical grower. Largely grown in the South to supply the Northern winter and early spring market, and equally good for growing in the home garden. Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. 65c.

168 Burpee's Wayahead An extra-early head Lettuce producing medium-sized heads which are tightly folded, the inner leaves blanching to a rich, buttery yellow. Always crisp and tender. Pkt. 8c, ounce 25c, $\frac{1}{4}$ lb. 55c.

169 Improved Hanson In table quality the Hanson is perfection itself, being free from bitter taste. Forms immense, tender, crisp heads. Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. 65c.

170 California Cream Butter (Royal Summer Cabbage or German Butter) A reliable heading variety. The heads are a rich, creamy yellow inside and of a tender buttery flavor. Outer leaves, green, spotted brown. Stands hot dry weather remarkably well. Pkt. 10c, ounce 25c, $\frac{1}{4}$ lb. 60c.

171 New York (Los Angeles or Cabbage) One of the largest varieties grown, forming immense heat-resisting heads, during the summer months. Outer leaves dark green, but the heart blanches white, crisp and tender. Some produce men sell this variety as Iceberg Lettuce. Pkt. 10c, ounce 30c, $\frac{1}{4}$ lb. 70c.

172 Cos (Romaine, or Celery) An entirely distinct type of Lettuce that should be more largely grown. By many considered superior in quality to all others. Forms oblong heads of large size and blanching white and tender. Pkt. 10c, oz. 25c.

182 Mixed Lettuce This is certainly a bargain packet and you will be interested in watching the characteristics of the different varieties as they develop. Pkt. 5c, ounce 15c, $\frac{1}{4}$ lb. 45c.

Cos or Celery Lettuce

Lettuce

Lettuce is the most popular of all salad crops. It is mighty convenient to have plenty in your garden to be had at a minute's notice. For an all season supply you must make several plantings and of more than one variety. For instance, **Grand Rapids** comes quickest in early spring, but for summer you want heading varieties. Our booklet, "Better Gardens," tells how to grow head lettuce to perfection.

CULTURE—Detailed instructions on each packet and in booklet, "Better Gardens." Booklet free with \$2.00 orders.

Curled or Loose Leaf Lettuce

164 Grand Rapids

In our trial grounds last season this was the first Lettuce to reach edible, or marketable stage. The big loose heads with bright green crinkled and curled leaves are very attractive, tender and crisp. Used almost exclusively for forcing during the winter. The heads remain fresh several days. Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. 65c.

165 Early Curled Simpson

One of the most satisfactory varieties for early outdoor planting, forming large, loose heads of an attractive light yellowish green. The leaves are ruffled and curled, and always very tender. Resists heat and remains in edible condition a long time. Pkt. 8c, ounce 25c, $\frac{1}{4}$ lb. 55c.

***Templey Evergood** See No. 173, page 11.

Big Boston Head Lettuce

Watermelons

CULTURE—Detailed instructions on each packet and in booklet "Better Gardens".

Irish Gray, Boys' Delight, New Winter See Nos. 202, 203, 204 on page 11.

205 Cole's Extra Early Decidedly the finest variety for the home garden in the North. Very hard and productive, of medium size and nearly round. Skin mottled dark and light green; flesh dark red, of granulated sparkling appearance, very sweet. Pkt. 6c, oz. 15c, $\frac{1}{4}$ lb. 40c, lb. \$1.20.

206 Golden Honey If you are prejudiced against golden fleshed watermelon, you will forget it after tasting Golden Honey. It is rightly named, as the flesh is golden yellow, and sweet as honey. Fruit medium large, oblong, dark green. Try a packet. Pkt. 10c, ounce pkg. 25c, $\frac{1}{4}$ lb. 60c.

207 Halbert's Honey One of the finest melons for the home garden, of superb luscious quality. Medium large, oval. Dark glossy green; flesh bright crimson. Very tender and sweet. Pkt. 8c, oz. 20c, $\frac{1}{4}$ lb. 45c, lb. \$1.25.

216 Citron (Redseeded). The citron makes delicious preserves. They are easy to grow, keep well in storage. Cultural direction and a nice recipe printed on the packet. Pkt. 10c, oz. 25c.

Kleckley's Sweets—Our Improved Strain

Cole's Early Watermelon

208 Kleckley's Sweets

A general favorite with all lovers of sweet and luscious melons, and cannot be too highly recommended for either private gardens or for near markets; is oblong, of good size, skin dark, rich green, thin and brittle, flesh bright scarlet, crisp, sugary and melting. Pkt. 10c, oz. 25c, $\frac{1}{4}$ lb. 50c, lb. \$1.40.

Tom Watson Watermelon

209 Tom Watson The most popular of all melons. Very largely grown for market. A long green variety of large size and very heavy; flesh bright red and of excellent quality. We sold 60,000 packets of this variety in 1923. Pkt. 8c, oz. 20c, $\frac{1}{4}$ lb. 45c, lb. \$1.25.

210 Sweet Heart Large, oval fruit. Dark green, mottled light. Flesh bright red, tender and sweet. Pkt. 8c, oz. 20c, $\frac{1}{4}$ lb. 45c, lb. \$1.25.

Ohio Yellow Globe Danvers

220 Prizetaker A splendid large growing variety to grow for fall markets or home use. With favorable conditions they may be grown from seed, to weigh two pounds or more. Handsome, straw-yellow skin, resembling the imported Spanish Onion. Very productive. More than 500 bushels have been grown to the acre. The flesh is mild, tender, and of excellent flavor. Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. 85c, lb. \$2.50.

221 Mammoth Silver King This mammoth white variety is one of the largest in cultivation. It is of uniformly large size and fine shape, being flattened but thick. The skin is of a beautiful silvery white, flesh snowy and tender, of a mild, sweet flavor. Its large size and handsome appearance recommend it for exhibition at fairs, for the fancy market, as well as for the home table. Pkt. 12c, ounce 45c, $\frac{1}{4}$ lb. \$1.10, lb. \$3.50.

222 Southport White Globe The most attractive white Onion grown, always commanding the highest market prices. Perfect globe-shape, and clear, transparent skin; flesh crisp, fine grained, and mild in flavor. Pkt. 10c, ounce 35c, $\frac{1}{4}$ lb. \$1.00, lb. \$3.00.

223 Southport Red Globe A beautiful, large, red Onion. Largely grown for fall and winter markets. Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. 85c, lb. \$2.50.

Prizetaker and Red Wethersfield

219 Large Red Wethersfield

This is a popular variety for winter markets, being an excellent keeper. With proper soil and culture they will quickly grow to marketable size from seed. The skin is deep purplish red; flesh white, sometimes slightly tinged pink; mild and sweet. Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb. 85c, lb. \$2.50.

*Oxhorn See No. 225, page 11.

Mammoth Silver King

224 Pickling Onion Extra Early Silver Bell. The earliest onion in cultivation, being a selected strain of the Italian barletta. The skin is pure transparent, waxy, silver-white; very mild flavor. Pkt. 12c, oz. 50c, $\frac{1}{4}$ lb. \$1.50, lb. \$4.25.

Muskmelons

CULTURE—Detailed instructions on each packet and in booklet, "Better Gardens." Booklet free with \$2.00 orders.

New Golden Hearts The sweetest melon imaginable. See full description, No. 183 on page 11.

***Lake Champlain** See No. 193 on page 11.

184 Gold Lined Rockyford or Delicious. This new melon retains all the good qualities of Rockyford, and is superior in many respects. Introduced by J. C. Robinson, the veteran Vine Seed Grower, is a guarantee of its high qualities. The green flesh, which is remarkably sweet and juicy, has a lining of gold, which greatly adds to its table attractiveness. Pkt. 10c, oz. 25c, $\frac{1}{4}$ lb. 75c, lb. \$2.00.

185 Extra Early Knight Extra early, highest quality. Medium size. Slightly oval, distinctly ribbed and netted. Very sweet. Flesh, green blending to pink. Pkt. 10c, oz. 25c, $\frac{1}{4}$ lb. 75c.

Emerald Gem

186 The Famous Honey Dew

An entirely distinct melon that created a sensation when first placed on the market. The fruit is quite large, 8 to 10 lbs., nearly round, perfectly smooth skin. Color nearly white turning to a light lemon-yellow. The green flesh is indescribably sweet with a distinctive delightful flavor. Pkt. 10c, ounce pkg. 25c, $\frac{1}{4}$ lb. 75c, lb. \$2.00.

***Honey Ball** See No. 192 on page 11.

Osage Muskmelon

Gold Lined Rockyford or Delicious

187 Banana An odd melon because of its shape, but some like it better than any other. Skin smooth, and the color of a banana. Grows 18 to 24 inches long. The thick orange flesh melts in your mouth. Pkt. 10c, ounce 25c, $\frac{1}{4}$ lb. 75c.

188 Emerald Gem Grows just the right size for your table, and is sweet as honey. The melon is not large, but very prolific. In shape it is round, slightly flattened at the ends. Skin emerald green under the netting. Flesh rich orange-yellow. Matures early. Pkt. 10c, oz. 25c, $\frac{1}{4}$ lb. 70c, lb. \$1.90.

189 Osage or Miller's Cream, sometimes called the Queen of Melons. One of the best known and desirable melons to plant. Size medium large, almost round, deeply ribbed. Color dark green, with lighter bands between the ribs. Flesh very thick, rich orange salmon, and of superb quality, sweet and melting. Pkt. 8c, oz. 20c, $\frac{1}{4}$ lb. 60c, lb. \$1.75.

190 Rocky Ford The best known variety and more largely grown than any other. Flesh green, thick, juicy and of delicious flavor. Our seed is Northern grown, insuring early maturing crops. Pkt. 8c, ounce 18c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

191 Vine Peach or Vegetable Orange. Grows on vine similar to Muskmelon, requiring the same cultivation. The fruit is about the size and color of an orange. Recommended for sweet pickles, preserves or pies. Instructions how to cook and preserve on each packet. Pkt. 10c, 2 pkts. 15c.

Garden Peas

One-fourth pound will plant a 50 ft. row.

Peas from your own Garden—Picked only an hour or two before eating are twice as sweet as those that have been in a store for a day or two. That is a proven fact. Peas produce early—they make your garden begin to pay quick. They do well on any fair garden soil—easy to tend, requiring little attention, and everybody likes sweet fresh peas. Plant both early and late varieties so that there will always be plenty to fill the basket.

***Progress** See No. 240 on page 12.

234 Extra Early Alaska or **Earliest of All.** The hardiest of the extra-early varieties. Very productive. Peas smooth, bluish green, very fair quality. More extensively grown for early market than any other variety. Height 2 feet. Pkt. 10c, $\frac{1}{4}$ lb. 18c, lb. 50c, 3 lbs. \$1.35.

235 First-in-Market Extra-early, smooth, white-seeded. Height 2 feet. Well filled pods 2 to 2 $\frac{1}{2}$ inches long. Our strain is same season as Alaska and yields about 10 per cent more. $\frac{1}{4}$ lb. 15c, lb. 40c, 3 lbs. \$1.00.

236 Nott's Excelsior The earliest dwarf wrinkled pea. A very fine, highly bred variety of sturdy, compact, dwarf growth, 18 to 20 inches high. Pods chock-full of large luscious peas of unusually sweet flavor. $\frac{1}{4}$ lb. 15c, lb. 45c, 3 lbs. \$1.15.

237 Thomas Laxton The best quality and heaviest yielding of all early tall peas—only 10 days later than Alaska, vines 2 $\frac{1}{2}$ ft. tall. Pods long, broad, handsome, packed full of deliciously sweet peas. You can pick enough for a nice meal in short order. Outyields the old favorite Gradus fully 25 per cent. Pkt. 10c, $\frac{1}{4}$ lb. 18c, lb. 50c, 3 lbs. \$1.35.

Peter Pan The best dwarf pea. See No. 238 on page 12.

239 Alderman Height 4 $\frac{1}{2}$ feet. Of the well known Telephone type, but of a darker green color. Very robust and productive. Peas of large size and unsurpassed in quality. Best of the large main-crop varieties. $\frac{1}{4}$ lb. 15c, lb. 45c, 3 lbs. \$1.15.

Edible Podded Peas

251 Mammoth Melting Sugar Height 5 ft. Well deserves its name. Should be cooked and eaten pods and all, the same as wax beans. Pods are stringless and when cooked are tender, sweet and sugary. Pkt. 10c, $\frac{1}{4}$ lb. 18c, lb. 50c.

252 Dwarf Gray Sugar Height 18 inches. Similar to Melting Sugar, but of dwarf growth, requiring no brush, with smaller flat pods about 3 inches in length. $\frac{1}{4}$ lb. 15c, lb. 40c, 3 lbs. \$1.00.

Remember that our prices on Peas include delivery to your post office.

Parsnip

256 Large Sugar Improved Hollow Crown or Guernsey. An improved strain of the well known Hollow Crown. Roots are not as long but greater in diameter. Very productive. Large white roots, tender and sweet. Generally considered the best. Then why should we confuse the buyer by listing 3 or 4 other varieties? Pkt. 6c, oz. 15c, $\frac{1}{4}$ lb. 35c, lb. 75c.

Large Sugar Parsnips

Parsley

260 Champion Moss Curled The best curled leaf variety for garnishing soups or stews. Pkt. 8c, oz. 20c.

261 Turnip Rooted Forms an edible root resembling a small parsnip. Pkt. 10c, oz. 25c.

Peppers

265 New Royal King A fine new variety, an improvement over the popular Ruby King. A very heavy bearer. Thick-meated and of mild flavor. Undoubtedly the "one best" pepper to grow. Pkt. 10c, $\frac{1}{4}$ oz. 20c, oz. 50c.

266 New Early Sweet Salad A new sweet, upright Pepper, so sweet that it may be eaten raw. Just the right size for stuffing and frying and a dandy for salads. Pkt. 10c, $\frac{1}{4}$ oz. 25c, oz. 6c.

267 Small Hot Varieties A mixture including

Cayenne, Celestial, Tabasco, Coral Gem, Red Cherry. Excellent for pepper sauce, etc.; also interesting as ornamental plants. Pkt. 10c, $\frac{1}{4}$ oz. 20c.

Pumpkins

274 Small Sugar Pie Is so well known as the best pie pumpkin it requires little description. The fruit is small to medium, with solid fine grained flesh. Pkt. 8c, oz. 20c, $\frac{1}{4}$ lb. 45c.

275 Tennessee Sweet Potato Resembles a Sweet Potato in flavor. It is pear-shaped and slightly ribbed. Color creamy-white. A first-class keeper. Pkt. 10c, oz. 20c, $\frac{1}{4}$ lb. 50c.

276 Jumbo or **King of Mammoths.** Fruit enormous size—often 150 to 200 pounds. So grow a few for the county fair. Fair quality for pies and great for stock food. Pkt. 10c, oz. 25c, $\frac{1}{4}$ lb. 65c.

Small Sugar Pie Pumpkin

TRY THE NEW SALAD PEPPER, SHAPED LIKE A TOMATO. SEE No. 268 ON PAGE 12.

Earliest
Scarlet
Globe**282 White Tip Scarlet Gem**

or **Sparkler**. A very early and attractive variety of the globe or turnip shaped class. Bright scarlet with a distinct white tip. Very popular for home and market. Pkt. 10c, oz. 20c, $\frac{1}{4}$ lb. 40c, lb. \$1.00.

283 White Box A popular, early, round radish with white skin, and crisp tender flesh. Stands hot weather well. Pkt. 10c, oz. 20c.

Long Scarlet, Chartier, Icicle

Radishes

For Spring, Summer and Winter

CULTURE—Detailed instructions on each packet and in booklet "Better Gardens."

Radish Seed Quality

There are two kinds of Radish Seed. One will produce good, crisp roots; the other will run to tops. Our seed has been carefully selected for its root forming quality and will give you crisp, sparkling roots.

281 Earliest Scarlet Globe

This is the most popular of the extra-early globe varieties. It is of rapid growth, brilliant scarlet in color. Has small tops, and is probably more largely grown for home and market than any other variety. Pkt. 8c, oz. 18c, $\frac{1}{4}$ lb. 35c, lb. 90c.

White Tip Scarlet Gem

286 Earliest Long Scarlet

The finest strain of this very popular Radish. The long slim roots look nice and taste good, crisp and appetizing. Plant for second early, ready in about 35 days. Pkt. 10c, oz. 18c, $\frac{1}{4}$ lb. 35c, lb. 85c.

287 Long White Icicle

The finest White Radish grown. Long slender root which remains tender and crisp until grown. Matures early, has small top which requires close planting. Pkt. 8c, oz. 18c, $\frac{1}{4}$ lb. 35c, lb. 90c.

288 Chartier or Shepherd.

A summer Radish remaining edible after the early kinds. Attractive long red roots with waxy white tip. Pkt. 10c, oz. 20c, $\frac{1}{4}$ lb. 35c, lb. 80c.

289 All Seasons Mixture

Each packet contains a mixture of all the above described varieties. An interesting packet for small gardens. Pkt. 6c, oz. 15c, $\frac{1}{4}$ lb. 30c, lb. 65c.

290 Winter Radishes

Winter Radishes should be planted in August. If planted in early spring, they will run to seed. Each packet will contain a mixture of several varieties, including China Rose, Celestial or Mammoth White China, and Long Black Spanish. Pkt. 10c, oz. 20c, $\frac{1}{4}$ lb. 40c, lb. \$1.00.

301 Interesting Japanese Radishes

An interesting packet, containing a mixture of the following varieties: Japanese Bottle Radish, Long String Radish, Miyashige, Nerima, Mammoth Shogoin and Giant Sa-ku-ri-ji-ma, that grows to weigh 25 to 30 lbs. These are all winter Radishes and should not be planted before last of July. Try a packet, plant in deep rich soil, and beat your neighbors. They are the largest radishes grown. Pkt. 10c, oz. 30c.

387 Salsify or Vegetable Oyster

Why don't you grow Salsify? It is one of the most delicious and nutritious of vegetables. In soup it has a delicious oyster flavor. Also fine if fried in butter, or boiled and made into fritters. It is perfectly hardy and should remain in the garden for spring use. Pkt. 10c, oz. 30c.

Spinach

***King of Denmark**

Antvorskov. Bears longer without going to seed. A valuable recent introduction. See No. 302 on page 12.

303 Bloomsdale Savoy

A most valuable variety. In appearance the leaf is wrinkled in the same way as that of the Savoy Cabbage, hence the name. It is a very early variety, also one of the best for autumn planting. The plant is of upright growth, matures quickly. For a continual supply sow every ten days until June. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 30c, lb. 60c.

Bloomsdale Spinach

304 New Zealand Spinach

Tetragonia or Ever-bearing Spinach. The only variety that will give you good cuttings of spinach greens all summer. Of fine quality producing its tender leaves throughout the hottest summer weather without going to seed. This is an entirely distinct species. Pkt. 8c, oz. 18c, $\frac{1}{4}$ lb. 40c, lb. 80c.

389 Mammoth Russian Sunflower

The best egg-producing food known for poultry. Every farmer should plant some of the seed in any out-of-the-way place at any time in May or June. Single heads will often measure 15 to 18 inches across and contain an immense quantity of seed. Hang the heads in the poultry-house, where the hens can reach them. Ounce pkg. 8c, $\frac{1}{4}$ lb. 15c, lb. 30c, 3 lbs. 75c.

French Breakfast

284 French Breakfast

A most beautiful Radish of true olive shape. Color bright carmine with clear white in the lower portion. French Breakfast is an exceedingly early variety. Pkt. 8c, oz. 18c, $\frac{1}{4}$ lb. 35c, lb. 90c.

285 Crimson Giant

Globe Also called Giant Butter.

A rapid growing, radish so ready early—yet it grows large and remains in edible condition longer than other early round sorts. Pkt. 10c, oz. 18c, $\frac{1}{4}$ lb. 35c, lb. 90c.

Salsify

Squashes

Each packet will plant 8 to 10 hills.

CULTURE—Detailed instructions on packets and booklet "Better Gardens."

309 New Table Queen Also called **Des Moines**. The introducer says: "Just wash it clean, cut it in half, take out the seed and bake 20 minutes, and you will have the nicest squash you ever tasted." Splendid for pies. Table Queen is just the right size, averaging 6 to 8 inches long, and 5 to 6 inches in diameter. Color is dark green, sometimes with blotches of red at pointed end. Shell smooth and hard, ripens in the fall, and keeps as long as Hubbard. Pkt. 10c, ounce 25c, $\frac{1}{4}$ lb. 70c.

310 Golden Custard **Yellow Bush Scallop** or **Patty-Pan**. The earliest of all squashes. Use the fruit while young and tender. Pkt. 10c, oz. 20c, $\frac{1}{4}$ lb. 50c.

311 Giant Summer Crookneck

The best known early Bush Squash. Skin and flesh deep golden yellow. Very productive and fine quality. A general favorite. Fruits often 2 ft. long. Pkt. 8c, oz. 18c, $\frac{1}{4}$ lb. 50c.

Fordhook

Custard and Crookneck Squashes

312 Fordhook A desirable Squash for both summer and winter use. One housewife told us it was the best summer squash she had ever eaten. In our trial grounds it was ready to eat very early. A good keeper. Fruit, 8 to 10 inches long. Skin light yellow, shell hard, flesh very thick. Cooks mealy and dry. Each vine produces many squash. Pkt. 10c, oz. 25c, $\frac{1}{4}$ lb. 60c.

313 Improved Hubbard The Most Popular Winter Squash. You will enjoy this squash from late fall until spring. Delicious for baking and rivaling the best pumpkin for pies. Has deep orange flesh. The best and most profitable to grow of all winter squashes. Our strain grows large, has dark green, moderately warted shell and has been selected to give fruit of greater weight and food value than the ordinary Hubbard squash. Pkt. 8c, oz. 25c, $\frac{1}{4}$ lb. 60c, lb. \$1.75.

314 Golden Hubbard Fruits the same shape as Green Hubbard, but smaller in size. Earlier in the season, but good keepers. Skin deep orange yellow. Quality equal to Hubbard. Pkt. 10c, oz. 25c, $\frac{1}{4}$ lb. 60c.

315 Delicious The sweetest of all winter squashes, but not quite as good to keep as Hubbard. About the size of Hubbard. Color dark green. Flesh thick, dark orange in color. Very dry, sweet, and of rich flavor. A squash of exceptional merit for table use. Pkt. 10c, oz. 25c, $\frac{1}{4}$ lb. 60c.

316 Mammoth Chili A mammoth exhibition squash—the largest grown. Has been grown to weigh more than 200 pounds. Skin and flesh orange yellow, of very fair quality for eating and good stock feed. Pkt. 10c, oz. 30c.

Sparks' Earliana

329 Dwarf Stone The compact, upright plants require little space, and no staking, yet they yield heavily. Dwarf Stone is the best of the dwarf class. Fruit smooth, red, medium size, fine quality. Pkt. 10c, $\frac{1}{2}$ oz. 25c, oz. 45c.

334 Yellow Husk (or strawberry) has small yellow fruit enclosed in a husk. The fruit is very sweet and is highly prized for preserves or pies. Pkt. 10c, $\frac{1}{2}$ oz. 25c, 2 pkts. 15c.

335 The Norton A fine smooth fancy tomato very similar to New Stone. Recommended by the U. S. government, as being blight and wilt resisting. Proved to be remarkably productive in our trials. Pkt. 10c, $\frac{1}{2}$ oz. 30c, oz. 50c.

336 Ponderosa "Beefsteak." This is not only the largest but also the heaviest Tomato grown. Cor. glowing purple-crimson. Considered by many the best table variety in existence. Being very solid, with few seeds, it is very desirable for slicing. Pkt. 10c, $\frac{1}{2}$ ounce pkg. 30c, oz. 55c.

337 Golden Queen Good housewives tell us they are much richer than red varieties. The rich yellow slices served with a bright red variety make a tempting dish. Pkt. 10c, $\frac{1}{2}$ oz. 25c.

338 Small Preserving An interesting mixture comprising Red and Yellow Cherry, Peach, Pear, Plum, Currant and Husk Tomatoes. Very desirable for preserves, also dried in sun and packed with sugar make a fine substitute for figs. Pkt. 10c, $\frac{1}{2}$ oz. 25c.

Tomatoes

CULTURE—Instructions on each packet and in booklet "Better Gardens."

*Burbank, *Golden Colossal, *Gulf State Market See Nos. 330, 331, and 332 on page 12.

325 Sparks' Earliana The standard first early tomato. Our seed is selected to produce smoother, deeper fruits than the ordinary at the same time retaining earliness. Medium size, bright scarlet, good quality. Pkt. 8c, $\frac{1}{2}$ oz. 20c, oz. 35c, $\frac{1}{4}$ lb. \$1.00.

326 Early Acme A popular purple or pink variety. Medium early, good size, uniformly solid and smooth. Pkt. 10c, $\frac{1}{2}$ oz. pkg. 20, oz. 35c.

Preserving Tomatoes

327 New John Baer Extra early.

Medium large beautiful brilliant red, solid, excellent quality, and enormously productive. We believe it worth a trial. Pkt. 10c, $\frac{1}{2}$ oz. 20c, oz. 35c.

328 New Stone "King of the Reds." The standard main-crop variety. The fruit is of uniformly large size, smooth, very solid, and of best table quality. Fine for canning. Pkt. 8c, $\frac{1}{2}$ oz. 18c, oz. 30c.

New Stone

Turnips

Turnips yield an immense amount of good food for the space they occupy.

CULTURE—Detailed Instructions on each packet and in booklet "Better Gardens."

346 Extra Early Milan Earliest Turnip in cultivation; a week sooner than any other. Flat, smooth, of medium size, with bright purple top and few leaves. Flesh white and sweet. For early spring planting, Milan is the most satisfactory; also suitable for fall planting. A good keeper. **Pkt. 10c, oz. 18c, ¼ lb. 35c, lb. \$1.00.**

347 White Egg Forms a beautiful egg-shaped root with thin white skin. Flesh always firm, solid and sweet. **Pkt. 10c, oz. 18c, ¼ lb. 30c, lb. 80c.**

348 Golden Ball or Orange Jelly. One of the most delicate and sweetest of yellow-fleshed Turnips yet introduced. Medium in size. Uniformly smooth and solid. **Pkt. 8c, oz. 12c, ¼ lb. 30c, lb. 75c.**

Turnip No. 350 and Rutabaga No. 351

Early Milan

variety, except in shape, being a perfect globe-shape. For home and market. **Pkt. 8c, oz. 18c, ¼ lb. 30c, lb. 85c.**

351 Rutabaga (American Swede). Produces uniformly large, globe-shaped roots. Purple above ground, and yellow below. Flesh very solid, rich yellow, fine-grained, and very sweet. Largely grown for market and stock. **Pkt. 8c, oz. 18c, ¼ lb. 30c, lb. 85c.**

Rutabaga, Golden Hearts. Try this new one. No. 352 page 12.

353 Mammoth Shogoin Turnip From Japan. The largest variety grown, often measuring 8 and more inches in diameter. The Japanese, who are famed for their epicurean tastes, consider Shogoin the finest turnip their country has introduced. Color white, flesh very solid, crisp and tender, in flavor mild and sweet. Grow Shogoin to exhibit at the fairs. **Pkt. 10c, oz. 25c, ¼ lb. 60c, lb. \$1.50.**

No. 349 Turnips No. 347

349 Purple Top Strap-Leaf

The standard for this part of the country. Superior for early or late planting. Flattened, good sized, small top with but few leaves; flesh very fine; flavor good. **Pkt. 8c, oz. 15c, ¼ lb. 30c, lb. 75c.**

350 Purple Top White Globe

This is one of the handsomest and most desirable varieties grown. Very similar to the above

For Sunny Places

Your Lawn Seed

For Shady Places

There is no doubt whatever but that a fine green lawn is the most important step in landscape improvement. Without it the appearance of your house itself, your trees, shrubs and flower plantings all fail to come up to the very best. **And success in making a lawn depends very much on the quality of the seed.** That is why we have made an extensive study of lawn grasses and carried on numerous experiments to find the very best grass mixtures. A well blended grass mixture is far better than any one variety of grass used alone.

Of course the preparation of the soil and time of sowing also are important. We recommend spring and early fall as the best times to make a lawn. A leaflet giving full directions for lawn making will be mailed you for the asking.

One Pound will sow 200 to 250 sq. ft. For patching up an old lawn use half that amount.

359 Ideal Mixture The best for a fine permanent lawn. It is a carefully blended mixture of the following varieties of hardy grasses best suited to growing a compact durable evergreen sod; Kentucky Blue Grass, Red Top, Red Fescue, Fine Leaved Fescue, Crested Dogs Tail, Pacey's Rye Grass and White Clover, a combination that insures a fine velvety lawn. Large package for bare spots, **10c, lb. 55c, 5 lbs. \$2.50, 10 lbs. \$4.75.**

360 Shady Nook Mixture The best for Shady Places. A special mixture containing varieties that will succeed in partial shade, suitable for sowing under shade trees and in shady corners, where the ordinary mixture will not do. Large **pkt. 15c, lb. 60c, 5 lbs. \$2.75, 10 lbs. \$5.00.**

361 Quick Growth Mixture Make good L a w n quickly. While not composed of as fine or expensive grasses as Ideal, nevertheless Quick Growth is a very good mixture for the price, showing a high percentage of purity and germination. Compares favorably with many of the "best" mixtures on the market, **lb. 40c, 5 lbs. \$1.90, 10 lbs. \$3.50.**

362 Pure White Clover It is often advisable to include a larger proportion of White Clover, especially in poor clay soil. Also for renovating old lawns the Clover will often take hold where other grasses fail. **¼ lb. 35c, lb. \$1.00, 3 lbs. \$2.85.**

The kind of lawn you may expect from our seed

watch-em-grow
PLANT FOOD

And
Well Plants
Better

If you have plants that are ailing—not quite as nice as you would like them—by all means try Watch-em-Grow Plant Food. Of course it is not an absolute cure-all or magic worker, but it has brought about such wonderful results and made so many friends in a short time that we urge all of our friends to get it and use it on their plants.

Watch-em-Grow contains more real plant food and nourishment per ounce and per pound than any other fertilizer on the market today. It is clean, odorless, quickly soluble in water and absolutely harmless if used according to directions. Send for a package with your seed and shrub order.

QUALITY FLOWER SEEDS

The word quality in this case means only one thing—that you may plant these flower seeds with the feeling that the results will be very satisfactory. Our "quality" policy is making friends for us by the hundreds of thousands. Gardeners like good flower seeds. Again the list of kinds and varieties have been selected from your viewpoint. You can grow these easily with reasonable care—the "hard to grow" kinds are not offered. Every time you walk into your garden or see a bouquet on the table you are repaid many times over for the amount invested. So plant plenty of flower seeds this year.

The Annuals are listed on pages 27 to 33, Climbers page 34, Seeds of Perennials pages 35 and 36. FLOWER CULTURE—Instructions are on most packets and in booklet, "Better Gardens." The chart on pages 36 to 39 of "Better Gardens" is a mine of flower information.

Lovely Asters

To enjoy all summer and fall

The leading types of Asters are offered here. It is possible to have early ones in bloom in July and others to follow right up to snow. Some border types and others of the stately cut flower varieties. Your friends will marvel at the Asters you can grow from these seeds.

Aster Specials for 1925

The following varieties are listed on page 7. Be sure to enjoy some of them this year.

501 Heart of France 525 Betty J.
508 Marshall Joffre 526 September Beauty
521 1 Pkt. each of above

502 Queen of the Market

The best of the extra-early varieties, fully two weeks ahead of all others. Flowers quite large and double. Mixed. Pkt. 10c, $\frac{1}{2}$ oz. 20c, oz. \$1.00.

503 American Branching The best all around Aster. In their full glory in September. The flowers are big balls of color often 4 inches across, always on long stems, fine for cutting. Mixed colors. Pkt. 10c, $\frac{1}{2}$ oz. 20c, oz. \$1.00.

504 American Beauty One of the most beautiful Asters of recent introduction. Of very vigorous habit, producing large perfectly double flowers on long stems. The color is the "American Beauty" brilliant rosy crimson. Pkt. 15c, $\frac{1}{2}$ oz. 35c, oz. \$1.75.

505 Asternum Well named, because the shaggy flowers are really more like Chrysanthemums than Asters. Plants are branching with long stems but rather dwarfer than the Comet type. Mixed colors. Pkt. 10c, $\frac{1}{2}$ oz. pkg. 30c, oz. \$1.50.

506 Giant Branching Comet Resembling the Japanese Chrysanthemum. The flowers are from 3 to 4½ inches in diameter, perfectly double, on long stems. Mixed colors. Pkt. 10c, $\frac{1}{2}$ ounce pkg. 30c, oz. \$1.50.

509 New Daybreak Called forth more admiration at our trial grounds last year than any other Aster. The dwarf, sturdy, compact plants were literally bouquets of big double round balls. Uniform compact habit. Unsurpassed for borders. Mixed colors. Pkt. 10c, $\frac{1}{2}$ oz. pkg. 30c, oz. \$1.50.

510 New King Aster A distinct new type. Very large, double flowers, with long, narrow, folded, needle-like petals. Flowers resemble Cactus Dahlias. Very attractive, all colors. Pkt. 10c, $\frac{1}{2}$ ounce pkg. 30c, oz. \$1.50.

511 Ostrich Plume A fine type of Giant Comet, having very long, irregularly twisted petals, producing a plume-like effect. Flowers very large, on long stems; fine for cut flowers. All colors mixed. Pkt. 10c, $\frac{1}{2}$ oz. 30c, oz. \$1.25.

512 Snowball Aster Sturdy plants bearing an abundance of big snowy-white blooms, medium early. The best dwarf white Aster. Fine for bedding, cutting or the garden border. Pkt. 10c, $\frac{1}{2}$ oz. 35c, oz. \$1.65.

513 Unicum Mixed A distinct extra-early Aster of star-like appearance, each petal tightly quilled. Flowers 3 to 4 inches across. Several colors mixed. You will like it. Pkt. 10c, $\frac{1}{2}$ oz. 30c, oz. \$1.50.

514 One packet each of above 10 Asters 75c

Asterium

Queen of the Market

American Beauty

Asters in Separate Colors Made up from the most desirable varieties, having long stems. Suitable for cutting, bordering or beds. Packets contain at least 250 seeds.

515 Pure White, pkt. 10c.

516 Delicate Pink, pkt. 10c.

517 Blue and Lavender, pkt. 10c.

518 One packet each of 515, 516 and 517 for 20c

519 Extra Quality Mixed Asters Very carefully prepared—containing all of the separate types we list, and others as well. It will give you a beautiful Aster collection for the price of one packet—types early, midseason and late, and all the colors known to Asters. Plant a quantity of this mixture and see what delights are in store for you. Pkt. 10c, $\frac{1}{2}$ oz. 25c, $\frac{1}{2}$ oz. 85c, oz. \$1.50.

Amaranthus—Three Pretty Foliage Plants

536 Caudatus "Love Lies Bleeding." Long, drooping, blooded panicles. Very easily grown. Hardy annual. Height, 2 to 3 ft. Pkt. 10c.

537 Salicifolia "Fountain Plant." Wil- low-leaved. The pretty, green, red and yellow foliage is gracefully arching like a fountain spray. Pkt. 10c.

538 Tricolor "Joseph's Coat." Very brilliant coleus-like foliage, the red, yellow and green beautifully blended. An exceptionally fine strain. Pkt. 10c.

543 Antirrhinum or Snapdragon

Without question one of the most desirable flowers for general garden culture. They come in a great variety of colors and are equally good for bouquets or for mass planting. They are biennials but can be handled as annuals also. When sown early inside, they bloom in July and then until frost. If covered slightly they will come through the winter nicely and bloom abundantly the second year. Medium tall strain, 18 to 20 inches. Finest mixed colors. Pkt. 10c, $\frac{1}{4}$ oz. 25c. *Giant Snapdragons. See No. 544, page 7.

Sweet Alyssum

550 Little Gem Dwarf, neat, compact habit. Blooms from spring to frost. Excellent for bordering beds or walks; also baskets or vases. Flowers white, fragrant, completely covering the plants. Pkt. 8c, $\frac{1}{4}$ ounce 15c, ounce 50c.

551 Lilac Queen A decided acquisition. Just like Little Gem, except color being a delicate lilac. Very pretty. Pkt. 10c, $\frac{1}{4}$ oz. 30c.

557 Bachelor's Button

(Ragged Robin, Cornflower, or Blue Bottle.) One of the most popular and desirable of old-fashioned garden annuals. Bachelor's Button and Baby's Breath make a most beautiful bouquet. Mixed colors, double and single. Pkt. 8c, $\frac{1}{4}$ oz. 15c.

562 Blanket Flower

(Gaillardia.) Very showy annuals of easy culture. Blooms from early summer to frost. Flowers on long stems in orange, bronze, maroon and crimson. Mixed colors. Pkt. 10c.

Bachelor's Button

Alyssum

Snapdragon

566 Baby's Breath

(Gypsophila.) Very easily grown annuals, 12 to 15 inches high. The flowers are pure white, very small, star-like, and produced in feathery sprays. Always useful for combining with other flowers in bouquets or small vases. Pkt. 8c, $\frac{1}{2}$ oz. 18c, oz. 30c.

569 Balsam (Ladies' Slipper or Touch-Me-Not.) A most beautiful annual, forming neat symmetrical tree-like plant, and a profusion of wax-like flowers, in the most brilliant colors. They are of easy culture, but don't plant the seed before the soil is warm. A fine mixture of Spotted Camellia and Blue flowered. Pkt. 8c, $\frac{1}{4}$ oz. 20c, oz. 50c.

570 Calendula (Scotch Marigold)

One of the best and showiest free-flowering hardy annuals, growing in any good garden soil, producing a fine effect, in beds or mixed borders, continuing in bloom from early summer until frost. Richest yellow and orange. Pkt. 6c, 2 pkts. 10c, $\frac{1}{2}$ oz. 15c.

571 California Orange An improved strain, having great big double orange flowers on long stems. Pkt. 10c. $\frac{1}{2}$ oz. 25c.

Double Balsam

581 Calliopsis

One of the leading plants for the flower garden, making a very showy border plant, producing flowers in nearly every shade of yellow, orange, crimson and brown, on long wiry stems, fine for cutting. Pkt. 8c.

California Poppy

585 Cannas (Indian Shot.) Will bloom in 3 to 4 months from seed. Rapid-growing bedding plant with luxuriant foliage and brilliant flowers. Soak the seed in warm water until they become swollen. Pkt. 10c, $\frac{1}{2}$ oz. 25c.

California Poppy or Eschscholtzia

597 Eschscholtzia Mixed The state flower of California and one of the most attractive annuals for beds, edging, or masses. The finely cut foliage with the mass of bright colored flowers makes a most beautiful sight. Bloom from June until frost. Pkt. 5c, $\frac{1}{4}$ oz. 15c, oz. 35c.

598 New Geisha The flowers like little silken flags are exquisitely fluted, the inside of the petals are golden yellow, the outside orange-crimson, glistening in the sunlight like molten gold. Pkt. 10c, $\frac{1}{4}$ oz. 25c.

599 Grandiflora Hybrids Persian Rug Mixture. Rich shades of gold, copper, bronze, scarlet, purple and crimson. Pkt. 10c. (Bush Eschscholtzia or Hunnemannia.) Excellent for cut flowers. See illustration and description No. 600, Page 9.

Blanket Flower

Candytuft

One of our most useful and popular annuals. Completely covered all summer with clusters of flowers that are well suited for borders or bouquets.

577 Giant Hyacinth Very large, bold spikes of pure white flowers. Pkt. 10c, $\frac{1}{4}$ oz. 30c, oz. 85c.

578 Mixed Including all colors. Pkt. 5c, $\frac{1}{4}$ oz. 20c, oz. 50c.

591 Centaurea (Sweet Sultans) The most beautiful of all the Centaurea family. Pkt. 10c.

Gt. Hyacinth Candytuft

Carnation Pinks

625 Annual Chrysanthemum

Painted Daisy. Easygrowing annuals forming pretty bushy plants with a profusion of showy single and double flowers. Petals beautifully painted. Pkt. 8c.

Chinese Wool Flower

Carnation Pinks

606 Double Marguerite These lovely, fragrant Carnations produce fine double flowers from seed sown in the garden early in the spring. The plants begin to bloom in about four months. When well started, the young plants should be transplanted to stand twelve inches apart. They are quite hardy, flowering the first season until late in the fall and can be potted for winter blooming. Mixed colors. Pkt. 10c, 3 pkts. 25c.

Giant Castor Beans

611 Zanzibariensis Strong, sturdy growing tropical-like plants, having ornamental greenish-bronze foliage, desirable as center plants for canna beds, and to hide unsightly places. Ground moles may be kept away by planting Castor Beans. Pkt. 10c, oz. 25c.

Chinese Wool Flower

614 Celosia Childsii Distinct form of plumed Celosia. Plants average 2 feet in height, branching freely, each shoot bearing beautiful ball-shaped flower-heads of purplish crimson color, resembling a ball of wool. Flowers profusely during summer and fall, flower-heads retaining full beauty and color until severe frost destroys them. A novelty of great merit. Pkt. 10c.

Ostrich Plume Celosia

615 Magnifica A splendid plumed variety. Plant of pyramidal form, bearing many exceedingly graceful, feather-like spikes of intensely brilliant crimson and yellow. Height 2 to 3 feet. Pkt. 10c.

Cockscomb

616 Celosia Cristata Very showy yellow and crimson annuals. Extra large, velvety flower-heads or combs. Very easy culture. Cut when partially open, and hang in a dark closet to dry, for winter decorations. Dwarf, large-flowering type. Pkt. 10c.

*Chrysanthemum Celosia—See No. 617, page 8.

*Plumed Knight—See No. 618, page 8.

Cosmos

629 Early Large Flowering The most desirable type to plant in the North, as it begins to bloom in August, continuing until killed by frost. The flowers are large, in delicate shades of pink, deep rose and white. Cosmos is one of the best tall (4-6 ft.) border plants, and you can pick great armfuls of flowers. Pkt. 10c, ¼ oz. 15c, oz. 40c.

Double and Crested See No. 631 on page 8 for complete description.

Swan River Daisy

635 Brachycome A delightful little bush about 9 inches high giving bountifully of its dainty blue flowers all summer. Like violet blue stars the flowers practically cover the foliage. Fine for low borders edgings—and for pot culture also. Pkt. 10c.

Didiscus Blue Lace Flower. Described on page 8. See No. 638.

African Daisy (Golden Star). A new introduction from Africa—full description page 7. See No. 639.

China and Japan Pinks

Peony Dahlia

Early Large Flowering Cosmos

642 Dahlias Beautiful Single, single Cactus and Peony Dahlias. They are easily grown from seed, producing flowers in many colors the first year. Many new varieties are discovered each year from seedlings. Try a packet. Pkt. 10c, 3 pkts. 25c.

China and Japan Pinks

646 Dianthus One of the most popular and satisfactory annuals grown. Of easy culture, comprising a large variety of types and brilliant colors. Japanese or Heddewigii class remarkable for size and gorgeous colors. Many of them deeply fringed. Quite hardy and with protection will winter over and bloom very freely in early spring. Our mixture contains many varieties of Chinese and Japanese double and single types and colors. We sell about 200,000 packets each year. Pkt. 5c, ½ ounce 15c.

647 Nobilis or "Royal Pink." The very largest flowers measure 2 to 3 inches in diameter and are remarkable for their extremely bright colors, in richest shades of red, carmine, deep rose, etc. Finest double and single varieties mixed. Pkt. 10c.

648 Mirabilis or "Marvelous Pinks." Flowers large, 2 to 3 inches across, petals deeply cut into fine strips of thread-like fringe. Brilliant shades and colors of both double and single mixed. Pkt. 10c.

For Hardy Garden Pinks see No. 966 on page 35

Everlastings or Straw Flowers

653 Everlasting Mixture For Winter Bouquets. The Everlastings or Straw Flowers are very desirable for winter bouquets, and other decoration during the winter months when flowers are scarce. Each packet will include a mixture of the following distinct types: *Acroclinium*, *Gomphrena* or *Globe Amaranth*, *Helichrysum*, *Rhodanthe*, *Ammobium* and *Xeranthemum*.

For winter use cut the flowers as they begin to open, with as long stems as possible, remove the foliage, tie in small bunches and hang in a cool, dark place to dry, with tops downward to keep the stems straight. **Large pkt. 10c, 2 pkts. 15c.**

654 Helichrysum The best known and most desirable of all the everlasting flowers, and becoming much more popular because of the great improvement in recent years. The *Monstrosium*, or large double, is the best type. The plants grow 2 to 3 feet high, and are literally covered with these large, double, brilliant flowers, in white, pink, yellow and scarlet. **Pkt. 10c, ¼ oz. 30c.**

Golden Feather

663 Pyrethrum Aureum

The golden yellow feathery foliage makes it a very attractive border or bedding plant. Dwarf and compact with pretty white flowers. It is half hardy, but treat like an annual. **Pkt. 10c.**

Helichrysum

Four O'Clock

665 Marvel of Peru One of the most popular and desirable annuals, of the easiest culture. Fine for hedges between the lawn and garden, or along driveways. Produces a dazzling effect. Buy an ounce of seed for a nice, long row. **Pkt. 5c, oz. 20c, ¼ lb. 50c.**

670 Ice Plant *Mesembryanthemum*. The foliage and stems are covered with crystal-like formations that glisten in the sun. Nice for hanging baskets. **Pkt. 10c.**

Kochia or Fire Bush

671 The New Giant (Summer Cypress, Burning Bush). A charming and most effective decorative plant, with a habit resembling one of the compact evergreen shrubs. It has a light green feathery foliage, changes to crimson. May be grown as single specimens, or as an ornamental hedge. **Pkt. 5c, ¼ ounce 15c.**

Larkspur

674 Annual Quick-growing, free-flowering annual producing its long clustered spikes of beautiful flowers in greatest profusion. Splendid for the old-fashioned flower or shrub border. A splendid mixture, including Emperor, Hyacinth Flowered, Dwarf Rocket, **Pkt. 8c, ¼ ounce 20c.**

681 Nigella

Love-in-a-mist. Compact, free-flowering annuals with pretty white and light blue flowers nestled in the feathery foliage, and curious seed-pods. **Pkt. 10c.**

Larkspurs

Mignonette

Fire Bush

Showy flowers like tall sorts but dwarf plants—suitable for bedding or borders. Bloom all summer. **Pkt. 8c, oz. 20c.**

692 Mignonette (Reseda)

This annual is an old-time favorite and with the introduction of new types it is one of the most generally grown flowers for fragrant bouquets, bedding plants and pot culture. For a continuous supply of bloom sow seed early in spring and again in mid-summer. **Pkt. 5c, ½ ounce 15c.**

Mourning Bride ("Pin Cushion")

696 Scabiosa The Sweet Scabious of the old-time garden, but in every way improved. Perfectly double, fragrant, elegant for cutting. Many colors. **Pkt. 10c, 3 pkts. 25c.**

697 Azure Fairy Pretty azure blue double flower. This was one of our best selling novelties in 1924. Do you remember it? **Pkt. 10c, 3 pkts. 25c.**

Marigolds

703 African and French Mixed. These are old favorite free-flowering annuals of easy culture; both are extremely effective and are well adapted for large beds or mixed borders; they succeed best in a light soil, with full exposure to the sun. A vase or bowl of any of the rich yellow sorts, in combination with a few blue Larkspurs or Cornflowers, is very striking. **Pkt. 5c, ¼ oz. 20c.**

704 Orange Prince. A high-bred tall-growing variety, bearing large, perfect double-quilled flowers of a rich deep golden-orange, a single plant often having 50 or more splendid flowers. **Pkt. 10c, ¼ oz. 30c.**

705 Lemon Queen. A counterpart of Orange Prince except in color, which is a soft lemon-yellow, and forming a fine contrast to the rich orange of the former. **Pkt. 10c, ¼ oz. 30c.**

706 Legion of Honor (Little Brownie). A single-flowering Marigold, forming compact bushes 9 inches high. Largely used for borders. Flowers golden-yellow, with brown markings. **Pkt. 5c, ¼ oz. 20c.**

Marigolds, Orange Prince

Nasturtiums

For summer display in large or small beds, nothing can surpass Nasturtiums. They start to bloom early and keep up a continuous display of bright colored flowers until hard frost in fall. Nasturtiums are much used for table decoration. Of the easiest culture, succeeding practically anywhere, in all soils.

Cut the Nasturtiums freely and they will bloom better. Do not pull them from the vines but snip them off.

Our various mixtures include the prettiest types you can buy.

715 Tall or Climbing For trailing over porch lattice or arbors, or for covering old fences or unsightly places, also for vases, we consider the tall varieties most desirable. There is also a greater variety in colors, including the brilliant Lobbianum type. Mixture, including all types. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 40c, lb. \$1.00.

716 Tall Ivy Leaved A desirable new type of Climbing Nasturtiums, having bright green ivy-like foliage, veined with white, with brilliant colored fringed flowers. Pkt. 8c, $\frac{1}{2}$ oz. 15c, oz. 25c.

717 Tall Variegated Each leaf is irregularly variegated and marbled with yellow, white and green, giving this plant a varied aspect. Pkt. 8c, $\frac{1}{2}$ oz. 15c, oz. 25c.

718 Trailing Tom Pounce The best Nasturtium for porch boxes because of its trailing habit (vines 2 feet long). At times you hardly see the foliage because of the wealth of flowers. Flowers are a little smaller than the ordinary Nasturtium, very bright yellows and scarlets. Pretty in porch or window boxes, hanging baskets or trailing over stumps and rocks. Pkt. 10c, oz. 25c.

719 Dwarf Mixed Nasturtiums Specially desirable for bordering beds, walks or driveways, forming neat compact plants a foot across. Always in bloom from June to October. A splendid mixture comprising many varieties and colors. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 40c, lb. \$1.00.

Nasturtiums Arranged for Your Table

720 Lilliput Baby Dwarf Queen of Holland Compact little plants with very dark green foliage—profusely decked with brilliant flowers in colors pale yellow to deep purple—unsurpassed for low, even borders. Pkt. 8c, $\frac{1}{2}$ oz. 15c, oz. 25c.

721 Fancy Leaved Dwarf Mixed Also with very dwarf compact plants but the foliage is distinct and curious—variegated and marbled silvery white—and including the waved emerald green leaves. Flowers are vivid yellows, reds, orange, etc. Very showy. Pkt. 8c, oz. 25c.

722 Nasturtium Collection One packet each of the seven nasturtium varieties for 40 cents.

USE THE INDEX ON PAGE 54

It will help you find what you need and will refresh your memory on flowers you have wanted but the names of which you may have forgotten.

Beautiful Petunias

For freedom of bloom, variety of color and effectiveness these have no equals. If only a little care is bestowed upon them, Petunias will produce their handsome, sweet-scented flowers in their delicate and gorgeous colors all summer.

***Fringed Scarlet Beauty**, ***Balcony Petunia Trio**. See colored illustrations on front cover and description Nos. 745, 741, 742, 743, page 6.

***Giants of California**, ***Double Fringed**, ***Triumph**. See Nos. 730, 732, 738, page 9.

731 Balcony Queen Its rich beauty is wonderful to behold. The flowers are midnight blue, blotched downy white in the throat; of trailing habit, fine for boxes, hanging baskets and urns on the lawn, as well as bedding. Pkt. 15c, 2 pkts. 25c.

733 Rosy Morn Imagine the rosy hue of the sky at sunrise and you have Rosy Morn. The clear white throat but adds to its beauty. The plants are bushy and compact and very free flowering. Pkt. 10c, $\frac{1}{2}$ oz. 50c.

734 Howard's Star (Improved) Over a background of velvety crimson maroon are laid the paths of snowy white. The effect is a brilliant star clearly defined. A fine bedding variety. Pkt. 10c, $\frac{1}{2}$ oz. 50c.

735 Snowball Another dwarf compact variety with flowers white as snow. Plant this as a border with darker shades and the effect is charming. Pkt. 10c, $\frac{1}{2}$ oz. 40c.

Petunia Howard's Star

736 Dwarf Inimitable Mixed. Makes a gorgeous bed resplendent all summer with dark shades strikingly blotched and striped white. Pkt. 10c, $\frac{1}{2}$ oz. 40c.

737 Hybrida Mixed Pleasing shades run riot in this mixture and seemingly no matter what the conditions they are always in bloom. Pkt. 5c, $\frac{1}{2}$ oz. 25c.

Annual Phlox

This splendid genus of plants is unrivaled for richness of color, profusion of bloom, length of duration of bloom and general compactness, and whether in clumps or masses looks equally beautiful. It is one of the finest annuals in cultivation, and should occupy a prominent place in every garden.

751 Grandiflora Mixture We offer this popular strain only in mixture, comprising very many of the finest varieties and colors. The large flowering type. Pkt. 10c, $\frac{1}{4}$ oz. 35c.

752 Starred and Fringed This beautiful type is quite distinct. The flowers are either star-shaped or fantastically fringed, really two distinct types. Many bright colors. Pkt. 10c.

Two Fine Dwarf Phloxes Fireball scarlet and Snowball white. Excellent for ribbon bedding.

753 Fireball. Pkt. 10c, $\frac{1}{2}$ oz. 50c. **754 Snowball.** Pkt. 10c, $\frac{1}{2}$ oz. 50c.

Phlox, Grandiflora Mixed

Quality Pansies

Pansies are general favorites, too well known to require any description. We believe we can best serve our patrons by offering the seeds in only three grades, rather than to list them in separate named varieties. The following are the three grades or types:

761 Bedding Mixture

These are the popular saucy-faced beauties that everybody loves, comprising the finest varieties in all colors. Just what you want for a pretty bed. You will be delighted with this mixture. Pkt. 8c, $\frac{1}{8}$ oz. 30c, oz. \$1.75.

762 Giant Trimardeau This is the popular medium priced large flowering type. They are of vigorous compact growth, and are grown in forty or more named varieties. Flowers are larger than our Bedding Mixture but not quite as free flowering. A splendid mixture. Pkt. 10c, $\frac{1}{8}$ oz. 50c, oz. \$2.75.

The Best That Money Can Buy 763

In order that you may have the pleasure of growing some of the very best pansies in existence at a nominal expense we are searching each season—almost to the ends of the earth, among pansy specialists for the very best of their new strains. These many strains are mixed together and are what you receive in our Giant Exhibition Mixture.

Giant Exhibition Pansies

See Inside Cover Page

Included are such high grade types as Special Paris Market, Masterpiece or Ruffled Pansies, Cassiers Giants, Bugnots Superb Blotched, Phenomenal, Giant Striped and Mottled, Pure White, Black, Golden Giants and a dozen others. Grown on good soil you may expect to obtain flowers three and even four inches across, in all colors too varied and beautiful for words to describe. Pkt. 15c, 3 pkts. 40c, $\frac{1}{8}$ oz. \$1.00, oz. \$6.00.

Mastodon Miracle Mixture. See No. 765 on page 9.

764 Pansy Violet (Viola or Tufted Pansy). Very desirable, free flowering plants for hardy borders, combining the beauty and free blooming habit of the Pansy with the hardy character of the Violet. They will do well in shady places where the ground is usually bare, for instance under the shade of shrubs. The plants do not run out like the common Pansy. Flowers not quite as large as Pansies, but produced in greatest profusion the entire season. Plants require protection over winter. Pkt. 10c, $\frac{1}{8}$ oz. 50c.

Rose Moss

Portulaca

Sun Plant

For brilliant coloring, nothing can excel a bed of Portulaca, with its silky flowers glistening in the sunlight. It is very easily grown and no bedding plant equals the Portulaca for places exposed to the hot sun of midsummer. Very pretty edgings for beds of taller plants.

772 Large Double As double as Roses, and comprising many brilliant colors. Seventy-five per cent should produce perfectly double flowers resembling small, fully open roses. Pkt. 10c, 3 pkts. 25c, $\frac{1}{8}$ oz. 60c.

773 Large Single Unsurpassed for carpet bedding where a brilliant effect is desired. Pkt. 8c, $\frac{1}{8}$ oz. 20c.

Paris Beauty See No. 774 on page 9.

Double Portulaca

Poppies

781 Double and Single Mixed For a brilliant dazzling effect plant lots of Poppies. Sow the seed very early in the spring, where they are to bloom, as they cannot be transplanted. Pkt. 5c, $\frac{1}{4}$ oz. 15c, oz. 40c.

Golden Buttercup Poppy, See No. 600 on page 9.

782 Shirley, Silk or Ghost The effect of these new Poppies is what one would expect to see in a Chinese garden where vivid, glistening—still artistic, harmonizing colors hold sway. Orange, orange scarlet, soft salmon, rose and pink shades are painted on petals as delicate as Chinese silk. Do not miss these beauties. Pkt. 10c, $\frac{1}{4}$ oz. 20c.

Shirley Poppy

783 Eldorado (New Double Shirley). The finest Poppy introduced in many years. The flowers burst out in the same brilliant shade as the singles—but last as cut flowers or in the garden much longer. Pkt. 10c.

784 "Flanders Fields" The native single scarlet Poppy that covered the battlefields of France and Belgium. Pkt. 10c, $\frac{1}{8}$ oz. 20c.

Double and Single Poppies

792 Schizanthus or Butterfly Flower

(Poor Man's Orchid). One of the most charming flowers for the garden in summer and for the house in winter. The plants are of compact branching growth $1\frac{1}{2}$ to 2 ft. high, covered with a multitude of small butterfly flowers of the most entrancing designs. Hardy annual. Pkt. 10c.

795 New Annual Sweet William

A valuable new annual blooming type of the popular Sweet William, originated by crossing the common Perennial variety with the Annual Japan Heddewigii Pink. The flowers are much larger and are produced in clusters throughout the summer and autumn. Many beautiful colors mixed. Pkt. 10c, $\frac{1}{8}$ oz. 25c.

Annual Sweet William

Sweet Peas

For distinctive beauty and exquisite fragrance the Sweet Pea has no rival. We sell more packets of Sweet Peas annually than any other flower. You can have Sweet Peas in your own garden just as fine as those of the florist. Pick the flowers frequently for abundant bloom. One ounce will plant a single row 25 feet long.

CULTURE—Detailed directions on packets and booklet "Better Gardens."

801 Our Butterfly Spencer Mixture Including 80 Choice Named Varieties of the Giant, Ruffled, Orchid-flowering type. The Spencer or Orchid-flowering type is now the most popular, because of the wonderfully large flowers, and beautifully frilled, or ruffled petals. Pkt. 10c, oz 25c, ¼ lb. 70c, lb. \$2.00.

*Winter Flowering Spencers See No. 804 on page 9.

802 Superb Grandiflora Mixture (The Popular Old Fashioned Type). An extra fine, well-balanced mixture of the large-flowering type that is so popular everywhere. To insure a more complete mixture containing the greatest number of varieties, we combine the best from several different sources. Sure to please you. Pkt. 5c, ounce pkg. 15c, ¼ lb. 35c, lb. \$1.00.

803 Dwarf or Baby Cupid Sweet Peas

An entirely distinct type, growing only 6 to 8 inches high, forming a dense mat of green, and a profusion of flowers in many colors. Fine for borders. Plant in front of the taller varieties. Pkt. 10c, oz. 20c.

820 Hardy Sweet Peas

(*Lathyrus Latifolius*). Perpetual blooming Sweet Peas, fine for covering old stumps, fences, etc. Perfectly hardy, increasing in beauty each year. Valuable for cutting. Pkt. 10c, ½ oz. 20c.

822 Scarlet Salvia Of all fall-blooming annuals, Scarlet Sage is, without question, the richest and most impressive in color—a scorching scarlet of unsurpassed brilliancy. Pkt. 10, 3 pkts. 25c, ½ oz. 50c.

Verbena

841 Verbenas

Mammoth Flowering Mixed. Very free-flowering annuals of low spreading growth, forming a carpet of bright colors when in bloom. Begin to bloom in July, and continue until killed by frost. Pkt. 10c, ¼ oz. 35c.

848 Salpiglossis (Velvet Flower).

Most attractive annuals, large petunia-like flowers, in richest color display. Each flower veined with a glint of gold. Try a packet this year. Pkt. 10c.

Scarlet Salvia

Zinnias Always Please

There is not another plant that does so well under any and all conditions. The brilliant flowers come all summer—almost bushels for cutting—and as many more left for garden display. The newer types hold a surprise in store for you.

***Dahlia** and ***Novelty** See front cover and page 6.

***Red Riding Hood** See No. 864 page 9.

860 Giant Mixed Flowers like great big brilliantly painted balls—reds, yellows, whites, all colors. Greatly improved. Plants 2 feet tall. Pkt. 10c, ¼ oz. 25c.

861 Elegans Mixed Produces excellent double flowers in a wide range of colors, and including many distinct types—Lilliputs, Pompons, Hybrids, etc. A great bargain. Pkt. 5c, ¼ oz. 15c.

862 Crested and Curled Flowers large, the petals being twisted and curved into most graceful forms. The colors comprise all the brilliant shades of the Zinnias. Pkt. 10c, ¼ oz. 20c.

866 Mexican Star The new Mexican Hybrids, in distinct colors. Mahogany reds, browns and golden yellow in many delightful combinations—some star shaped, some round like a ball. The plants are compact, bushy, about 1½ feet high, fine for hedges and covered with flowers all summer and fall. Pkt. 10c, ¼ oz. 35c.

Zinnia Elegans

Stocks

New Sunflowers

827 Red Height 5 to 6 ft. Flowers 4 to 7 inches across. Rich shades of brown, red and yellow. Like an immense Gaillardia. Pkt. 10c.

828 Double Chrysanthemum. While many are single, a proportion of them will be fully double, like big chrysanthemums. Pkt. 10c.

829 Stella The best of the miniature type. A wealth of long stemmed golden yellow single flowers all summer. Fine for vases. Pkt. 10c.

Stocks

836 Large Flowering. 10 weeks. The leading class for summer blooming in the garden. Beautiful, fragrant spikes of double flowers. Pkt. 10c.

Beautiful Climbing Vines

Nothing adds more to the attractiveness of the home grounds than a well chosen selection of Climbing Vines. They grow rapidly and are indispensable for covering arbors, old fences and for hiding unsightly buildings. The following varieties, except Kudzu Vine, are annuals, all easily grown from seed. FOR HARDY VINES, SEE PAGE 47.

Canary Bird Flower

***Cardinal Climber and *Giant Morning Glory** See Nos. 903 and 918 on page 8.

901 Balloon Vine (Love in a Puff). A rapid growing climbing vine, having pretty light green foliage, with inconspicuous flowers. The seed pods, like miniature balloons, grow 8 to 10 feet high. Pkt. 10c.

902 Canary Bird Flower A pretty, rapid climbing vine. The charming little canary-yellow flowers reminding you of a canary bird with wings half extended. Pkt. 10c.

904 Heavenly Blue Ipomea, a trellis, arbor or doorway covered with this vine is one of the most beautiful sights imaginable. Bright sky blue flowers, almost as big as saucers, are freely borne on the rapidly climbing vines. Our strain blooms during August and all fall. Pkt. 15c, ¼ oz. 40c.

Cardinal Climber

905 Cobaea Scandens

A Mexican Vine of very rapid growth, growing 15 to 20 feet high. Must not be planted outside until weather is permanently warm. Cultural instructions on each packet. Sometimes called Climbing Foxglove. Pkt. 10c.

906 Cypress Vine Delicate fern-like foliage, and pretty star-like flowers. Very desirable for small ornamental trellises or wire supports. Scarlet and white varieties mixed. Height, 6 to 8 feet. Pkt. 8c.

907 Climbing Foxglove *Lophospermum*. A beautiful climbing vine from Mexico. The graceful flowers are of large size and resemble pink Foxgloves. Plant the seed when soil is permanently warm. Pkt. 10c.

908 Hyacinth Bean (Dolichos). Of extra rapid growth, making a dense and attractive screen, flowering freely in racemes or upright spikes not unlike Hyacinths. Pkt. 8c, oz. 20c.

909 Moon Flower Large dense foliage, climbing 20 to 30 feet. Immense pure white flowers 5 to 6 inches in diameter, opens in the evening. Do not plant the seed until the soil is warm. Pkt. 10c.

910 Climbing Mixture

You surely get your money's worth, as it gives you about a dozen varieties for the price of one. Try a pkt. 10c.

Hyacinth Bean

Balloon Vine

911 Common Morning Glory

Everybody should grow them. They thrive everywhere, climb rapidly, and bloom freely all summer. A mixture of many colors. Pkt. 5c, oz. 15c.

912 Japanese Imperial Morning Glory Unquestionably the handsomest of all Morning Glories. Rapid climber, large foliage and immense flowers of rare beauty. Pkt. 8c, oz. 20c.

913 Double Morning Glory

(Snow Fairy). Rapid climbing vines that bloom quite early and continually until frost. Perfectly double pure white tassel-like flowers. Quite distinct. Pkt. 10c.

914 Japanese Kudzu Vine

(Pueraria) "Jack-and-the-Bean Stalk." The fastest growing hardy climbing vine in existence. Perfectly hardy everywhere. Will climb 50 feet or more in a season. Pkt. 10c.

915 Ornamental Gourds

Very interesting rapid climbing vines for covering old fences, etc. The fruits are of many shapes and colors, and always a delight to the children. Many small varieties mixed. Pkt. 10c.

Common Morning Glory

916 Thunbergia (Black Eyed Susan). An elegant slender growing vine from Africa. Very attractive when grown on trellises, in vases, or trailing on the ground. Large single flowers, in white, yellow and orange, with distinct black eye. Bloom from July to October. Pkt. 10c.

917 Variegated Japanese Hop

(*Humulus*). A beautiful rapid climbing vine for verandas, arbors or screens. Foliage mottled green and yellow. Once planted the seed will come up each spring without replanting. Very easy culture. Pkt. 10c.

940 AN HONEST-TO-GOODNESS BARGAIN

One full packet each of above eighteen beautiful climbing vines, including the new varieties. Total value, \$1.74. All postpaid for \$1.40.

Hardy Garden Perennials

Pretty New Types
Also

Our Grandmothers' Gardens always contained an assortment of these old garden favorites. The following list contains about all of the popular easy-growing varieties. Why not start a hardy garden this year?

Double English Daisy

- 955 Burbank's Shasta Daisy** Strong, vigorous growing hardy perennials, forming large clumps of bright, green foliage and a profusion of large white single flowers on long stems. Flowers 3 to 4 inches across, with large yellow disc. Bloom freely in July and August. **Pkt. 10c.**

Delphinium, Hardy Larkspur One of our most popular and desirable hardy perennials, producing immense spikes in various shades of blue, from July until killed by frost. Valuable for cutting. We list two strains, viz.:

- 956 Belladonna.** Large spikes of beautiful clear turquoise-blue flowers that always attract attention. Bloom continually from July to frost. **Pkt. 15c.**

- 950 Bellamosum.** Has the same beautiful form as Belladonna but is rich, deep blue in color. **Pkt. 15c.**

*Gold Medal Hybrids. See No. 957 on page 8.

- 958 Digitalis or Foxglove** Tall, stately spikes of flowers in white, pink, rose and mottled. Valuable for the background in the hardy border. Of easy culture, blooming the second year from seed. **Pkt. 10c.**

- 959 Hardy Gaillardia (Grandiflora).** These long stemmed beauties, in shades of yellow and red, are very attractive when in bloom from July to October; very easily grown. **Pkt. 10c.**

- 960 Hardy Baby's Breath (Gypsophila).** Immense panicles of delicate white, gauze-like flowers from June to August. Very desirable for mixing with other cut flowers. Perfectly hardy and easily grown. **Pkt. 10c.**

- 961 Giant Mallow Marvels (Hibiscus).** Forms large clumps, 4 to 5 feet high, with immense single flowers, 6 to 8 inches across. Perfectly hardy, easily grown from seed. A mixture of white, pink and crimson. **Pkt. 10c.**

How to Grow Perennials. The booklet "Better Gardens" free with \$2.00 orders gives easily followed directions.

Myosotis or Forget-Me-Not

- 951 Aquilegia or Columbine** Splendid hardy perennials, with graceful spurred flowers in many colors. Choice mixed varieties, including the new long spurred hybrids. Will succeed in shady places. **Pkt. 10c.**

- 952 Campanula or Canterbury Bell** Grand old-fashioned hardy flowers of easy culture, and one of the most attractive seeds planted this year. Will grow into large plants that will bloom freely next year. **Pkt. 10c.**

- 953 Coreopsis Lanceolata** Large single golden yellow fringed flowers, on long wiry stems, fine for cutting. Bloom profusely in July and August. Perfectly hardy. **Pkt. 10c.**

- 954 Double English Daisies (Bellis Perennis).** Low growing early spring flowering perennials, indispensable for cool shady places. Seed started early in boxes should bloom the first year. Finest mixed varieties, including the large double Longfellow. Culture same as Pansies. **Pkt. 10c.**

Burbank's Shasta Daisies

- 962 Double Hollyhock**

Magnificent, tall stately plants, with immense spikes of perfectly double flowers in pink, white, crimson, yellow, etc. Very effective for background planting in the hardy border. **Pkt. 10c.**

- 963 Single Hollyhocks**

Many consider the single, large flowering varieties fully as beautiful as the double. We offer an exceptionally fine strain, sure to please you. **Pkt. 10c.**

Delphinium, Belladonna

- 964 Myosotis or Forget-Me-Not**

The Hardy Forget-me-not delights in a moist, shady location. The pretty delicate blue flowers are freely produced in June and July. One of our most satisfactory hardy perennials for shady places. **Pkt. 10c.**

- 965 Oriental Poppy** For

gorgeous display the Oriental Poppy has few rivals. Immense single glowing orange scarlet flowers with black blotch at base of petals. **Pkt. 10c.**

- 966 Hardy Garden Pinks**

Scotch, or Clove Pinks. Every garden should contain a few clumps of these old-fashioned favorites. Perfectly hardy and easily grown. **Pkt. 10c.**

Digitalis or Foxglove

- 967 Stokesia (Stokes Aster)—Cyanea.** A splendid perennial for garden culture. Pretty in beds or borders. Its ease of cultivation makes it very popular. Blooms first year from seed. Showy deep lavender blue, aster-like flowers, produced in clustered heads June till late fall. **Pkt. 10c.**

- 968 Sweet William** Well-known, old-fashioned, hardy perennials of very easy culture. Splendid for the hardy border and for massing. A gorgeous display when in bloom, comprising many brilliant colors. It is most satisfactory to grow young vigorous plants each year, and destroy the old plants after blooming. **Pkt. 10c.**

- 969 Popular Old-Fashioned Hardy Collection**

Why not have an old-fashioned garden, such as we used to admire at our Grandmothers' home? To help you start right we will supply one packet each of the above 19 varieties, worth \$2.10 for \$1.50.

Double Hollyhocks

Some New Perennials

971 Aquilegia, Long Spurred Hybrids A selection of the finest long spurred Columbines including the famous strain known as Mrs. Scott Elliotts, which has received many awards wherever exhibited. Many rare and pleasing color shades and combinations, beautiful in cut flower bouquets or grouped in the garden border. **Pkt. 20c.**

972 Hardy Chrysanthemums An exceptional mixture of these favorite fall flowers richly dressed in colors of crimson, pink, yellow, orange, all the intermediate shades and pure white. You will have mostly single flowers, but many double and semi-double, some with plain petals, others recurved and twisted in beautiful array. You will certainly be delighted with them. **Pkt. 25c, 2 pkts. 40c.**

973 Chinese Lantern Plant Physalis Franchetti. In the fall balloon like husks of bright scarlet form on the plants. As they hang on the stems they resemble Chinese Lanterns. You can pick these and have them for indoor bouquets throughout the winter—as they preserve themselves very nicely when dried. **Pkt. 10c.**

Hardy Candytuft

974 Hardy Candytuft

Iberis Sempervirens. One of the prettiest of the hardy low border plants. In April and May the low compact plants are covered with white flowers—resembling the annual Candytuft. Excellent for rock garden, naturalizing, or as a border to taller plants. It does well in sun or shade and on practically all soils. The foliage is evergreen. **Pkt. 15c**

Poppy, Sunbeam

Aquilegia, Long Spurred

975 Coral Bells

Heuchera Sanquinea. One of the garden's brightest flowers. The foliage lies close to the ground, but the flower stems reach up to 18 to 24 inches and are covered with the showiest bright coral red flowers. A very popular flower for cutting or garden decoration as it blooms in sun or partial shade. **Pkt. 20c.**

976 Geum, Mrs. Bradshaw Mrs. Bradshaw is considered the best of all Geums. The flowers are bright scarlet, double and about 1½ inches across. They are borne in clusters on stems 1½ ft. high, blooming throughout the summer. An excellent addition to your perennial border. Easy to grow, preferring moist soil and plenty of sun. **Pkt. 20c.**

977 Poppy, Sunbeam Iceland. The Sunbeam strain is the finest color mixture among the Iceland Poppies—ranging from white through straw color, yellow to orange and orange scarlet. The flowers average 2 to 2½ inches across and are like the finest silver crepe paper in texture. Keep the flowers from going to seed and they will bloom from early summer until fall frost. Early spring sown seed blooms the first year. **Pkt. 15c, 2 for 25c.**

978 Everlasting Sweet William This is the only Sweet William, and in fact the only bedding perennial that will bloom all summer. The plants are compact 12 to 15 inches tall and are covered with rich red flowers borne in clusters, like the old fashioned Sweet William. Plant as a border in clumps or a bed like Geraniums. **Pkt. 15c, 2 pkts. 25c.**

Special Purpose Seed Collections

DO YOU LIKE BLUES?

Most everybody likes blue bouquets and clumps of blue flowers in the garden. By ordering the Blue Collection you save money over the cost of the packets bought separately.

One pkt. each of the above 8 varieties for 65c. Regular value 88c. Absolutely no change can be made in the assortment.

The More Permanent Things for Your Garden

From Our Bulb & Shrub Department

The things you will wish to plant for a lasting effect in your garden are the bulbs, shrubs, roots, vines, roses and small fruits offered on the following pages. The following facts concerning the different kinds of stock, the different methods of handling all of it and the information available for those of you who wish it, will be found most interesting.

Dormant Not Dead Every item (excepting only the set of Pot Grown H. T. Roses, No. 1511 on page 48), is in a dormant condition. It is due to their ability to "sleep" over each winter that they are of really permanent worth to you. They lose their foliage in winter, just as the Maple and Elm trees do. Some of them, like gladioli, dahlias and cannas, must be taken indoors in the winter and stored in the cellar. Others, like vines, roses, shrubs and small fruits may be left outdoors, only the roses needing much protection.

Separate Departments Because all of this stock is of a different nature from seeds, we have to handle it in an entirely separate department. It is also the reason that it requires different packing and weather conditions, to insure delivery to you in first class shape. Gladioli, dahlias and cannas must be kept dry and can not be permitted to freeze, even while in mail and express cars. On the other hand, shrubs, vines, roses, roots and small fruits must be packed with damp moss about the tender little roots (which can easily be seen in the small picture below).

At Planting Time To those of you who are not familiar with these details, this explanation is made in order that you will not wonder why we fill your seed order within a very short time,

regardless of the weather, while your shrub and bulb order will not be filled until after weather conditions all over the country make it safe to ship and as near to planting time in your vicinity as possible. Our customers appreciate the fact that we are in most cases better equipped to keep the bulbs and shrubs in prime, dormant condition than they are, so are glad to have us handle their orders as we do. You will like it, too.

Give Them Time Remember, after planting, that all plants will not begin to show signs of development in the same length of time. This word of caution is added because now and then, people will write in to inform us that some of their plants have not begun to leaf out and they are afraid they are not alive. After waiting sufficiently long, they find the leaves begin to take shape and that their conclusion was made too hastily. So, be sure to give your newly planted stock plenty of time. You will be well repaid for your patience.

Cultural Directions Every order filled in our Bulb and Shrub Department, will have, packed with the goods, a pamphlet which tells you how to keep the plants until the ground is ready, how to prepare the soil and all necessary information to aid you in starting right. Of course, cultural directions are printed on every seed packet, too.

Two Helpful Books for You

391 "Better Gardens" Besides the above mentioned information which every customer receives, we offer two valuable publications of our own. The first, "Better Gardens," is a 64-page book which gives a vast amount of detailed information, for those wishing it. Thousands of copies of this book are distributed to our customers each year. Turn back to page 26 and see what we say about it there. While the price is 25 cents per copy, we give it free with every order amounting to \$2.00 or more.

392 "Planning & Planting the Home Grounds" The second book prepared for you is our new one this year, "Planning and Planting the Home Grounds." Its purpose is to aid you in selecting just the right plants for the most pleasing effects. This book is also 25 cents per copy but is free with each order amounting to \$3.00 or more. If you wish a copy to help you to decide what to plant and where to plant it, send us 25 cents. A Rebate Coupon good for that amount will be packed with the book, so you see it will really cost you nothing in the end, and surely will help you a great deal. We know that if you will follow this book in planting goods from this department about your home, you will increase the attractiveness of it many fold and even more important, you can actually increase the value by hundreds of dollars.

THE TEMPLIN-BRADLEY CO.

Your Shrubs, Roses and Vines Will Be Dormant Like This

Your success and ours are very closely interwoven. A word of recommendation to your friends will be greatly appreciated.

A Corner of Our Own Nursery Where Much of This Stock Is Grown

A MILLION GLADIOLUS BULBS

You Should Grow Gladioli This Year. These Prices Within the Reach of Everybody

Gladioli are the most useful of all summer flowering bulbs, and are becoming more and more popular each year as new varieties are being introduced. They are so easily grown, and at our prices so inexpensive, that every home garden should contain an assortment. Gladioli are one of our specialties. We now have in stock a million

or more blooming size bulbs, all clean, healthy stock, ready to fill orders. All named bulbs will be $1\frac{1}{2}$ to $1\frac{3}{4}$ inches and up in diameter. Every bulb guaranteed to produce beautiful large spikes of flowers this year. We grew all the bulbs offered on this page, at our farms near Cleveland.

Six Splendid New Gladioli

1003 Evelyn Kirtland A beautiful shade of rosy-pink fading to shell pink at center. With scarlet blotches on lower petals. Each 10c, doz. \$1.00.

1004 Gretchen Zang Large distinct sparkling flowers. Soft melting shades of pink blending into scarlet on lower petals. Each 10c, doz. \$1.00.

1005 Herada Immense flowers on tall straight spikes. Color pure mauve, with deeper shadings in throat, and white stripe on midribs of petals. Entirely distinct from all others in color. Always attracts attention. Each 15c, doz. \$1.25.

1006 Le Marechal Foch One of the most talked about new introductions. Mammoth flowers, on tall spikes. Color delicate soft pink. A great improvement on America. Each 15c, doz. \$1.25.

1008 Crystal White One of the strongest growers, with large spikes of pure white flowers, with pink and red shadings at base of lower petals. Each 10c, doz. \$1.00.

1009 Set of Six Choice New Gladioli for only 50c.

Twelve of the Most Popular Named Gladioli

For Illustrations in Natural Colors, See Inside Back Cover. You can buy 25 or more at 100 rates

1026 America Unquestionably the most Popular Gladiolus in existence. Immense spikes, color peach-blossom pink. Ea. 6c, doz. 50c, 100 for \$3.00.

1027 Baron Hulot Very dark violet blue. Flowers medium size, on tall spikes. Entirely distinct in color. Each 10c, doz. \$1.00.

1028 Cracker Jack Rich, velvety red throat spotted yellow. Very early. A general favorite. Each 6c, doz. 50c, 100 for \$3.00.

1029 Halley Extra early, large open delicate salmon - pink flowers. A very popular variety. Each 6c, doz. 50c, 100 for \$3.00.

Vase of Gladioli

1030 Mrs. F. King Rich flame-red shaded vermillion, spikes 3 to 4 ft. high. A magnificent variety. Each 6c, doz. 50c, 100 for \$3.00.

1031 Mrs. Frank Pendleton Peach-blossom pink, heavily blotched blood red. Highest award of Am. Gladioli Society. Each 8c, doz. 75c, 100 for \$4.50.

1032 Panama A grand variety. Flowers and spike very large. Color lively pink. Sure to please you. Each 6c, doz. 50c, 100 for \$3.00.

1033 Peace Large white with lilac penciling on lower petals. Vigorous habit. Each 7c, doz. 60c, 100 for \$4.00.

America

1034 Primulinus Hybrids A distinct type from South Africa crossed with our popular varieties. Extra early, delicate shades of yellow, buff, fawn, primrose, etc., heretofore unknown in Gladioli. Each 6c, 12 for 50c, 100 for \$3.00, 500 for \$12.00.

1035 Princepine A beautiful, distinct variety, color dazzling scarlet with large snow-white blotches on lower petals. 7c, 12 for 60c, 100 for \$4.00.

1036 Queen Esther White ground, heavily streaked, flaked, and splashed with bright rose-purple. Lower petals blotched and streaked amaranth. Distinct in coloring, very early. Each 10c, 3 for 25c.

1037 Schwaben The largest and strongest growing yellow Gladiolus. Flowers large, pure canary yellow, shading to soft sulphur yellow. Lower petals marked with purples. Ea. 10c, 3 for 25c, 12 for 90c, 100-\$4.50.

1038 Set of 12 above named Gladioli for 75c.

Peace

For Latest Gladioli Novelties, see page 45

Superfine Mixed Gladiolus Bulbs

To those who want a choice assortment of Gladioli, at a nominal expense, and do not care for the named varieties, we recommend our Superfine Mixture, which we sell by the hundred thousands. This mixture is made up from the above and many other varieties which we grow under name. Also Groff's Hybrids, Lemoinei, Nancianus, Primulinus Hybrids, etc., which we grow in separate mixtures. A combined mixture that we do not hesitate to recommend. More than half of the Gladioli we sold last year were of this Superfine Mixture.

1045 Large Size In size from $1\frac{1}{4}$ to $1\frac{3}{4}$ inch and up in diameter, every bulb guaranteed to produce a fine large spike of flowers this year. 12 for 45c, 50 for \$1.50, 100 for \$2.75, 500 for \$12.00.

1046 Medium Size Size about $\frac{3}{4}$ to 1 inch in diameter. Healthy young bulbs, every one guaranteed to produce a nice spike, but not quite as large as the first size. 12 for 30c, 50 for \$1.00, 100 for \$1.75.

Note Order No. 1045 in quantities of 100 to 500. Plant at intervals from April to first of July, and you can have a continual supply of these grand flowers to decorate your home from July to October, at a nominal expense.

100,000 DAHLIA ROOTS

In accordance with our established policy we have again selected just a few of the most distinctly beautiful varieties of recent introduction in the various types. During the blooming season we went carefully over several acres containing more than two hundred varieties then in bloom, and selected the following varieties, placing our order then for delivery in 1925, giving the grower time to produce these varieties in sufficient quantities to supply our growing demand. In quality our roots are the best that can be grown. Do not judge by the size as some varieties naturally grow twice as large as others.

Cactus Dahlias

Cactus Dahlia

1066 Golden Gate A mass of shimmering gold. This is one of the new hybrid cactus varieties. Inner petals artistically twisted and curved. Each 30c, 3 for 75c.

1067 Harbor Light A very fine cactus with long quilled petals of bright shimmering red so that it almost seems to throw off rays of light. Each 25c, 3 for 65c, doz. \$1.80.

1068 Libelle A very brilliant flower. Aster purple that is fairly dazzling. Free blooming. Each 25c, 3 for 65c, doz. \$1.80.

1069 Queen of Hearts The general effect is pure white but viewed closely you see the base of the petals running into soft lemon yellow, a very dainty flower. Each 25c, 3 for 65c, doz. \$1.80.

Peony Dahlia

1051 Peony Flowered, Lavender Queen

An exquisite light lavender flower, its petals broad, twisted and delicate in coloring. Your garden surely has room for this queen among Peony Dahlias. Each 35c, 3 for 90c, doz. \$2.75.

Show or Ball Dahlias

1096 Bird of Paradise Deep velvety red, each petal tipped and painted white, adding life and distinction to the flower. Good, long stems for cutting. Each 25c, 3 for 65c, doz. \$1.50.

1097 Caleb Powers Great large balls of white, softly blushed with the most delicate pink. One of the most beautiful show dahlias. Each 25c, 3 for 65c, doz. \$1.50.

1098 Dorothy Peacock The color is that appealing, clear live pink that everyone likes. The flowers have exquisite form and good size. Each 25c, 3 for 65c, doz. \$1.80.

1099 Manhattan Beauty An unique beauty, medium in size and variegated yellow and red. Each 20c, 3 for 55c, doz. \$1.50.

1100 Princess Victoria One of the best yellow show Dahlias, well deserving its royal name. Color clear primrose yellow. Each 20c, 3 for 55c, doz. \$1.50.

1101 Red Dandy Never fails to do well, giving you armful of bright red flowers round as balls. A long border row of Red Dandy is bright indeed. Each 20c, 3 for 50c, doz. \$1.50.

Decorative Dahlia

Show or Ball Dahlia

Decorative Dahlias

1081 Dr. Tyrrel An extremely large flower borne on 'long stems but the crowning feature is its color of old gold, bronze and orange. Each 35c, 3 for 90c, doz. \$2.75.

1082 Mrs. J. G. Cassatt

A clear lavender pink of good size, a soothing shade for the cut flower bouquet. Each 25c, 3 for 65c, doz. \$1.80.

1083 Jack Rose This is still the best dahlia. There are none that flower so freely, and the color is the same that made the "Jack" Rose so popular. Each 20c, 3 for 55c, doz. \$1.50.

1084 Princess Juliana Is the best pure white decorative having, received many awards and prizes at exhibits for its graceful form, size and standing qualities. Each 25c, 3 for 65c, doz. \$1.80.

A SET OF 4 GRAPE VINES

Only 50 cents. See inside front cover. 3 sets only \$1.00. If you don't need 3, ask your neighbor to join with you. Grow your own grapes for canning.

1111 Baby Pompon, Little Koerner

A new bronze shade in pompons. Petals creamy yellow, tipped strawberry red. The pompons are very free flowering and make pretty bouquets. Be sure to have Little Koerner. Price each 25c, 3 for 65c, doz. \$1.50.

1121 Collarette, Achievement

This new creation is the finest of the Collarette Dahlias, the illustration showing the graceful form of the flower. The large outer petals are rich velvety maroon, the collarette petals snowy with just a touch of pink. Price each 25c, 3 for 65c, doz. \$1.80.

Collarette Dahlia

Pompon Dahlias

Superfine Unnamed Dahlias

To those who wish a really choice assortment of Dahlias at a nominal cost, and do not wish to buy the named varieties, the three combinations offered below will give you the widest possible range of types and colors.

1135 Combination A

Contains one root each of peony, cactus, decorative, show, pompon and collarette types; not labeled. The 6 for 75c.

1136 Combination B

The same as A except that there are two distinct colors of each of the six types, not labeled. The 12 for \$1.40.

1137 Combination C

A general mixture of many types and colors, and we guarantee that you will be pleased. 12 roots for \$1.00.

LARGE FLOWERING CANNAS

For beds on the lawn, where a tropical effect is desired, we know of no plant so satisfactory. They keep the yard and lawn ablaze with color. There are a hundred or more varieties in cultivation. We have selected just a few of the best and most distinct types and colors. We handle them only in dormant roots, which may easily be started in a box in a warm room, or in a hot bed. All have green foliage except number 1153 which is bronze.

Four Best Cannas

The following four Cannas are generally considered the best in existence.

1151 The President "Fiery Cross."

The most sensational, largest flowering red canna to date. The immense rounded flowers 6 to 7 inches across in mammoth clusters on upright stalks, are of the most intense penetrating fiery-scarlet. Great borders of this variety surrounding the Capitol at Washington last season attracted much attention.

Each 25c, doz. \$2.00, 100 for \$12.00.

1152 City of Portland A grand new Canna.

Magnificent heads of perfectly formed flowers. Color, bright, rosy, salmon-pink. The best pink to date. 4 ft. Each 20c, 12 for \$2.00.

1153 King Humbert This wonderful Canna is the attraction wherever grown. Dark bronze foliage and immense, bright orange-scarlet flowers. Height 4 feet. Each 15c, 12 for \$1.50.

1154 Queen Helen Yellow Humbert.

A sport from King Humbert, having plain green foliage and enormous flowers. Color, golden yellow, dotted and blotched bright-red. Height 4 feet. Each 15c, 12 for \$1.50.

1155 Set of Four Best Cannas for 65c

King Humbert Canna

Queen Helen Canna

Six Popular Large Flowering Bedding Cannas

1160 Allemania Extra large. Orchid-flowering, bright scarlet with broad irregular golden yellow border, dotted and mottled with red. Height 5 feet. Each 12c, 12 for \$1.25.

1161 Crimson Bedder Height 3 1/2 feet. Green foliage. Compact habit. Large trusses of intense crimson flowers. One of the best. Largely used for bedding. Each 12c, 12 for \$1.25.

1162 Florence Vaughan Height 4 1/2 feet. An excellent bedder, having particularly fine green foliage and large golden yellow flowers, freely dotted with crimson. Each 12c, 12 for \$1.25.

1166 Set of 6 Bedding Cannas labeled for 60c

1163 Golden Gate Height 4 feet. The flowers open golden yellow, but soon become richly rayed with orange-crimson and apricot, centering to the throat. Each 12c, 12 for \$1.25.

1164 Madam Crozy The gilt-edge Canna. Height 3 1/2 feet. Immense trusses of brilliant vermillion scarlet with narrow edge of golden yellow. Very popular. Each 12c, 12 for \$1.25.

1165 Venus An exceedingly beautiful Canna. Color, warm, rosy-pink, edged with creamy-yellow. Large trusses of well formed flowers, green foliage, height 4 feet. Each 12c, 12 for \$1.25.

1167 Set of 6 not labeled for 50c. 12 for 90c

Miscellaneous Summer Flowering Bulbs

Elephant's Ear, Caladium One of the most effective tropical-like plants in cultivation for bordering Canna beds, or for planting singly or in masses on the lawn. Largely used in parks where their decorative value is appreciated. For best results, plant where they can be watered freely

1171 First size bulbs 20c each, 3 for 55c, 12 for \$2.00

1176 Cinnamon Vine Well-known hardy climber: quick grower, with beautiful glossy, heart-shaped leaves and sweet-scented flowers. Vines will run 25 to 40 feet in a season. Each 10c, 3 for 25c, doz. for 80c.

1178 Hyacinth Candicans Yucca-like foliage and tall spikes of pure white pendant, fragrant flowers in mid-summer. Perfectly hardy, of very easy culture. Height 3 to 4 feet. Each 10c, 3 for 25c, doz. for 80c.

1180 Madeira Vine One of the most satisfactory quick climbing vines for foliage effect, glossy green foliage, and feathery racemes of fragrant white flowers. Climbs 20 feet or more. Winter the tubers in cellar, like potatoes. Each 10c, 3 for 25c, doz. for 80c.

1182 Oxalis (Summer Flowering "Shamrock"). These useful little plants are very effective in masses or beds and are particularly valuable for edgings. They produce an unbroken row of foliage about 1 foot high and continuous bloom. Mixed colors, red, white and pink. 12 for 15c, 50 for 50c.

1185 Zephyranthus ("Fairy Lily"). One of the prettiest and most easily grown bulbs for pot as Gladiolus. Pure white fragrant flowers. Each 10c, 3 for 25c, doz. for 80c.

Double Dwarf Excelsior Pearl Tuberoses

No flower is more delightfully fragrant than the Tuberoses. Of very easy culture. Plant the bulbs in May in the garden. Each bulb produces a spike of beautiful waxy-white flowers in August and September. Tuberoses succeed best in light sandy soil and full sunshine. Do not plant until the soil is permanently warm. For earlier flowers, start the bulbs in pots in a warm room and transplant in the garden in May.

Double Tuberoses 1186 Large first size blooming bulbs, 2 for 15c, 6 for 40c, 12 for 75c

Elephant's Ear or Caladium

HARDY HERBACEOUS ROOTS

No home is complete without a well-selected assortment of hardy roots. They require so little attention and increase in size and beauty from year to year. Everything listed on this page is perfectly hardy, and our prices will be found very reasonable when quality is considered. There are a number of Hardy Biennials, including Campanulas, Digitalis or Foxgloves, Hollyhocks, etc., that we do not list here, for the reason that it will be much less expensive, and we believe more satisfactory for you to grow the plants from seed, which you will find listed on pages 35 and 36.

Hardy Aster

1201 Hardy Aster *Michaelmas Daisy*. These are among the showiest of our late-flowering hardy plants, producing an abundance of flowers during September and October, when most other hardy flowers are past. They grow freely in any soil, and require very little care. They are largely used to produce masses of foliage and flowers throughout the fall months. We offer them in three distinct colors, pure white, pink and lavender, but only in sets. Sold only in sets of three colors. The set for 40c.

1206 Aquilegia *Columbine*. The large, unique, long spur, red flowers, gracefully hung on tall stems, always attract attention. Perfectly hardy, increasing in size from year to year. We list only the New Long-Spurred Hybrids, in finest mixed colors. Each 15c, 3 for 40c.

1211 Bergamont *Monarda Didyma*. Forms neat bushy plants two feet high, covered with round heads of brilliant crimson-scarlet, with petals similar to the Cactus Dahlia, fragrant foliage, sometimes called Oswego Tea. 20c, 3 for 50c.

Hardy Larkspur Delphinium

1212 Hardy Baby's Breath *Gypsophila*. Immense Panicles of pure white fine gauze-like flowers in July and August. Indispensable for bouquets with other flowers. If cut when first open, tied in bunches and hung in a dark closet, tops down, to dry, they make a beautiful winter bouquet in connection with Helichrysum and other straw flowers. Strong 2 year blooming roots 25c, 3 for 60c, doz. \$2.00.

1215 Burbank's Shasta Daisy An improved type of Hardy Chrysanthemum Maximum, having immense single glistening pure white flowers 3 to 4 inches across, on tall stems. A fine cut flower, and very showy in the garden. Hardy and of easy culture. Each 15c, 4 for 50c.

Funkia or Day Lily

1216 Grandiflora. Large, pure white fragrant lily shaped flowers in August and September. Forms large clumps of big, glossy green foliage. Each 25c, 3 for 65c.

1217 Undulata Variegata. Graceful leaves having crimped or fluted creamy white edges. Splendid for edging beds. Also very desirable as a pot plant during early spring. Each 20c, 3 for 50c, 12 for \$1.75.

1218 The two varieties for 40c.

Hemerocallis Lemon Lily

Golden Glow

Every Item on This Page is Hardy

Hardy Larkspur

1221 Delphinium Belladonna

The beautiful "Belladonna" with its large spikes of clear sky-blue flowers always attracts attention. They bloom continually from July to frost. Perfectly hardy everywhere. See illustration, which is from a photograph. Strong blooming roots. Each 20c, 3 for 50c.

1222 Bellamosa Similar to Belladonna except in color, being a rich, deep blue, with distinct large white center. Each 20c, 3 for 50c.

1223 Gold Medal Hybrids

Vigorous, free blooming, with flower spikes 2 feet long. Grand assortment of colors, ranging from light blue to purple. 20c, 3 for 50c.

1224 Set of 3 Varieties for 50c

1229 Golden Glow Robust hardy plants, with handsome foliage, and tall flower stalks, carrying a multitude of perfectly double, golden yellow flowers from July to September. Very desirable. Each 15c, 4 for 50c.

1230 Double Hollyhocks One of the best hardy garden flowers. Make a charming hedge or background. We offer strong one-year roots, that will bloom this year, in four separate colors—white, pink, crimson and yellow. Sold only in sets of four. Set of four colors not labeled 60c, 3 sets for \$1.50.

1239 Hemerocallis *Lemon Lily*. Popular hardy plants, that should be in every garden. Tall spikes of fragrant, lemon yellow flowers in June and July. Easily grown, requiring no care, and increasing in size and abundance of flowers each year. Each 15c, 5 for 50c.

Unsolicited Words of Praise from Our Customers

"I don't think I ever received any plants with as good, long, healthy roots as the ones you sent me."

J. S. Chambers, Washington, D. C.

"All plants and bulbs received in good condition and they were not only the best, but your prices more reasonable than any I have found."

C. F. Hopkins, Henderson, Ky.

"Your gladioli were by far the best I had and your prices were the lowest of several companies."

J. C. Green, Sioux Falls, S. D.

"My cannas and roses from you this year are wonderful."

Mrs. J. E. Stannard, New Haven, Ct.

"50 Everbearing Strawberries I bought from you a year ago gave us berries from April to December. After Thanksgiving picked enough for family dinner and also picked some on Christmas Day. The original fifty plants have multiplied greatly."

A. G. Gower, Greenville, S. C.

"At the Horticultural Show in this city I took first prize on African Marigolds from your seeds."

R. E. Faylor, Lima, Ohio.

German or Flag Iris

Iris Germanica. The Fleur-de-lis of France

Very popular old-fashioned, hardy garden favorites, requiring little attention. Splendid for permanent borders along the driveway or edge of shrubbery. The prices are so low that you will want lots of them. We have selected six of the most distinct and desirable varieties as described below. We know of no plant more easily grown. Will furnish an abundance of flowers for Memorial Day.

- 1245 **Canary Bird** Very early. Self-colored pale canary yellow. Brown base. Each 15c, 3 for 40c, dozen for \$1.25.
 1246 **Florentina Alba** Extra early, large, fragrant, pure white flowers, with lilac shadings. Ea. 12c, 3 for 30c, doz. \$1.00.
 1247 **Her Majesty** New, standard rose-pink, falls bright crimson with darker shadings. Each 15c, 3 for 40c, doz. for \$1.25.
 1248 **Honorabilis** Standards golden yellow, falls richly veined mahogany. Each 12c, 3 for 30c, doz. for \$1.00.
 1249 **Mme. Chereau** Large pure white flowers, irregularly bordered with light blue, very beautiful. Very free bloomer, vigorous grower, spikes 2½ to 3 feet. Each 15c, 3 for 40c, 12 for \$1.25.
 1250 **Parisensis** Extra early, large deep, purple delicately penciled white. Very profuse bloomer. 12c each, 3 for 30c, doz. \$1.00.

1251 Set of 6 varieties, not labeled for 70c.

- 1280 **Iris Pumila** The earliest of all Iris bloom in April with Daffodils and early Tulips. Pretty blue flowers in great profusion on stems a foot high. Ea. 20c, 3-50c, 12-\$1.60.

Japanese Iris

"Better Gardens"

Tells how to cut out plants.

Free with \$2.00 Orders.

Siberian Iris

Butterfly or Rainbow Iris

1281 Siberian Iris

Orientalis By many considered the most delicate of all the hardy Iris. Forms large clumps with a multitude of tall stems of the most beautiful flowers of medium size. Blooming in June, between the German and Japanese varieties.

Two varieties **Snow Queen** and **Yale Blue**, the pair for 35c.

1290 Japanese Iris

Iris Kaempferi Finest of all the Iris family. The flowers are of immense size, from 6 to 8 inches in diameter, and of the most beautiful, delicate shades. Are perfectly hardy and will flower in profusion during June or July. A well established plant gives a dozen or more flower stalks 2 to 3 feet high, each stalk producing 2 to 4 enormous blooms. These plants prefer a cool, moist place, but do well in most any location. We offer them in fine mixture. Comprising many choice varieties. Each 20c, 3 for 50c, doz. \$1.75.

1296 Lily of the Valley

Universally admired for their dainty little pure white bell shaped flowers and exquisite fragrance. Easily grown, perfectly hardy everywhere, preferring a moist shady location. We have 50,000 fine Holland grown plants ready to fill your orders. 3 for 15c, 12 for 45c, 50 for \$1.50, 100 for \$2.75.

Meehan's Mallow Marvels

The most valuable acquisition in hardy Herbaceous plants introduced in recent years. Forms large plants or clumps 5 to 6 feet high and 3 to 4 feet across, blooming profusely from July to late fall. Immense single flowers 6 to 8 inches across, in the most beautiful colors, from white through various shades of pink and red to brilliant crimson. From 50 to 60 per cent will produce the brilliant red and crimson flowers. We however cannot supply them in separate colors.

1297 Strong one year blooming roots, each 20c, 3 for 50c, doz. for \$1.65.
 1298 2 year extra strong, each 40c, 3 for \$1.00, doz. for \$3.50.

Meehan's Mallow Marvel

Lily of the Valley

Platycodon

(Balloon Flower)

1301 Chinese Bell Flower

A splendid hardy perennial, having tuberous roots and forming bushes 2 feet high, with a profusion of pretty five petaled bell-shaped, star-like flowers, 1½ to 2 inches across. The flower buds before opening resemble small balloons, hence the name. A desirable plant, of nominal cost, that should be in every garden. Two colors, pure white and dark blue, not labeled, for 30c, 3 of each color (6 plants) 75c.

1306 **Hardy Everlasting Sweet Peas** (*Lathyrus Latifolius*). Hardy perpetual blooming Sweet Peas, fine for covering old stumps, fences, etc. They are perfectly hardy, increasing in beauty each year. Valuable for cutting. Three colors—White Pearl, Pink Beauty and Splendens Red. Strong roots. Set of three, one of each, not labeled, for 35c, 3 sets \$1.00.

Platycodon or Chinese Bell Flower

BEAUTIFUL CHINESE PEONIES

First of all in the list of hardy plants for size and beauty. As hardy as an oak, forming large clumps or bushes. Should be in every garden in the land. No matter how rich or poor you are, you cannot buy better varieties.

There are hundreds of named varieties and the list is still growing. It is useless to try to keep up with the procession. We have before us a peony specialist's catalog listing more than three hundred varieties. We believe our patrons will appreciate our efforts in selecting just a few varieties that are generally conceded to be the very best.

1315 Duchess de Nemours Medium early, vigorous grower and wonderfully profuse bloomer. Color pure white with sulphur shadings, gradually changing to pure snow white. In all Peonies there is none more beautiful than this in the half open state. Upright branching habit. A splendid Peony. Each 35c, 3 for \$1.00, doz. for \$3.75.

1316 Edulis Superba This might be called the Decoration Day Peony, as it never fails to be in bloom on May 30th. Large, shaggy, flat crowns, often 6 to 7 inches across. Color bright mauve pink, with silvery reflex. More largely grown for early cut flowers than any other variety. Each 45c, 3 for \$1.25, doz. for \$4.50.

Clump of Festiva Maxima Peonies

borne on compact spikes 3 to 4 feet high.

cutting. Succeed in any ordinary good garden soil. Always attract attention. Will keep a week or more after bloom. Bloom continually from July to October. Color rich orange scarlet. Hardy throughout the South; but require protection in North. Easily wintered over if buried in sand in cold cellar. Each 30c, 3 for 75c, doz. \$2.75.

1338 Yucca Filamentosa (Adam's Needle). A tropical-looking plant; long, narrow leaves that remain green the entire year. Tall stem in summer three or four feet high, bearing large spikes of creamy-white, bell-shaped flowers that retain their beauty for a long time. 2 year roots 20c each, 3 for 50c, doz. for \$1.75.

Duchess de Nemours Peony

Generally considered the best red Peony in existence. Its large, globular, compactly built flowers are a rich, even, brilliant, dazzling ruby-red, free from the objectionable violet or purple shades. Medium or mid-season. A better red has not yet been discovered. Each 75c, 3 for \$2.00, doz. for \$6.00.

1318 Festiva Maxima For seventy years this has stood at the head of the list of White Peonies, by some considered the Queen of all Peonies. It combines enormous size with wondrous beauty. Often 7 to 8 inches across. Color pure snow white with an occasional clear carmine marking in center. Each 50c, 3 for \$1.25, doz. \$4.75.

1320 Set of 4 Peonies for \$1.85.

1336 Tritoma Pfitzeri (Red-hot Poker, Torch Lily). (The Ever Blooming Flame Flower). Very handsome and showy plants for the border. Flowers

Tritoma Pfitzeri

HARDY GARDEN LILIES

These are among the most important and desirable bulbs for the garden. They are stately and beautiful, matchless in form, variety of color and exquisite fragrance, and for general effect they have no superior.

1340 New Chinese Regal Lily (*L. Muriophyllum*). This beautiful new Lily comes from North-western China, which is a guarantee of its hardiness. Bailey's Cyclopaedia of Horticulture says of it: "One of the most beautiful of all known lilies." The exquisite blending of tints and colors forming a charming contrast with the rich, deep green foliage. Highly recommended for general culture. The large trumpet-shaped fragrant flowers are pure transparent white, with a distinct rich canary-yellow throat and orange stamens. The buds and outside of petals are delicate pink, which is often reflected through the petals. Height 3 to 4 feet; mature bulbs producing 5 to 10 flowers in June and July. These bulbs not so large as other lilies. 3 year good sized blooming bulbs each 85c, 3 for \$2.25.

1341 Lilium Auratum (The Gold Banded Lily of Japan). Excellent for cut flowers, blooming in July and August. Flowers pure white, background dotted with crimson spots, while through the center of each petal runs a golden band. Flowers immense, sometimes six inches across, of delicious fragrance. Plant grows 3 to 5 feet tall and will bear up to 20 flowers. Large bulbs, each 40c, 3 for \$1.10.

1342 L. Speciosum Album Blooms in August and September and is one of the most popular grown. The petals are recurved and twisted in beautiful form, pure white and delicately perfumed. 3 to 4 feet. Each 40c, 3 for \$1.10.

1343 L. Speciosum Rubrum This is one of the joys of August; ruby spots informally distributed over a broad expanse of white. Many consider this the most beautiful of all lilies. Each 40c, 3 for \$1.10.

1344 L. Superbum (American Turks Cap Lily). A beautiful native variety attaining a height of 4 to 6 ft. and producing as many as 15 to 20 bright reddish-orange, spotted flowers. Each 25c, 3 for 60c.

1345 L. Tigrinum Flora Plena (The Double Tiger Lily). A very stately plant. 4 to 5 feet high bears an immense number of light orange red flowers spotted black. Blooms in July. Each 30c, 3 for 80c.

1349 Set of 6 Hardy Garden Lilies \$2.25.

Hardy Lilies

HARDY NATIVE FERNS

Hardy Native Ferns are rapidly growing in popularity as their value is becoming better known. They are easily grown, and so well adapted for shady locations where little else will succeed. There are usually nooks and corners around the home grounds where the sun seldom strikes, just the place for assorted clumps of Hardy Ferns. The above illustration is from an assorted planting in front of a north porch. Our plants come from northern New England where the temperature often registers away below zero, a guarantee of their hardiness.

Soil Ferns succeed best in a rich, light, loose, fibrous soil, with good drainage. If the soil is inclined to be soggy, raise the fern bed two or three inches above the surrounding surface. Before planting make the soil fine, and if possible incorporate some leaf mould from the woods, decayed chip-dirt or soil from around some old building, but never use fresh manure of any kind.

Water the fern bed occasionally with liquid "Watch-em-grow" Plant Food.

Hayscented
or
Gossamer
Fern

1631 Ostrich Plume Fern (*Oncoclea*). A very graceful as a palm, and one of the most satisfactory to grow. Makes a most effective background for other ferns. The fronds reach a height of two to three feet, with a width of six to eight inches. Sometimes called "The Palm of the North." In the above illustration the tall ferns in the background are of this variety. One of the most satisfactory ferns for the amateur to grow, always giving satisfaction. Grows in beautiful crowns, requiring considerable room. For a background plant two feet apart, or as single specimens, in partial shade. Each 30c, 6 for \$1.25, 12 for \$2.25.

1632 Evergreen Wood Fern (*Aspidium Marginale*). A desirable evergreen variety. Its large green fronds have a bluish tinge and are very durable. Cut fronds will keep a long time. It is easily grown and can be adapted to varying conditions. A desirable variety for general use. Each 25c, 6 for \$1.00.

Christmas
or
Dagger
Fern

1633 Hayscented or Gossamer Fern (*Dicksonia*). One of the varieties that will grow in either sun or shade. It propagates itself by underground root-stalks, and if planted in rich, porous soil will soon form masses. This is the best variety to plant where a mass of from 15 to 18 inches high is desired. Each 25c, 6 for \$1.00.

1634 Christmas or Dagger Fern (*Polystichum*). A widely known evergreen species, the fronds being largely used by florists. One of the easiest to grow and about the best evergreen, hardy fern we know. Fine for forming an undergrowth among shrubbery. A good fern to plant with other varieties. Each 25c, 6 for \$1.00, doz. \$1.75.

1635 Set of above Four Beautiful Hardy Ferns postpaid for 90 cents

1636 Three of each and three extra Ostrich Plume, 15 plants for \$2.75

\$5.00 ¹⁶³⁷ Special Hardy Fern Collection \$5.00

As a special inducement to plant these beautiful Hardy Native Ferns in larger quantities, we will send you **TEN** strong roots of each of the above four beautiful Hardy Ferns, forty in all, each variety carefully labeled, packed to carry safely, and delivered to you, all charges prepaid, for only \$5.00.

New Bulbs and Plants

Six Magnificent Gladioli

It is hard to say which one of these new Gladioli is the prettiest. Among hundreds of varieties tried at our test farm, we select these as the six best new ones.

1014 Anna Eberius A very rich and distinct wine purple. The flowers open large, and many of them at the same time—making a very impressive and brilliant spike of bloom. There is no other variety of quite that same shade of purple. Each 30c, 3 for 75c, doz. \$2.50.

1015 Alice Tiplady An extremely graceful flower and stalk, belonging to the Primulinus class. These, while not as large as other varieties make up for in their delicacy of coloring and pretty formation. Alice Tiplady is apricot and orange, a delightful blending. The ground color of the petals is apricot and this is overlaid with just enough carmelian red to give the orange effect. Each 20c, 3 for 50c, doz. \$1.75.

1016 Golden Measure This is the best recent introduction among the yellow varieties. It is golden yellow deep and rich in coloring, and very pure throughout. The individual flowers are large and the entire spike is long and well filled. The splendor of Golden Measure will certainly add brightness to your collection of Gladioli. Each 35c, 3 for 90c, doz. \$3.00.

1017 Liebesfeuer LOVE'S FIRE. This is a showy flower, a bright snappy scarlet that fairly dazzles. Some people think it is the best of all Red Gladioli. The flowers are large and the spikes so tall that in a mixed planting you would see it first. Each 25c, 3 for 60c, doz. \$2.00.

1018 Mrs. Dr. Norton The general color effect is creamy white but on looking closely you find delicate markings that make a beautiful combination. Near the petal tips are shadings of pale persian lilac, while the extreme petal tips are painted a very pretty shade of rose. The buds as they open are the pink of the La France Rose. Each 20c, 3 for 50c, doz. \$1.75.

1019 Orange Glory Truly a glorious variety—not alone in its coloring but in the exquisite ruffling of the petals. They are soft and wavy. The color is charming changing from flesh pink in the throat to coral and coral red at the petal tips, showing a distinct orange cast. If you are not familiar with the ruffled varieties by all means try Orange Glory. Each 25c, 3 for 60c, doz. \$2.00.

Gladiolus, Golden Measure

1020 Gladiolus Sextet Collection One bulb each of the above 6 varieties... **\$1.00**

Abelia Grandiflora

The Shrub That Blooms All Summer

1354 *Abelia Grandiflora* or Bush Arbutus

If you are familiar with the lovely trailing Arbutus of our Northern woods you will know what the flowers of Abelia are like, white delicately blushed pink. These beautiful little flowers cover the branches all summer and fall. The leaves are glossy and dark green. The plants grow 2 to 3 ft. tall and have gracefully arching branches.

Lift the plants in the fall and store in tubs in the cellar over winter. If protected outside the tops may be killed back but the plants will make top growth and bloom the following summer anyway. Each 35c, 3 for \$1.00.

New Double French Lilacs

The Double French Lilacs are very beautiful shrubs or small trees. The plant is more compact and attractive than the common Lilac, and does not grow as tall. You certainly will enjoy the panicles of double flowers. The season of bloom is about the same as common lilacs, but the plants begin to bear flowers while much younger and smaller. We have seen plants only 2 ft. high bearing fine big flower panicles. The French stocks are grafted on hardy strains so that they succeed well in this country. We have two colors in good strong 12-18 inch plants.

No. 1401 PURE WHITE No. 1402 PURPLE

Price: Either variety 75c each, 2 for \$1.40, 6 for \$3.50. One of each for \$1.40 or 3 of each for \$3.50.

1567 New Climbing Rose, Paul's Scarlet

If you saw an established plant of this variety, you would notice its remarkable brilliancy of color, which is maintained until the petals fall. And you would marvel at the number of flowers on each cane, the plants being literally covered from top to bottom. The flowers are vivid scarlet, good size, semi-double, and borne in clusters. You should have Paul's Scarlet and you will succeed with it, as it is perfectly hardy and climbs vigorously. Each 50c, 3 for \$1.25.

1501 Hybrid Tea Rose, Los Angeles

Los Angeles deserves the place at the top—it certainly being one of the most beautiful rare creations of recent years. The color deceives you somewhat at first glance. You might call it pink—then again the golden yellow predominates. One grower says "luminous flame pink toned with coral and shaded with translucent gold at base of the petals."

Los Angeles is a very fragrant rose rivaling the old Marechal Niel that respect. The buds are long pointed—the opened flower very large and beautifully formed. You will love Los Angeles and the plant will repay your care a hundredfold—in the beauty and wealth of its bloom. Each 85c, 3 for \$2.25.

The Lovely Rose, Los Angeles

1661 Collection One plant each of Nos. 1354, 1401, 1402, 1567 and 1501 for **\$2.75**

HARDY FLOWERING SHRUBS

Double Althea

of our grandmother's garden. Each 20c, 3 for 50c.

1370 Deutzia *Pride of Rochester.* Showy Japanese shrubs of the highest ornamental merit, and adapted to all good soils. Their clean foliage, upright dense growth, free flowering nature, renders them especially valuable. Double bluish white flowers in clusters along the branches in July. Each 20c, 3 for 50c.

1375 Forsythia *Golden Bells or Golden Chain.* A tall growing shrub with glossy green foliage, and an abundance of golden yellow, drooping bell shaped flowers on long, graceful branches, hence the name. Often in bloom when the snow is flying. Each 20c, 3 for 50c.

1378 Hydrangea *Paniculata Grandiflora.* Grows three to four feet high and is very bushy and compact. Blooms in July at a time when few other shrubs are in flower, the flowers remain until destroyed by frost. The flowers are pure white, changing to pink, and are borne in immense clusters. Strong 1 year plants. Each 25c, 3 for 60c, 12 for \$2.25.

1379 Hydrangea *Paniculata Grandiflora.* Extra strong 2 year, 45c, 12 for \$4.50.

1381 Hills of Snow *Hydrangea Arborescens.* The foliage is almost hidden by beautiful immense pure snow-white blooms in June and July. One of the few shrubs that succeeds in partial shade. Will stand 20 degrees below zero. Each 30c, 3 for 75c.

1384

Bush Honeysuckle

Lonicera Tartarica. 4 to 6 feet. Neat habit, glossy green foliage, and pretty little pink flowers in pairs ("Twin Honeysuckle"), followed by red berries. Each 20c, 3 for 50c.

Mock Orange

Bush Honeysuckle

1394 Snowball *Viburnum Opulus.* An old, well-known, and popular large growing shrub. Covered in May and June with great snow-white balls. Each 25c, 3 for 65c.

1396 Snowberry *Symphoricarpos Racemosus.* Neat shrubs of slender, graceful, medium growth, having pretty, small, pink flowers in June, followed by waxy-white berries throughout the summer, autumn, and early winter. Each 20c, 3 for 50c.

1398 Coral Berry or Indian Currant

Similar to the Snowberry except that its fruits are red, and that the smaller red berries cluster in thick ropes along the weighed-down stems. Each 20c, 3 for 50c.

Every home should be surrounded by a carefully selected assortment of hardy shrubs. By this means a continual succession of flowers may be had throughout the season. Once established, they require little attention, increasing in size and effectiveness from year to year. The stock we offer is strong, one year, field grown, well rooted, dormant plants, 12 to 18 inches high. The size usually sent by mail, cut back, ready for planting.

Double Althea *Rose of Sharon.* Attractive hardy shrubs or small trees, easily grown, and forming symmetrical small trees 6 to 8 feet high; also grown as flowering hedges. Large showy, double flowers. July to October. 1355 Best double white. Each 20c. 1356 Large double red. Ea. 20c, the two for 35c.

1360 Japanese Barberry A very desirable dwarf growing shrub for bordering clumps of large shrubs. Fragrant yellow flowers followed by red berries. For ornamental hedges see opposite page. Each 15c, 12 for \$1.20.

1365 Buddleia Magnifica *Butterfly Bush or Summer Lilac.* One of the most desirable summer flowering shrubs, beginning to bloom in July, it continues until cut by severe frost. The flowers are of a pleasing shade of violet mauve. Succeeds everywhere and blooms freely the first season. In the North it dies down to the ground in winter forming a new bush each year 5 to 6 feet high. Each 25c, 3 for 60c.

1367 Calycanthus *Sweet Shrub.* A favorite for a hundred years. The wood is scented, the foliage rich, and flowers of a rare chocolate color, having a peculiar, delightful odor. The old-fashioned shrub

Buddleia

Calycanthus

1386 Mock Orange

Or Syringa (Philadelphia). It seldom or never fails to bloom. The fragrant and beautiful waxy white flowers appear in great profusion in June. In shape and fragrance they resemble orange blossoms. Height 6 to 8 feet. Each 20c, 3 for 50c.

1388 Pussy Willow This is becoming very popular for home decoration during the winter months. Cut the branches at any time in winter. Place them in water in vases, in a warm room, and in a few days the pretty pussy-flowers will develop. Very easily grown, succeeding best in deep, moist soil. Each 20c, 3 for 50c, dozen for \$1.75.

1390 Sambucus *Golden Elder.* A strong growing golden leaved ornamental shrub, for growing as single specimens, or grouping with other shrubs. The best golden leaved shrub we know. Normal height 6 to 8 feet, but can be trimmed into a neat bush. Each 25c, 3 for 60c.

Snowballs

THIS IS THE SORT OF STOCK WHICH WILL INCREASE THE VALUE OF YOUR HOME

Four of the Best Spireas

1411 Spirea (Anthony Waterer). A very desirable dwarf growing, perpetual blooming shrub forming neat, round bushes two feet high, with large, flat sprays of rosy crimson flowers from June to September. Useful for bordering clumps of large shrubs or planting around porches. Remove the flowers as they fade. Each 20c, 3 for 50c, 12 for \$1.75.

Weigela, Rosea

1413 Golden-Leaved Spirea (Opulifolia var. aurea). Foliage is of a bright golden color and finely shaded. This is one of the finest golden-leaved shrubs for the contrast it offers. Each 20c, 3 for 50c, 12 for \$1.75.

1415 Spirea Thunbergii (Snow Garland). A Japanese variety of medium size, with narrow, delicate leaves and a profusion of small, white flowers in early summer. Leaves narrow, bright green, turning in autumn to orange and scarlet. Grows 3 to 4 feet high. Each 20c, 3 for 50c, 12 for \$1.75.

Spirea Van Houttei

1417 Spirea Van Houttei One of the most beautiful and graceful ornamental shrubs in the entire collection. Very largely used in all landscape work. Will fit in anywhere where graceful effect is desired. For ornamental hedges, in clumps with other shrubs, for borders in front of porch, or as single specimens it is always satisfactory. Each 20c, 5 for 75c, 12 for \$1.50.

1420 African Tamarix Strong slender growing shrubs, height 6 to 8 feet with feathery foliage and sprays of delicate pink flowers in early spring before the leaves appear. Very attractive. Each 20c, 3 for 50c.

1422 Weigela Rosea A very desirable strong growing shrub with deep pink flowers in great profusion in June and July, forms neat plants 5 to 6 feet high. Strong plants, 20c, 3 for 50c, doz. \$1.75.

1425 Weigela Nana Variegata Dwarfier new variety, more branching to 4 feet, leaves broadly margined creamy white. An abundance of pink flowers in June. One of the most desirable shrubs. Each 25c, 3 for 60c, doz. for \$2.25.

Ornamental Hedge Plants

Ornamental hedges are fast replacing the old wood and iron fences for boundary lines. They add much to the appearance of the home, increasing in beauty from year to year. Japanese Barberry and Privet are the most satisfactory varieties for this purpose.

Japanese Barberry (Berberis Thunbergii). Hardy, low growing shrub, with spreading thorny branches and small, bright green leaves that turn to brilliant orange and yellow in autumn; the bright red berries remain on the bushes throughout the winter, giving a cheery bit of color to the place.

1360—Extra Strong 1 year, well branched, \$8.00 per 100

1361—2 year transplanted, well branched, \$15.00 per 100

1430 California Privet (Ligustrum). No plant has come more rapidly and deservedly into public favor. Vigorous growth, glossy dark green foliage until after Christmas. Almost evergreen. Don't plant where the thermometer goes much below zero. 1 year, 12 to 18 inches, 12 for \$1.00, 100 for \$6.00.

1435 Ibota Privet (Japanese Privet). Valuable new variety, more branching than California Privet, bright green foliage and small clusters of fragrant white flowers. Its great value is for hedges, being absolutely hardy everywhere, and may be trimmed to any desired form.

1 year branched 12 to 18 inches, each 15c, 3 for 40c, 12 for \$1.25, 100 for \$8.00.

1440 New Ibolium Privet A variety of recent introduction claimed to have all the desirable qualities of the popular California Privet with the additional value of being absolutely hardy. We have been fortunate in securing a supply of fine plants. **Extra Strong, 2 year, well branched, doz. \$2.25, 100 for \$15.**

Hardy Climbing Vines

Nothing adds more to the attractiveness of any home than a few well-selected hardy vines. For porches, arbors, etc., and indispensable for hiding outbuildings and unsightly places.

1451 Ampelopsis Veitchii (Japan or Boston Ivy). Popular hardy climbing vine that clings to and completely covers any brick or stone wall. One year plants only. Each 20c, 3 for 80c, doz. \$1.50.

1458 Aristolochia (Dutchman's Pipe.) A vigorous, rapid growing vine with large, dense foliage. The flowers, however, are of little value compared with the light green foliage. Strong vines, 30c, 3 for 80c, doz. \$3.00.

1461 Bignonia Radicans (Scarlet Trumpet Vine). A robust hardy vine, having orange scarlet, trumpet-like flowers at the tip of the branches. Each 20c, 3 for 50c, doz. \$1.75.

1465 Chinese Matrimony Vine (Lycium). Hardy climbing vines, having a profusion of pretty pink flowers from June to September, followed by red berries. Each 20c, 3 for 50c, doz. \$1.75.

1468 Clematis (Paniculata or Snowbank). Sweet-scented Japanese Clematis. Completely covered in September with a mantle of pure snow-white fragrant flowers. Strong 1 year, heavy rooted, 20c, 3 for 50c, doz. \$1.75.

1471 Coral Clematis (Coccinea). An interesting rapid climbing species, producing very pretty bell-shaped, coral-red flowers from early June until late fall. Strong roots 35c, 3 for \$1.00, doz. \$3.00.

1475 Honeysuckle (Hall's Japan). Very rapid climber. Evergreen foliage, creamy-white, fragrant flowers from June to August. A most satisfactory vine to plant. Strong plants 20c, 3 for 50c, doz. \$1.50.

1478 Honeysuckle (Coral or Scarlet Trumpet). Quite distinct from Hall's Japan. Trumpet-shaped scarlet flowers in clusters. A strong vigorous climber. Each 20c, 3 for 50c, doz. \$1.50.

1480 Chinese Wistaria Hardy rapid-climbing vine, having large clusters of light purple, very fragrant flowers in June and July. Increase in size and beauty each year. Each 25c, 3 for 60c, doz. \$2.25.

Wistaria

A Pretty Swing Seat Covered with Honeysuckles or other vines, this makes an attractive feature for any home. This is only one of the many items described in "Planning and Planting the Home Grounds." See page 37.

Everblooming Hybrid Tea Roses

Large Two-Year, Field Grown Plants

Gruss an Teplitz Rose

flowers, full and double, beautiful buds. Very hardy, blooms very freely, almost always in bloom. 75c each, 3 for \$2.00, doz. \$7.00.

1494 Madame Butterfly The countless admirers of Ophelia will appreciate this new variety, its offspring. All the color tones of Ophelia are intensified; making it a symphony of white, bright pink, apricot and gold. Of the two, Madame Butterfly is fuller-petaled, more prolific, and of greater color appeal. Buds rich red, yellow base. 75c each, 3 for \$2.00, doz. \$7.00.

1495 Sunburst (Jos. Pernet-Ducher 1912). Flower superb cadmium yellow, with orange yellow center, large, fairly full, cupped form, the buds generally borne singly on long, stout stems are long and pointed; opening well. Growth very vigorous, upright, healthy and free flowering. This magnificent giant yellow rose has created sensation wherever shown; it stands head and shoulders above all other sorts of its color. 75c each, 3 for \$2.00, doz. \$7.00.

1496 White Ophelia A new variety that has made a record for itself that qualifies it to class with the very best. In comparison with several of the most popular white varieties it was decidedly the best. The flowers are produced freely on long stiff stems and are perfect in bud and when fully expanded. Each 75c, 3 for \$2.00, doz. \$7.00.

Above All Two-Year, Field Grown Roses

1500 The set of six Everblooming Hybrid Tea Roses for \$4.00.

Madame Butterfly

Pot Grown Hybrid Tea Roses

Hybrid Tea Rose

For the accommodation of those who wish to order a smaller, less expensive grade of Hybrid Tea Roses we are prepared to supply the following set in well established 1 year old plants, 6 to 8 inches high from 2 1/4-inch pots. There are millions of these little roses sold annually that give general satisfaction. Instructions for planting and for winter protection will accompany each order. Sold only in complete sets.

Bessie Brown—Very large, double flowers, color creamy-white, outer petals edged delicate rose, very fragrant. A magnificent Rose.

Eugene Marlitt—Rich, bright carmine with scarlet shadings. A strong, upright grower, and a constant bloomer. Extra large flowers.

F. R. Patzer—A distinct, robust, free-flowering rose. Large pointed, tea-scented buds on stiff, upright stems. Color, brilliant salmon-pink.

Kaiserin A. Victoria—The best white H. Tea rose we know. A continuous bloomer. Beautiful pure white, fragrant buds and flowers.

Helen Good—One of the best roses for the garden. Color, delicate yellow suffused with pink, each petal deeper in color at edge.

Miss Amelia Gude—A charming yellow rose. Long, pointed buds, outer petals reflexing. Deep yellow center, shading to cream-yellow. Very fragrant.

Red Maman Cochet—A splendid garden rose. A very strong grower and free bloomer. Large, round and full, deep rosy-red fragrant buds and flowers.

1511 Sold only in Full Sets. The Seven for \$1.00

Everblooming Hardy Cluster Rose

1520 Baby Rambler Entirely distinct from all other Roses. Neat, dwarf, compact habit, in bloom continually from June until frost. Pretty, little, perfectly double flowers in large clusters. Color brilliant crimson. Perfectly hardy, retaining its glossy green foliage all summer. Grows about 18 inches high. One of the finest ever introduced. 2-year field grown plant. Don't confuse this with the Climbing Ramblers. We have seen a number of beautiful hedges of this variety. Each 35c, 3 for \$1.00, doz. \$3.50.

1521 Rosa Rugosa Rubra

A valuable perfectly hardy Rose of vigorous growth, forming neat bushes 3 to 4 ft. high. In bloom usually from June to October. Large single rosy-crimson single flowers in clusters, followed by scarlet seed pods. Rich glossy green foliage, not subject to mildew. As single specimen plants or planted with other shrubbery it always gives satisfaction. Our prices are very reasonable. Each 25c, 6 for \$1.00, doz. \$1.75.

Baby Rambler

Hardy Hybrid Perpetual Roses

These are the beautiful "June Roses" so universally popular. They are the largest and richest in colors of all Roses, and are perfectly hardy everywhere. There are a hundred or more varieties, but in accordance with our established policy we have selected only four of the best varieties. They will be strong 2-year old field grown plants that should bloom this season. Tops cut back ready to plant.

1522 Frau Karl Druschki (Everblooming White American Beauty). This is undoubtedly one of the grandest hardy pure white Roses ever introduced. Makes splendid buds and immense flowers 4 to 5 inches across, perfectly double and delightfully fragrant. Each 60c, 3 for \$1.50, doz. \$5.50.

1523 George Arends (Pink Druschki). A magnificent new rose, closely resembling the popular Druschki in character and free blooming habit. Producing an abundance of satiny rose-pink flowers from June to October. This will become one of the most popular roses grown. Each 65c, 3 for \$1.75, doz. \$6.00.

1524 General Jacqueminot A rich, velvety crimson, changing to a scarlet crimson. This is the best known of all hybrid perpetuals, and is without rival in fragrance and richness of color. Blooms freely anywhere. Each 50c, 3 for \$1.25, doz. \$4.75.

1525 Paul Neyron The largest Rose in cultivation, sometimes called the Peony Rose. Color bright, fresh cerise red. Flowers are very double and full, delightfully fragrant. The plant makes a strong, healthy growth and has clear, glossy foliage. Blooms almost continuously June to October. Each 60c, 3 for \$1.50, doz. \$5.50.

1540 The Four Best Hybrid Perpetual Roses for \$2.00.

Paul Neyron Rose

Use the Order Blank

The order blank in the front of this catalog will help you and us also. Use it in making up your order, please. See the Index on page 54 for complete list.

Climbing American Beauty Roses

Four Beautiful Hardy Climbing Roses

Strong Dormant Field Grown Blooming Size Plants

1541 Climbing American Beauty A grand novelty of great merit. Cross between an American Beauty and an unnamed seedling; color rosy crimson, similar to its popular parent, and with same exquisite fragrance, a quality rarely found in climbing roses. Strong growth, making shoots 10 to 15 feet in one season. Flowers are from 3 to 4 inches in diameter, of fine form, and are produced in a great profusion in May and June. Each 40c, 3 for \$1.10, doz. \$4.00.

1542 American Pillar A single flowering variety of great beauty. The flowers are of large size, 2 1/2 to 3 inches across, of a lovely shade of pink, with a clear white eye and cluster of yellow stamens. These flowers are borne in immense bunches, and a large plant in full bloom is a sight not easily forgotten. The most beautiful rose plant we have ever seen was an American Pillar. Each 50c, 3 for \$1.35, doz. \$4.50.

1543 Doctor Van Fleet One of the newer type of climbers which combines absolute hardiness with flowers large as the tender sorts of Tea and Noisette class. This variety shows a mass of beautiful clustered buds, which open out into large, shapely flowers; delicate flesh white. Fine for cutting, stems 12 to 18 inches long. Each 50c, 3 for \$1.35, doz. \$5.00.

1544 Tausendschon (Thousand Beauties). A rapid growing, almost thornless climber, showing the blood of Rambler, Polyantha and Tea parentage. Its innumerable flower clusters make a pretty show in June and July; at first, the soft pink of Clotilde Soupert, and later deepening to a bright carmine rose. Each 40c, 3 for \$1.10, doz. \$4.00.

1550 Set of 4 Climbing Roses \$1.50.

Perkins Climbing Roses

Do you remember the beautiful climbing Roses that you admired so much when you saw them in bloom last June, and didn't you promise yourself that you would order a set this Spring for your own home? The Roses you admired were the pink, white and crimson Perkins.

These Perkins Roses are popular because they are so easily grown, and so beautiful when in bloom. We have 20,000 strong field grown plants ready to fill your orders.

1555 Dorothy Perkins The original "Perkins" Rose, and most popular pink climbing rose to date. A vigorous, rapid climber with glossy green foliage and clusters of clear shell-pink double flowers. Each 30c, 4 for \$1.00, doz. \$2.75.

1556 Excelsa (Crimson Perkins). Brilliant crimson-double flowers in immense clusters. Better in every respect than the popular Crimson Rambler. Best red climbing rose. Each 30c, 4 for \$1.00, doz. \$2.75.

1557 White Dorothy Like the well-known Dorothy Perkins, except in the color which is pure white. Each 30c, 4 for \$1.00, doz. \$2.75.

1566 The Three Perkins Roses for 75c

Our illustrated booklet "Planning and Planting the Home Grounds" will tell you how to build this Pretty Rose Arch. See page 37.

Rose Arch

Dorothy Perkins

A PAGE of SELECTED BERRY PLANTS

We want our patrons to grow the very best varieties of Berries. We are not going to confuse you by offering a long list of varieties. We have therefore consulted a number of experienced growers, and as a result have selected the following varieties which we confidently believe to be the best in their respective classes. You can make no mistake by planting these varieties.

The Two Best June Strawberries

1575 Kellogg's Premier This new variety is in a class by itself. It is the largest, earliest, and most productive of all the extra early varieties to date. Fruit uniformly large, brilliant deep red to the core, of the highest quality, and a good shipper. Will give you a big crop of fancy berries to sell before the prices drop. Price, 25 for 60c, 50 for \$1.00, 100 for \$1.75, 1,000 for \$12.00.

1576 Gibson Without doubt one of the biggest money-making strawberries grown. In some berry growing sections it is more largely grown than all others combined. Plants vigorous, berries extra large, bright-red, quality the best, ripens medium early. 25 for 50c, 50 for 85c, 100 for \$1.50, 1000 for \$10.00.

Gibson Strawberry

The Best Red Raspberry

1580 Early King This is an extra early red Raspberry. It is a week or ten days earlier than the old "Standby" Cuthbert. The berries are very large, bright-red, firm and easily picked. The canes are strong and perfectly hardy. One grower says Early King is the earliest and most beautiful red Raspberry he has ever grown. As a market variety it is a money-maker as you get the early market ahead of the big shipment of other varieties. Price, 6 for 45c, 12 for 85c, 50 for \$2.75, 100 for \$5.00.

Early King Raspberry

The Best Black Cap Raspberry

1585 Cumberland The "BUSINESS BLACK CAP." Biggest black Raspberry grown. This is offered with the assurance that it is the most profitable and desirable variety for home or market. Cumberland is very hardy everywhere. Extra productive, being the heaviest bearing variety in cultivation. Fruit is extra large, jet black, and of superior quality. Ripens medium early. This is the Standard Black Cap Raspberry, being more extensively grown than any other variety. Price, 6 for 45c, 12 for 85c, 50 for \$2.75, 100 for \$5.00.

Cumberland Raspberry

The Best Blackberry

1588 Eldorado This popular hardy Blackberry is known everywhere and more largely grown than any other because of its extreme hardiness and dependability. Where other varieties often fail by winter killing, Eldorado can always be depended on for an abundant crop. It is the Blackberry for every fruit grower. It is enormously productive, large, sweet and free from core. Price, 6 for 50c, 12 for 90c, 50 for \$3.50, 100 for \$6.00.

Eldorado Blackberry

The Best Dewberry

1590 Lucretia The most largely grown of all the Dewberries for home or market. It is a trailing species of Blackberry. It is earlier than the earliest Blackberry and larger than the largest of them. The trailing canes are hardy everywhere and free from disease. The fruit is superb, large and handsome. Jet black, sweet and melting. Price, 6 for 50c, 12 for 90c, 50 for \$2.75, 100 for \$5.00.

New Pedigree Asparagus

1595 Mary Washington Recommended by the U. S. Government at Washington. This strain was obtained by continual selection of the best plants of the variety Martha Washington, and produces large, straight, tender shoots of excellent quality. It is nearer being rust-proof than any other variety. We are fortunate in having 100,000 roots of this fine new variety which we can offer at the following reasonable prices. Price of Asparagus, strong roots, doz. 50c, 50 for \$1.50, 100 for \$1.90, 1,000 for \$13.00.

Asparagus

Rhubarb Roots

1597 Early Victoria A few clumps of Rhubarb in a corner of the garden will furnish a continual supply of material for pies and sauces during the early summer months. Strong one-year roots, 3 for 25c, 12 for 75c.

Horse Radish Roots

1600 Maliner Kren This new variety from Bohemia is by far the best. It is larger, earlier and whiter than the common kind. We offer the sets which are short lengths of roots. Plant with the smallest down and the upper portion 2 inches below the surface. Rows 2-3 feet apart, sets 12 inches apart in rows. Price, doz. 30c, 50 for \$1.00, 100 for \$1.75.

YOU CAN HAVE FRESH BERRIES ON YOUR TABLE EVERY DAY IN SEASON

New Everbearing Raspberry

1581 St. Regis A splendid new early red Raspberry that is well worthy a place in every garden. A genuine practical, profitable, productive, perpetual bearing variety. It produces an abundant main crop like the common varieties. Remove old canes 1st of August to make room for young canes, which are already ripening fruit, continuing until October. Berries large, bright red and of excellent quality. **Strong well-rooted plants.** Price 3 for 25c, 12 for 75c, 100 for \$6.00.

Everbearing Strawberry

The Luscious Berries of Progressive

1577 Progressive Wouldn't it be nice to be able to pick Strawberries during the late summer and fall after the common June varieties have stopped bearing? That is just what you can do if you plant this new Everbearing Progressive. They are easy to grow, the best practice being to keep the plants from bearing early by keeping the blossoms picked until August. Then the strength goes into making strong plants and you will get a big crop in late summer and fall of the first year. The berries are of good size and delicious quality. **Price 6 for 30c, 12 for 50c, 50 for \$1.50, 100 for \$2.50, 1000 for \$15.00.**

Wholesale Prices on Shrubs and Plants

We have thousands of inquiries each season from those who wish to purchase plants in large quantities. We can supply by the hundred and thousand in most varieties and list here the more popular kinds. Many of you have large plantings to make for new homes or for public buildings and parks. You can save money if you can use the quantities quoted.

TRANSPORTATION CHARGES. Unless otherwise specified orders for quantities of more than 25 will be shipped by express or freight at the purchaser's expense.

Flowering Shrubs

- 1355 ALTHEA, Double White.** 1 yr. 2 to 3 branches, well rooted. Doz. \$1.75, 25 to 40 at 12c each, 50 to 100 at 10c each.
1356 ALTHEA, Double Red. Same as white.
1378 HYDRANGEA, Paniculata Grandiflora. 1 yr. size. Doz. \$2.50, 25 to 40 at 18c each, 50 to 100 at 15c each.
1379 HYDRANGEA, Paniculata Grandiflora. 2 yr. extra heavy. Doz. \$4.50, 25 to 40 at 32c each, 50 to 100 at 30c each.
1396 SNOWBERRY. 1 yr. size. Doz. \$1.75, 25 to 40 at 12c each, 50 to 100 at 10c each.
1417 SPIREA, Van Houtte. 1 yr. size. Doz. \$1.50, 25 to 50 at 10c each, 50 to 100 at 8c each.
1418 SPIREA, Van Houtte. 2 yr. heavy. Doz. \$4.00, 25 to 50 at 28c each, 50 to 100 at 25c each.

Popular Hedge Plants

- 1360 JAPANESE BARBERRY.** 1 yr. size. Doz. \$1.20, 25 to 40 at 9c each, 100 for \$8.00, 1000 for \$65.00.
1361 JAPANESE BARBERRY. 2 yr. size extra heavy. Doz. \$2.25, 25 to 40 at 17c each, 100 for \$15.00, 1000 for \$120.00.
1430 CALIFORNIA PRIVET. 1 yr. size. 25 to 40 at 7c each, 100 for \$6.00, 1000 for \$45.00.
1431 CALIFORNIA PRIVET. 2 yr. heavy. 25 to 40 at 14c each, 100 for \$12.00, 1000 for \$90.00.
 In buying hedge plants figure at least on one hundred plants to every 100 ft. row to cover. Better yet, set the plants 3 inches apart making 150 plants to every hundred feet.

Gladioli for Cut Flowers

- On colors that are always in demand we quote special prices as follows; Per 1000
1026 America \$27.50
1032 Panama 25.00
1029 Halley 27.50
1030 Mrs. Francis King 27.50
1033 Peace 35.00
1037 Schwaben 40.00
1034 Primulinus Hybrids 22.00
1045 Superfine Mixed, large size 22.00
 You may order 500 at the 1000 rate.

Order Your Plants Early

Do not wait until the last minute to place your order, whether it be for one plant or one thousand. It is impossible to gauge exactly what the demand will be for each variety and it is sometimes necessary to reply "sold out" before the season is over. We make no bargain offers late in the season—our first price is always our lowest—and it is sometimes necessary to raise prices later on large quantities. So save money, be sure of your stock, save chances of delay, by ordering early. Shipment will be made when weather permits.

Small Fruits

An excellent chance to start a large planting at low cost.

- Per 1000
1580 RED RASPBERRY, Early King \$35.00
1581 RED RASPBERRY, Everbearing St. Regis 40.00

1153 KING HUMBERT. 25 to 40 at 10c each, \$8.00 per 100.
1154 QUEEN HELEN. 25 to 40 at 10c each, \$8.00 per 100.
ALL OTHER VARIETIES. Nos. 1160 to 1165, inclusive, 25 to 40 at 8c each, \$6.00 per 100.
1296 Lily of the Valley These are fine for making semi wild plantings or large beds in shady places. 100 for \$2.75, 500 for \$12.50, 1000 for \$22.00.
1221 Delphinium Belladonna One of the most popular of hardy perennials. We grow them in excellent quality on a large scale. **Strong blooming size roots.** Doz. \$1.50, 25 to 40 at 11c each, 50 to 100 at 10c each.

It's Not a Home 'til It's Planted

Plan A

Isn't this an attractive arrangement for the low bungalow type of residence?

No. 1—	6 SPIREA VAN HOUTTEI	\$2.10
2—	6 IBOTA PRIVET	1.20
3—	6 JAPANESE BARBERRY	1.20
4—	12 SNOWBERRY	4.00
5—	3 WEIGELIA, ROSEA	1.20
6—	3 FORSYTHIA, GOLDEN BELLS	1.00
7—	2 VINES, DUTCHMAN'S PIPE	.75
8—	2 CLEMATIS PANICULATA	.75
9—	2 PERKINS ROSES, Red and White	.80
42 plants, 2 yr. 18-24 and 2-3 feet		\$13.00
42 plants, 1 yr. size 12 to 18 inch		6.50

This plan gives you a wide variety of shrubs in a small space.

Special Plant and Bulb Collections

To make it easier for our friends that want moderate priced selections of bulbs and plants that would fit in the average garden we suggest the following. We have borne in mind relative popularity of varieties, ease of culture, and long periods of bloom. Because we prepare ahead and handle the collections in large volume we can save you money on their cost. You will understand of course that we cannot make any changes on assortments as listed.

1662 Perennial Plant Collection \$2.75

These may be planted in a border already established or be used as the basis of a new border planting. Plant them in groups, each variety by itself. The varieties chosen will give you flowers from early spring until late fall.

1 set (6 plants)	GERMAN IRIS	70 cts
4 plants	SHASTA DAISY	50 cts
3 plants	ASSORTED DELPHINIUM	50 cts
3 plants	AQUILEGIA	40 cts
1 set (3 plants)	HARDY ASTERS	40 cts
1 set (4 plants)	DOUBLE HOLLYHOCKS	60 cts

23 plants in all, regular price \$3.10.

The Collection as listed above (no change can be made) at a special price of \$2.75.

For the Rose Lover

1664 Collection of All Roses \$10.00

This is a real bargain for the rose lover, it will enable you to try out so many varieties at such a moderate price. When you see all these roses in bloom you will say to yourself "I'm certainly glad I bought that Rose Collection from Templin-Bradley."

1 set (6 plants)	HYBRID TEAS	\$ 4.00
1 set (7 plants)	HYBRID TEAS	1.00
1 plant	BABY RAMBLER	.35
1 plant	ROSA RUGOSA RUBRA	.25
1 set (4 plants)	H. P. ROSES	2.00
1 set (4 plants)	CLIMBING ROSES	1.50
1 set (3 plants)	PERKINS ROSES	.75
1 plant	H. T. ROSE, Los Angeles	.85
1 plant	CLIMBING ROSE, PAUL'S SCARLET	.50

28 roses in all, regular value \$11.20

The Grand Rose Collection as listed above at a special price of \$10.00, making your roses cost you only about 35c each, which is a mighty good bargain.

1666 Flowering Shrubs and Roses \$2.50

The shrubs are chosen so that you can get flowers early, midsummer and late. You can plant the shrubs in one group if desired or scatter them in your foundation or border planting.

1	DOUBLE ALTHEA, White	20 cts
1	FORSYTHIA	20 cts
1	HYDRANGEA, P. G.	25 cts
1	BUSH HONEYSUCKLE	20 cts
1	SPIREA, VAN HOUTTEI	20 cts
1	CORAL BERRY	20 cts
1	H. T. ROSE, GRUSS AN TEPLITZ	75 cts
1	H. P. ROSE, FRAU KARL DRUSCHKI	60 cts
1	CLIMBING ROSE, EXCELSA	30 cts

9 plants in all, regular value, \$2.90
The Collection as listed above (no change can be made) at a special price of \$2.50.

1665 Small Fruit Collection \$2.00

Even though your space is limited do not go without fresh berries from your own garden. They are much more delicious than those you buy. This collection is made up with the idea of giving you a taste of each variety and certainly will be well worth the space occupied.

25 plants,	EARLY STRAWBERRY, GIBSON	50 cts
12 plants,	EVERBEARING STRAWBERRY, PROGRESSIVE	50 cts

6 (1 set)	DAHLIAS, Combination A	75 cts
52	bulbs in all, regular value	\$3.52

The Collection as listed above (no change can be made) at a special price of \$3.00.

Watch-em-Grow

PLANT FOOD

Makes Sick Plants Well and Well Plants Better

Are your house plants as nice as you would like them to be, with the flowers as bright and the foliage as rich? Have you ever wondered why some people have more beautiful plants than others and why some folks seem able to make any kind of a plant do well?

Do you know that even a small trial package of Watch-em-Grow Plant Food will work wonders with a sickly plant? Try it and you will be amazed at the results you will see in a very short time.

You Can Do It Too A florist simply must make a plant look nice or else he cannot sell it. So in his greenhouse, he experiments with plant foods until he finds just the right combination to make plants thrive. Mr. Templin spent nearly fifty years in his own greenhouses and made a careful study of plant foods. About three years ago he began to work with probably the most noted chemist in America, to combine these elements into a well balanced plant food which we could supply to our regular customers. Watch-em-Grow plant food will help you to do well with plants.

A Little Goes a Long Way All Commercial Fertilizers must contain among other things, these three basic chemicals in some form or another, Ammonia, Phosphoric Acid and Potash. But the secret of good fertilizer is the proportion of each. In the form it is offered to you in Watch-em-Grow, this plant food not only has just the right proportions but it is highly concentrated, so that a little goes a long way.

Guaranteed Analysis

Ammonia, soluble in water.....	19%
Available Phosphoric Acid.....	10%
Potash, soluble in water.....	14%
Total, in perfect balance.....	43%

Where Shall I Use It? All plants, from a tiny blade of grass to a large tree will be benefited by drinking of this food.

"Before and After"

But indoor plants always have a greater struggle to succeed than do outdoor plants and as we have nothing but indoor plants for several months each year, perhaps the greatest use you will find for Watch-em-Grow Plant Food is on the house plants and cut flowers indoors. But don't overlook the use of it on your roses, bulbs and shrubs.

How Do I Use It? Being a clean, odorless powder which will dissolve quickly in water, it can be easily applied to plants just as you ordinarily water plants. You will find complete instructions on each package, but the following suggestions will show its value.

For Potted House Plants Dissolve a rounded teaspoonful in a cup of hot water, pour this into a gallon of cool water and you are ready to feed your plants. For a plant in a six inch pot, a pint every few days until you see a decided improvement, then use every month or so.

Cut Flowers Drop a pinch of Watch-em-Grow powder in the water. It will make the bouquet last longer and will be worth the price of the food.

In Potting When you change the soil of pot plants, mix a teaspoonful of Watch-em-Grow with a gallon of soil before you set the plants.

For Your Lawn Watch-em-Grow is too expensive to use as a general lawn fertilizer but if you have spots in your lawn where it is hard to keep the grass green, sprinkle with the solution and you will be surprised at the results you will soon see.

For Your Garden Both flowers and vegetables will be greatly benefited if Watch-em-Grow in the same solution as recommended for house plants is sprinkled over the seeds before they are covered. Then, during the growing season, if you have any backward plants, treat them just like we suggested for house plants. You will notice the difference in a few days.

The 50-cent Can

A Large Trial Package for Only 10 Cents

Send us 10 cents for a large trial package of Watch-em-Grow Plant Food, with directions for using. After using the contents, you can send us the empty package and only forty cents and receive one regular fifty-cent can of Watch-em-Grow Plant Food. This makes the trial package cost you nothing in the end.

1000 Large Trial Package only 10 cents

1001 Big Eight-Ounce Can 50 cents

No. 999 Nitragin, garden size packages, each 25c, 3 for 65c, postage paid.

Will Increase Your Crops

of Sweet Peas, Garden Peas and Beans.

Nitragin is a bacterial fertilizer that when applied to seed before planting promotes stronger, healthier growth, hastens maturity, increases the crop, improves its quality and enriches the soil. It is equally beneficial to Sweet Peas, Garden Peas and Garden Beans. In the case of Sweet Peas more and finer flowers are your reward, and in Garden Peas and Beans you can pick more pods per plant. Nitragin is easy to apply, full directions being given on each package.
